Wednesday 28 November 2018
15:00 – 18:00

ALL DOCUMENTS CAN BE FOUND here: https://www.ae-info.org/ae/Acad_Main/Annual_Business_Meetings (no passwords needed)

In the chair: The President – Professor. Dr. Sierd Cloetingh (Utrecht)

The meeting will be held in two parts:

Part 1: 15:00 – 16:00

30th Annual business meeting of members of the Academia Europaea.

Draft Agenda (NOTE an agenda and documents pack will be available at the door of the meeting room).

1. Welcome, adoption of the draft agenda [Doc 1]
2. To approve the minutes of the 2017 Annual Business Meeting [Doc 2]
3. Questions to the Trustees on any matters arising from the minutes of 2016, where these are not otherwise covered in the agenda below

Transaction of Ordinary Business

4. Appointments and elections

4.1 ELECTION OF a Vice PRESIDENT [Doc 4.1]

Motion: The Board of Trustees recommend that the AGM do elect Professor Genoveva Marti as a Vice President

4.2 ELECTION of an HONORARY TREASURER [Doc 4.2]

There are two declared candidates:

The Board recommend that the AGM elect Professor MILUTINOVIC as Treasurer.

5 Reports. (covering the past 12 months and going forward): QUESTIONS ARE INVITED

5.1 President – Sierd Cloetingh. 2017 Trustees (Activity) report, highlights and future plans

Motion: That the AGM adopt the 2017 Trustees report [the report will be available on the corporate website] [Doc 5.1]

5.2 Treasurer – Professor Ole Petersen

5.2.1 Annual financial statement:
Motion: That the AGM adopt the 2017 audited accounts. [Doc 5.2]

The accounts will be accessible on the AE website

5.2.2 Motion: that the AGM re-appoint the Auditors: Messrs Keith Vaudrey and Co. Ltd, London.

5.2.3 Annual members’ financial contribution for 2019

Motion: The Trustees recommend that the AGM approve a 2019 annual, [voluntary] contribution that is now based on an age –related scale. Effective from January 1st 2019. The proposed fee scale is:

Ordinary members
Members up to and including 65 years of age: 150 Euro
Members 66 - 75 years of age: 95 Euro

Foreign members: 95 Euro

Members over 75: Voluntary donations are welcomed, but they are optional.

5.3 Other reports
5.3.1 – SAPEA (Ms Louise Edwards)
5.3.2 – Hubs (if present)

6. Any other Business (notified in advance)
a. NOMINATION of NEW MEMBERS. The call for nomination of candidates for election to membership in 2019 will open on 1st December 2018 and close on 31st March 2019. All information and nomination forms can be found on the ae-info website.

------------------------------------------------------------------------------------------------------------------

Part 2: 16:15 – 18:00

WELCOME OF NEW AE MEMBERS ELECTED IN 2017 and 2018, and

Welcome of new members of the Young Academy of Europe

Coffee break

The AGM will be followed at 19:00 by the 2018 DISPUTATIO of BARCELONA debate and reception.
Minutes of the 29th annual general meeting of members of the Academia Europaea, held at The Hungarian Academy of Sciences, Budapest. September, 4th, 2017 at 13:30

Present: The President and 50 members

The President Professor Dr. Cloetingh welcomed members to Budapest and thanked the local organisers (Professors Balazs Gulyas and Eva Kondorosi) and the President of the Hungarian Academy – Laszlo Lovacz for his hospitality.

The President asked members for a minutes silence to honour former Vice President Anne Buttimer who had sadly passed away earlier in the year. To mark her passing and her contribution to Social sciences and the AE, Professor Guerrero (Barcelona Hub Director) had prepared a short video tribute that was played to the assembly.

1. The draft agenda [as previously published on the AE website], Papers had been made available in advance, on the website and were tabled for delegates in the room. No motions or resolutions from the membership had been notified in advance, as described in the notice for the AGM. The agenda was adopted.

The President then moved to part one of the agenda, and was in the chair for the welcome to new members (elected in 2016) who were present and the presentations to the 2017 Burgen Scholars.

Part 2 Normal business

2. The minutes of the Annual Meeting of 2016 (Cardiff), were approved without amendment and signed by the President.

3. Questions to the Trustees

No questions were put. No comments were received.

