

## Publications

### John Garthwaite

#### A. Articles in Journals

1. Brown, D.A., Garthwaite, J., Hayashi, E. and Yamada, S. (1976). Action of surugatoxin on nicotinic receptors in the superior cervical ganglion of the rat. *Br. J. Pharmacol.* **58**: 157-159.
2. Garthwaite, J. and Balazs, R. (1978) Supersensitivity to the cyclic GMP response to glutamate during cerebellar maturation. *Nature* **275**: 328-329.
3. Garthwaite, J. (1979) Discrepancies in the extracellular space of sympathetic ganglia measured using different isotopes of mannitol and sucrose. *J. Neurosci. Methods* **1**: 185-193.
4. Garthwaite, J., Woodhams, P.L., Collins, M.J. and Balazs, R. (1979) On the preparation of brain slices: morphology and cyclic nucleotides. *Brain Research* **173**: 373-377.
5. Brown, D.A. and Garthwaite, J. (1979) Intracellular pH and the distribution of weak acids and bases in isolated rat superior cervical ganglia. *J. Physiol. (Lond.)* **297**: 597-620.
6. Garthwaite, J., Woodhams, P.L., Collins, M.J. and Balazs, R. (1980) A morphological study of incubated slices of rat cerebellum in relation to postnatal age. *Devl. Neuroscience* **3**: 90-99.
7. Brown, D.A., Fatherazi, S., Garthwaite, J. and White, R.D. (1980) Muscarinic receptors in rat sympathetic ganglia. *Br. J. Pharmacol.* **70**: 577-592.
8. Garthwaite, J. and Regan, C.M. (1980) Toxic effects of alpha-amino adipate on cultured cerebellar cells. *Brain Research* **194**: 603-607.
9. Garthwaite, J. and Balazs, R. (1981) Separation of cell types from the cerebellum and their properties. *Adv. Cell. Neurobiol.* **2**: 461-489.
10. Crepel, F., Dhanjal, S.S. and Garthwaite, J. (1981) Morphological and electrophysiological characteristics of rat cerebellar slices maintained in vitro. *J. Physiol. (Lond.)* **316**: 127-138.
11. Wilkin, G.P., Garthwaite, J. and Balazs, R. (1982) Putative acidic amino acid transmitters in the cerebellum II. Electron microscopic localization of transport sites. *Brain Research* **244**: 69-80.

12. Garthwaite, J. (1982) Excitatory amino acid receptors and guanosine 3',5'-cyclic monophosphate in incubated slices of immature and adult rat cerebellum. *Neuroscience* **7**: 2491-2497.
13. Garthwaite, J. and Wilkin, G.P. (1982) Kainic acid receptors and neurotoxicity in adult and immature rat cerebellar slices. *Neuroscience* **7**: 2499-2514.
14. Garthwaite, J. and Garthwaite, G. (1983) The mechanism of kainic acid neurotoxicity. *Nature* **305**: 138-140.
15. Garthwaite, J. and Gilligan, G.J. (1984) Kainate-glutamate interactions in rat cerebellar slices. *Neuroscience* **11**: 125-138.
16. Garthwaite, J. and Garthwaite, G. (1984) The mechanisms of kainic acid neurotoxicity: matters arising, a reply. *Nature* **308**: 561-562.
17. Garthwaite, G. and Garthwaite, J. (1984) Differential sensitivity of rat cerebellar cells in vitro to the neurotoxic effects of excitatory amino acid analogues. *Neuroscience Lett.* **48**: 361-367.
18. Garthwaite, J. (1985) Cellular uptake disguises action of L-glutamate on N-methyl-D-aspartate receptors. *Br. J. Pharmacol.* **85**: 297-307.
19. Garthwaite, G. and Garthwaite, J. (1985) Sites of D-[<sup>3</sup>H]aspartate accumulation in mouse cerebellar slices. *Brain Research* **343**: 129-136.
20. Bunn, S.J., Garthwaite, J. and Wilkin, G.P. (1986) Guanylate cyclase activities in enriched preparations of neurones, astroglia and a synaptic complex isolated from rat cerebellum. *Neurochem. Int.* **8**:179-185.
21. Garthwaite, G. and Garthwaite, J. (1986) In vitro neurotoxicity of excitatory amino acid analogues during cerebellar development. *Neuroscience* **17**: 755-767.
22. Garthwaite, G. and Garthwaite, J. (1986) Neurotoxicity of excitatory amino acid receptor agonists in rat cerebellar slices: dependence on extracellular calcium concentration. *Neuroscience Lett.* **66**: 193-198.
23. Hajos, F., Garthwaite, G. and Garthwaite, J. (1986) Reversible and irreversible neuronal damage caused by excitatory amino acid analogues in rat cerebellar slices. *Neuroscience* **18**: 417-436.
24. Garthwaite, G., Hajos, F. and Garthwaite, J. (1986) Ionic requirements for neurotoxic effects of excitatory amino acid analogues in rat cerebellar slices. *Neuroscience* **18**: 437-447.

