Georg Klein Publications 1951-1980

1. Klein, G

Development of a spectrum of ascites tumors.

2. Klein, G

Conversion of solid into ascites tumors

3. Klein, G., Klein, E

The evolution of independence from specific growth stimulation and inhibition in mammalian tumour cell populations.

4. Klein, G., Klein, E

Histocompatibility changes in tumors

5. Klein, G

Variation and selection in tumor cell populations
Canadian Cancer Conf., 1959, 3:215-240

6. Klein, E., Klein, G., Hellström, K.E

Further studies on isoantigenic variation in mouse carcinomas and sarcomas

Demonstration of resistance against methylcholanthrene-induced sarcomas in the primary autochthonous host
8. Sjögren, H.O. Hellström, I., Klein, G

**Resistance of polyoma virus immunized mice against transplantation of established polyoma tumors**

9. Klein, G., Sjögren, H.O., Klein, E.

**Demonstration of host resistance against isotransplantation of lymphomas induced by Gross agent.**

10. Klein, G., Klein, E.

**Antigenic properties of other experimental tumors.**

45. Klein, G., Harris, H. Expression of polyoma induced transplantation
57. Reedman, B.M., Klein, G. Cellular localization of an Epstein-Barr virus (EBV)-associated complement fixing antigen in producer and

77. Petrányi, G., Kiessling, R., Klein, G. Genetic control of "natural" killer lymphocytes in the mouse. Immunogenetics, 1975, 2:53-62

80. Klein, G., Klein, E. Are methylcholanthrene-induced sarcoma-

88. Sugden, B., Summers, W.C., Klein, G. Nucleic acid renaturation and restriction endonuclease cleavage analyses show that the DNAs of a transforming and nontransforming strain of Epstein-Barr virus share approximately 90% of their nucleotide sequences. J. Virol. 1976, 18:765-775.

91. Jondal, M., Klein, G., Oldstone, M.B.A., Bokish, V., Yefenof, E.

102. Yefenof, E., Bakács, T., Einhorn, L., Ernberg, I., Klein, G. Epstein-