4.1 Re-election of the President

Professor Petersen (Treasurer) took the chair for this item. Professor Cloetingh left the room. Under the regulations, Professor Cloetingh had formally submitted his notice to stand for re-election for a second and final term. The Board had accepted this nomination and tabled a motion to the AGM: “the Board of trustees recommend that the AGM do elect Professor Sierd Cloetingh to a second and final term as President”. Professor Cloetingh gave a short statement in support of his candidacy. Questions and comments were invited. One member asked about future annual meetings and plans to review the structure so as to improve Humanities content and engagement. There were no other questions and Prof. Cloetingh left the room. Professor Petersen then moved the motion. On a show of hands, there were no votes against and Prof. Cloetingh was duly declared as re-elected as President.
Professor Cloetingh took the chair to acclamation and thanked the members for their vote of confidence.

4.2 and 4.3 The President launched calls for nominations for election as Treasurer of the Academia Europaea and as a Vice President. Both elections would take place at the AGM of 2018

5. Reports

5.1 The President tabled the 2016 consolidated activity (Trustees) report. Member questions were invited and none were forthcoming. The President thanked the four Regional Knowledge Hubs for their major contributions to an increased activity programme. The President specifically mentioned the new collaboration and agreement between the Academia Europaea and FEAM, euroCASE, ALLEA and EASAC for science advice to the European Commission (SAPEA); The HERCuLES group (Higher Education, Research and Culture in European Society) group were thanked for their continuing organisation of excellent symposia and publications in the field of higher education research and policy was described. Finally the President thanked the staffs of the Wroclaw, Barcelona and Bergen Hubs for their considerable efforts in 2014 and Ms Teresa McGovern at the London HQ office for her administrative support. The Graz information centre team (of Dana Kaiser and Helmut Leitner) were also thanked.

The President moved the resolution to adopt the 2016 Trustees report. There were no objections and the report was adopted.

5.2 The Treasurer

5.2.1 Annual Financial Statement for 2016. Prof. Petersen reported on the audited accounts for the financial year ended 31 December 2016. The audited accounts had been published in advance of the AGM and were tabled for members attending. He reported that for 2016, auditors had advised that Hub accounts were not to be incorporated, as Hubs were not legal subsidiaries of the Academia Europaea and acted autonomously with respect to financial matters. Hub financial interests were reported as needed in notes to the accounts. The Treasurer pointed out the improved financial situation compared to 2015 and that 2017 may provide for a small surplus due to careful control of all expenditures. However, members were asked to note that the financing of the Ae had shifted over the years from institutional support to one where member contributions were the dominant source of income and were critical to continuation of the AE. Questions were invited and none were forthcoming.

The Treasurer then moved the motion to adopt the 2016 accounts. There were no objections and the President declared the accounts adopted.

5.2.2 The Treasurer moved the resolution to re-appoint Keith Vaudrey and Co Ltd as auditors. The resolution was adopted.

5.2.3 Treasurer moved the resolution to fix the recommended member donation for 2018. After some discussion from the floor, it was agreed by the AGM (with one objection) to set a recommended rate of 150 Euros for all members up to the age of
For members 66 – 74 a figure of 85 Euros and for members over 75 a voluntary figure of 35 Euros would be suggested. Current flexibility and exemptions would continue to apply.

5.3 Other reports
5.3.1 The President invited professor Petersen (Cardiff Hub Director and alternate AE representative on the SAPEA Board) and Ms Louise Edwards (Hub manager and AE SAPEA Science Policy officer to report on the SAPEA project for policy advice to the Science Advisory mechanism of the European Commission. AE was the lead on the first major policy topic of the project – Food from the Oceans, and the target delivery date on November was on track. It was recognised that virtual networks needed to be established where nominations for expert groups had not been successful to maintain interest. The President thanked the Cardiff hub staff for their intensive work in all aspects of the SAPEA project. A member of the audience asked if Cardiff could provide advice to Section and Class chairs on how to structure topic proposals and ideas for submission into the SAPEA project team. This was agreed.

5.3.2 EASAC (European Academies Science Advisory Council). President invited the AE delegate to the scientific council of EASAC (Professor Don Dingwell – Class chair for the exact sciences) who gave a brief overview of where EASAC was going in terms of scope – moving away from traditional scientific topic areas (such as for example energy issues ). This would be controversial.