25. Garthwaite, J., Garthwaite, G. and Hajos, F. (1986) Amino acid neurotoxicity: relationship to neuronal depolarization in rat cerebellar slices. *Neuroscience* **18**: 449-460.
26. Garthwaite, G. and Garthwaite, J. (1986) Amino acid neurotoxicity: intracellular sites of calcium accumulation associated with the onset of irreversible damage to rat cerebellar neurones in vitro. *Neuroscience Lett.* **71**: 53-58.
27. Garthwaite, J. and Garthwaite, G. (1987) Cellular origins of cyclic GMP responses to excitatory amino acid receptor agonists in rat cerebellum in vitro. *J. Neurochem.* **48**: 29-39.
28. Garthwaite, G. and Garthwaite, J. (1987) Quinolinate mimics neurotoxic actions of N-methyl-D-aspartate in rat cerebellar slices. *Neuroscience Lett.* **79**: 35-39.
29. Garthwaite, G., Yamini, B. Jr. and Garthwaite, J. (1987) Selective loss of Purkinje and granule cell responsiveness to N-methyl-D- aspartate in rat cerebellum during development. *Devl. Brain Research* **36**: 288-292.
30. Garthwaite, G. and Garthwaite, J. (1987) Receptor-linked ionic channels mediate N-methyl-D-aspartate neurotoxicity in rat cerebellar slices. *Neuroscience Lett.* **83**: 241-246.
31. Garthwaite, G. and Garthwaite, J. (1988) Electron microscopic autoradiography of D-[<sup>3</sup>H]aspartate uptake sites in mouse cerebellar slices shows poor labelling of mossy fibre terminals. *Brain Research* **440**: 162-166.
32. Garthwaite, G. and Garthwaite, J. (1988) Cyclic GMP and cell death in rat cerebellar slices. *Neuroscience* **26**: 321-326.
33. Garthwaite, J., Charles, S.L. and Chess-Williams, R. (1988) Endothelium-derived relaxing factor release on activation of NMDA receptors suggests role as intercellular messenger in the brain. *Nature* **336**: 385-388.
34. Garthwaite, J. and Brodbelt, A.R. (1989) Synaptic activation of NMDA and non-NMDA receptors in the mossy fibre pathway in immature and adult rat cerebellar slices. *Neuroscience* **29**: 401-412.
35. Garthwaite, G. and Garthwaite, J. (1989) Differential dependence on Ca<sup>2+</sup> of N-methyl-D-aspartate and quisqualate neurotoxicity in young rat hippocampal slices. *Neuroscience Lett.* **97**: 316-322.
36. Garthwaite, G. and Garthwaite, J. (1989) Quisqualate neurotoxicity: a delayed, CNQX-sensitive process triggered by a CNQX-insensitive mechanism in young rat hippocampal slices. *Neuroscience Lett.* **99**: 113-118.

37. Garthwaite, G. and Garthwaite, J. (1989) Neurotoxicity of excitatory amino acid receptor agonists in young rat hippocampal slices. *J. Neurosci. Methods* **29**: 33-42.
38. Hajos, F., Garthwaite, J., Garthwaite, G. and Csillag, A. (1989) Morphology of supravital brain slices preincubated in a physiological solution prior to fixation. *Acta Morphologica* **37**: 181-199.
39. Garthwaite, J., Garthwaite, G., Palmer, R.M.J. and Moncada, S. (1989) NMDA receptor activation induces nitric oxide synthesis from arginine in rat brain slices. *Eur. J. Pharmacol.* **172**: 413-416.
40. Garthwaite, J., Southam, E. and Anderton, M. (1989) A kainate receptor linked to nitric oxide synthesis from arginine. *J. Neurochem.* **53**: 1952-1954.