5.3.3 EASSH (European Association for Social Sciences and Humanities). Professor Larsen (Class chair for the Humanities) summarised the new organisation of which AE was a member. It was not a collection of National associations and focussed only on Pan European issues to promote the value and engagement of Humanities and Social sciences in European research programmes. The group does not address public policy issues.

5.3.4. The President invited those Regional Knowledge Hub staff present to make short presentations on their activities in the past year and looking forwards.

Barcelona: Professor Guerrero updated the AGM on plans for 2017/18 and announced the launch of a Hub video archive and channel.

Bergen: It was announced that the host and sponsors for the Hub had changed and been transferred to the University of Bergen courtesy of the Rector – Dag Rune Olsen. The pattern of events would continue under a new Hub Director to be appointed. The Hub was actively engaged in the SAPEA Food From The Oceans project with public outreach events linked to the topic.

Wroclaw: Plans for 2017 were outlined especially the Europa Una lecture series and a focus on the challenges of contemporary migration.

6a President then invited the President of EurAsc - Professor Tressaud to make a short presentation about their organisation and links with the AE.

The President thanked members for their attendance and declared the 2017 AGM CLOSED
Minutes signed at Barcelona on 28 November 2018

-----------------------------------
Sierd Cloetingh, President

DC/minutes/ September 2017
Election of an Vice President of the Academia Europaea

Following a call for nominations in 2017. The Board of Trustees having scrutinised the declared candidates and having obtained the consent of all of the candidates, hereby and in accordance with regulation 13 submit for election a single candidate. The Vice President (being an elected officer of the Academia Europaea as described in the articles of incorporation) shall serve for a period of three years from the date of election. The Vice President shall also be eligible to seek a second and final term of three years in due course.

The vote shall be by a show of hands of those members present.

Genoveva Martí - Statement of Candidacy
https://www.ae-info.org/ac/Member/Marti Genoveva
I hereby declare to the Trustees my intention to stand as a candidate for election to the post of Vice President of the Academia Europaea. I am totally committed to the vision and mission of the Academia Europaea as a pan-European institution, which is based on individual membership and independent of national institutions and which, from that position, promotes research throughout the continent and applies uniformly high standards of excellence across Europe. It would be an honour to contribute to further the development of that project by serving as Vice President and member of the Board of Trustees. I am a philosopher and I have been in academia since I finished my PhD at Stanford University in 1989. I have held positions as tenured associate professor and full professor of philosophy in the United States, Canada and the United Kingdom and I am presently a Research Professor in Spain. In each of the institutions I have been associated with I have undertaken research, teaching and organizational tasks.

I was the first director of the Barcelona Knowledge Hub (BKH) of the Academia Europaea. Building the Hub from scratch and organizing the 2014 Annual Conference was a challenging and extremely valuable experience. It made me appreciate more the core of values that inspire the Academia Europaea and it gave me the opportunity to work closely both with individual AE members of different academic sections and different geographical areas and with the organizational body of the AE. What I learned then will inspire my work if I am elected Vice President.

I fully endorse the key priorities laid out by the President of the AE in his September 2017 letter and, if elected, I will contribute to their implementation to the best of my abilities.

More specifically, I also hope: to contribute to enhance the transversal dialogue among the sections and to promote multi-disciplinary approaches within the Academia Europaea, to support the coordination of the Hubs of the Academia Europaea, and facilitate a fluid communication between Hubs and Board, to assist the Board in the task of coordinating with the Young Academy of Europe. As a director of the Barcelona Knowledge Hub I had the wonderful opportunity of working very closely with members of the YAE and I would be eager to be of service in that task, to
promote initiatives to increase gender balance within the Academia Europaea, to take special care to help redress the underrepresentation of some geographical regions, to support the efforts made by the AE in its approach to EU research bodies and research policy makers.

Supporting statements
Date: October 30th, 2017, Dear President, dear Executive Secretary,
We hereby wish to propose Prof. Genoveva Marti (Barcelona, 1956), Philosophy, University of Barcelona, Spain, for the position of Vice-President of the Academia Europaea. It is our belief that Prof. Marti would make an excellent Vice-President for the following main reasons: She is a pre-eminent scholar in her field of specialisation, philosophy of language and semantics, having published a wide selection of papers in the most prestigious journals and anthologies in these fields. Furthermore, she has a profound knowledge, not just of philosophy and linguistics, but also of science and technology in general. As testament to this, she was awarded, in 2012, the Narcís Monturiol Medal by the government of Catalonia for recognition of her contributions to scientific and technical progress. Lastly, we firmly believe that Prof. Marti would, if elected for the Vice-Presidency, dedicate herself further to the goals of Academia Europaea.

To be nominated Vice-President of the Academia Europaea it is not sufficient to have a stellar CV (as she has), but it also requires an organizational talent, interest in research policy and a capacity to think ahead with a clear strategic ability. Prof. Marti meets all these criteria. Her CV bears witness to her scholarly merits in Spain, in Europe and in the widest international context within her field, but also in the broader contexts where philosophical thinking and values are essential and have a strong impact. Her work has proven invaluable for the Academia Europaea in her indefatigable efforts to establish the AE Hub in Barcelona, which now is going to have an even greater importance for the Academy through the new schedule for its AE annual meetings. Her service to the Academy has always been carried out with energy, innovative thinking and personal engagement, both in her Section, AG, and Class, Al.

With the nomination of Prof. Marti we also want to support the desire of the Academy to redress the gender imbalance in its organizational bodies, and to increase the representation of parts of Europe which until now have been less visible. However, this support can only be justified if the candidate's scholarly credentials and experience are on the highest level. This is the case for Prof. Marti as is evident from her CV: http://www.ub.edu/grc/logos/genoveva-marti
Therefore, we the undersigned warmly support Prof. Genoveva Marti’s candidacy for the Vice-Presidency of Academia Europaea. Prof. Marti has accepted to be nominated by us.

Svend Erik Larsen, Aarhus, Denmark Milena Zic-Fuchs, Zagreb, Croatia Ricardo Guerrero, Barcelona, Spain
Election of a TREASURER.

A call was announced at the AGM in Budapest in 2017 followed by a call on the ae-info website and via the E-newsletter system. At the closing date of 31 October, two nominations had been received, as follows:

1. Prof. MARKUS DENZEL (elected 2010; DOB 1967; Economic History; History and Archaeology, Germany) [see: http://www.ae-info.org/ae/Member/Denzel_Markus]
2. Prof. VELJKO MILUTINOVIC (elected 2011; DOB 1951; Informatics, Serbia), [see: http://www.ae-info.org/ae/Member/Milutinovic_Veljko]

NOTE: That the Board of trustees recommend the election of VELJKO MILUTINOVIC.

All members present are invited to vote for ONE candidate. Tear out your preferred candidate and post into the Ballot box as you leave the room. The elected candidate will be announced on the AE website.

The Treasurer will take up responsibilities in 2019 and for a period of Three years. As an elected officer of the Academia Europaea as set out in the articles of incorporation: the Treasurer may with the agreement of the Board of trustees, seek re-appointment by the AGM for a second and final term of Three years in due course.

-----------------------------

Candidate information below

MARKUS DENZEL
Full name of candidate: DENZEL, Markus Andreas, Professor Dr. AE Membership number: 2816
Permanent Address: University of Leipzig, Department of History, Beethovenstraße 15, D-04107 Leipzig Email address: denzel@rz.uni-leipzig.de
Personal webpage URL (if any): http://www.gko.uni-leipzig.de/historisches-seminar/seminar/sozial-und-wirtschaftsgeschichte.html
https://www.ae-info.org/ae/Member/Denzel_Markus

*Statements of candidature:*

First if all, I would like to express that I am really interested in more engaging in the Academia Europea than I could do in the last years. The A.E. is a wonderful platform bringing interdisciplinary research together and opening floors for new methodological issues and thematic ideas. It is a pleasure for me to take part in the conferences where I can learn so much. So, I would like to give something back to the A.E. as an institution and to all colleagues. As I am an economic historian specialised in the history of finance, money and other means of payment, of financial and commercial institutions, I am interested in the position of Treasurer, which would fit very well with my CV. For I have much experience being a treasurer in different national scientific associations in Germany. So, I was treasurer of the Gesellschaft für Überseegeschichte for more than 5 years, I am treasurer of the Ranke-Gesellschaft since 14 years, and I am president of the German Foundation of Overseas History since 12 years. Furthermore, I am the treasurer of the Leipzig Konfuzius Institut since 2007, and I chaired the commission for finance of the University of Leipzig (Haushaltsausschuss) from 2006 to 2010. In all these positions I stay(ed) in close contact to different banks and got much experience in several topics public finance. Therefore, it would be an honour and a pleasure for me to bring to the Board this experience and expertise of a 20 years’ work in financial affairs of scientific associations and universities.

Please identify two supporting AE members. Please include their email addresses.
Prof. Dr. Olga Katsiardi-Hering, olkats@arch.uoa.gr [http://www.ae-info.org/ae/Member/Katsiardi-Hering_Olga]
Prof. Dr. Murat Çizakça, mcizakca@gmail.com [http://www.ae-info.org/ae/Member/%C3%87izak%C3%A7a_Murat]

*Present and Previous Positions*
Since 2002 Full Professor and Head of the Chair of Social and Economic History at the University of Leipzig
Since 2000 Contract Professor of Economic History at the Free University of Bolzano
Dean (2005-2008) and Dean of Studies (2003-2005) of the Faculty of History, Arts and Oriental Studies at the University of Leipzig

Fields of Scholarship
Economic History
History of Commerce and Finance in the Late Middle Ages and Early Modern Times
Honours and Awards
Heinz Maier-Leibniz-Prize of the Deutsche Forschungsgemeinschaft and the Bundesministerium für Bildung und Forschung
VELJKO MILUTINOVIC

Full name of candidate: Veljko Milutinovic AE
Membership number: 3008
Permanent Address: Dalmatinska 55, 11120 Belgrade, Serbia
Email address: vm@etf.rs
Personal webpage URL (if any): http://home.etf.rs/~vm/ and https://www.ae-info.org/ae/Member/Milutinovic_Veljko

Statement of candidature:

I strongly believe that I could give substantial contributions in all areas in which the Treasurer has to be active, and also when it comes to taking a "strategic view," as indicated in "The Role of the Treasurer" by Ole Petersen, currently The Treasurer, so I will here mostly elaborate on the "strategic view," since I find that to be most crucial for the future success of AE: I was lecturing or doing joint research or developing relevant experiences with local scientists in almost all countries that contribute members to AE, so I have a good understanding of the reality in most European countries (I could communicate in a number of European languages, which helped me a lot to understand the cultures). In addition, I could be of help in establishing the strategic cooperation of AE and AMACAD (American Academy of Arts and Sciences), as I lived and worked long in the USA, and currently have a cooperation with researchers of AMACAD, including two Nobel Laureates elected into AE in 2017, Jerome Friedman and Sheldon Glashow. I am on the Advisory Board of the Vienna Congress CONSULT, and could help in the strategic visibility domains. I was the co-architect/co-designer, for the USA defence industry (DARPA), of the world's first 200MHz microprocessor and I am a member of the scientific advisory board of Maxeler Technologies, London, UK (the fastest dataflow supercomputers), so I have industrial experiences, too, which is of potential interest for fund-raising (which, I know, is a duty of the whole Board) and other activities in the domain of strategies of the industrial cooperation.

Two Supporting AE Members

Dr. H. Maurer (hmaurer@iicm.tu-graz.ac.at)
Dr. M. Mihaljevic (miodragm@turing.mi.sanu.ac.rs) [http://www.ae-info.org/ae/Member/Mihaljevic_Miodrag]

Short Bio

Prof. Veljko Milutinovic

Member of Academia Europaea
Member of the National Engineering Academy of Serbia
Life Member of the ACM
Life Fellow of the IEEE

Prof. Veljko Milutinovic (1951) received his PhD from the University of Belgrade, spent about a decade on various faculty positions in the USA (mostly at Purdue University and more recently at the University of Indiana in Bloomington), and was a pioneering co-designer of the DARPA's first GaAs RISC microprocessor and the related GaAs Systolic Array. Later, for almost 3 decades, he taught and conducted research at the University of Belgrade, in EE, MATH, BA, and PHYS/CHEM. His research is mostly in datamining algorithms and
dataflow computing, with the emphasis on mapping of data analytics algorithms onto fast energy efficient architectures. Most of the research was done in cooperation with industry, where he is continuously well connected (Intel, Microsoft, Fairchild, Honeywell, HP, IBM, NCR, RCA, etc...). For 10 of his books, forewords were written by 10 different Nobel Laureates with whom he cooperated on his past industry sponsored projects. He published 40 books (mostly in the USA), he has over 100 papers in SCI journals (mostly in IEEE and ACM journals), well over 400 Thomson-Reuters citations (last counted in 2013), and about 4000 Google Scholar citations. Short courses on dataflow supercomputing he delivered so far in a number of universities worldwide: MIT, Harvard, Boston, NEU, Columbia, NYU, Princeton, Temple, Purdue, IU, UIUC, Michigan, EPFL, ETH, Stuttgart, Ulm, Karlsruhe, Heidelberg, Barcelona, Madrid, Napoli, Salerno, Siena, Pisa, etc. Also at the World Bank in Washington DC, the Telenor Bank, Brookhaven National Laboratory, Linkoln Labs, IBM TJ Watson, Yahoo NY, ABB Zurich, Oracle Zurich, etc. He delivered over 300 invited talks worldwide.

Section 1: Governance

THE TRUSTEES, AND COUNCIL OF THE ACADEMIA EUROPAAEA

Board of TRUSTEES (at 31 December 2017)

Officers

President: Professor Sierd Cloetingh Utrecht, (elected June 2014, re-elected at AGM of 2017)

Vice President: Professor Anne Buttimer Dublin, (deceased October 2017)

Hon. Treasurer: Professor Ole Petersen Cardiff (appointed April 2016)

Co-opted Members:
Professor Theo D’haen Leuven, (till end 2019)
Professor Eva Kondorosi Budapest (till end 2019)
Professor Balazs Gulyas Stockholm, (till end 2017)
Professor Don Dingwell Munich, (till end 2018)
Professor Svend Erik Larsen Copenhagen, (till 2019)
Professor Alex Verkhratsky Manchester, (till AGM 2019)

Appointed by Council:
Professor Kirsten Drotner (to 2019)
Professor Dagmar Coester-Waltjen (to 2019)
Professor Alain Peyraube (to 2019)

At the time of writing this report, the number of independent members that are elected to Council was set at a maximum of three. The Chairs of the Academic Sections are de facto members of the Council. Periods of office of Section chairs are as described in the regulations. The list of Section chairs, as at 31 December 2017, is at annex 6 of this report. Three members of the Council are nominated by Council to the Board of Trustees. Professors Peyraube, Drotner and Coester were appointed by Council to the Board of Trustees, with effect from January 2017. Prof. D’Haen is the Editor-in-Chief of the European Review. Three class chairs had their mandates modified by agreement with the Council, as follows: Prof Buttimer till AGM 2017 (died during the year), Prof Dingwell till AGM 2018, Prof. Larsen till AGM 2019. Prof. Petersen was re-confirmed as AE Treasurer pro tem until a new Treasurer can be elected. Prof Verkhratsky was appointed by the Trustees as Class Chair for Class C – life sciences until AGM 2019.

Class A1 – Humanities and Arts – Chair Professor Svend Erik Larsen (Trustee)
Class A2 – Social and related Sciences – Chair Professor Anne Buttimer (deceased October 2017))
Class B – Exact Sciences – Professor Don Dingwell (Trustee)
Class C – Life Sciences – Professor Alex Verkhratsky

The composition of the Council as at 31st December 2017 is at Annex 6.

London General Secretariat

Executive Secretary: Dr David Coates
Senior Administrator: Ms Teresa McGovern

Section 2: The structure and mission of the Academia Europaea

Prior to 2010 the Academia Europaea operated under a Deed of Trust and was registered as a Charity with the Charity Commission of England and Wales (former registration number 1001978). On 23 September, 2009: the Academia Europaea was incorporated as a Company limited by Guarantee and was registered at Companies House (number 07028223). See: https://beta.companieshouse.gov.uk/company/07028223. The Company was also registered as a not-for-profit charity (registration number 1133902, see http://apps.charitycommission.gov.uk/Showcharity/RegisterOfCharities/CharityWithoutPartB.aspx?RegisteredCharityNumber=1133902&SubsidiaryNumber=0

Governance and management

The affairs of the Academia Europaea are managed by a Board of Trustees. There is a consultative Council and other operational sub-committees that are described in annex 1. Elections and appointments to the Board and to the Council are as described in the regulations. These can also be found on the corporate website at www.ae-info.org.

The officers of the Academia (President, Vice President(s) and Treasurer) are elected by members. Other Trustees are either appointed from the Council, or co-opted directly by the Board. The AGM confirms these appointments in accordance with the regulations. The Vice Presidents (ex officio) are recommended by the President and appointed by the Board of Trustees for a defined term.

Training and induction of new Trustees

New Trustees are provided with a copy of the statutes and regulations; governance documents and sets of minutes of the past year meetings. Trustees also receive copies of documents describing the role and responsibilities of Directors and Trustees and links to the appropriate Charity Commission and Company House websites.

The mission of the Academia Europaea

The Academia Europaea is an international, non-governmental association of individual scientists and scholars, who are experts and leaders in their own subject areas as recognised by their peers.

The Academia will:

• Promote European scholarship and research and increase the wider appreciation of its value and importance
• Make recommendations to national governments and international agencies concerning matters affecting science, scholarship and academic life in Europe.
• Encourage interdisciplinary and international research in all areas of learning, particularly in relation to European issues.
• Identify topics of trans-European importance to science and scholarship, and propose appropriate action to ensure that these issues are adequately studied.

The Academia will endeavour to:

• Encourage the highest possible standards in scholarship, research and education.
• Promote a better understanding among the public at large of the benefits of knowledge and learning, and of scientific and scholarly issues, which affect society, its quality of life and its standards of living.

Charitable objectives:

The advancement and propagation of excellence in scholarship in the humanities, law, the economic, social and political sciences, mathematics, medicine, and all branches of natural and technological sciences anywhere in the world for the public benefit and for the advancement of the education of the public of all ages in the aforesaid subjects in Europe
Section 3: Trustees’ report for the period ended 31 December 2017

The Trustees would like to thank all of the organisations that have sustained the Academia through their generous general financial sponsorships in particular the authorities supporting the Barcelona Knowledge Hub and the German National Academy of Sciences (Leopoldina) a Patron member of the Academia Europaea, and those other foundations and organisations that have contributed to specific events and activities of the Academia during the period of this report. These organisations are identified in various places within this report and in the accounts and have been identified within with the various ‘reports to members’ of events held during the current period, where appropriate. The Trustees have been active in their engagement in the affairs of the Academia and a majority have attended every Board (and the annual Advisory Council) meeting. Trustees have been active in monitoring the affairs of the Academy. The Trustees wish to express their gratitude to the elected officers of the Academy for their hard work on behalf of the membership, in particular to thank Anne Buttmer our elected Vice President, who sadly died during 2017 and who had served as a Section chair and Trustee for a number of years.

This reporting period was carried out against the background of a consolidating financial picture. There were no new core sponsors, but a valuable increase in member donations over the year. Additional unreserved income was also realised from the overhead accrued through participation in the European Commission Horizon2020 funded project – SAPEA. The net result as expressed in the annual accounts for 2017 was an unrestricted funds reserves carried forward to 2018 of £45,154.

The Trustees are fully aware of the need to continue to search for new sources of sponsorship, in particular to support core costs and essential infrastructure. The Trustees therefore implemented the recommended level of member donations requested in 2017, and set new rates for 2018 in accordance with an age-related banding system. The Trustees wishes to acknowledge support received in 2017 from the following organisations: The Riksbankens Jubileumsfond; the Heinz Nixdorf Foundation for the renewal of sponsorship of the Erasmus Lecture, the Technical University of Graz for their dedicated I.T. and corporate web support, the Wenner Gren Foundations in Stockholm for support to the HERCuLES group and to World Scientific Publishing Ltd for their donation of book prizes to the 2017 Burgen Scholars. In addition the Trustees are grateful to Professor Balazs Gulyas, Eva Kendorosi and the President of the Hungarian Academy of Sciences for their generous hosting, sponsorship and organisational assistance for the 2017 annual conference in Budapest. Further financial support was gained locally for new initiatives that were organised by and run through the regional hubs. Hub activity reports for 2017 are annexed in full at the end of this report.

The Trustees are pleased to report that in 2017, inter – organisational links were further strengthened with a number of European federation organisations (ALLEA, FEAM, EASAC and euroCASE) and the Horizon2020 Policy project – SAPEA was funded. The project (SAPEA) is described in detail in the report. In addition, the Trustees collaborated closely with ALLEA to jointly organise the 2017 annual conference in Budapest. The AE also engaged in a number of specific activities that responded to policy issues across Europe and made a specific focus on strengthening links with Eastern European and Southern European communities, including in the Balkan region in collaboration with the ERC and COST mechanism, through the President and Prof. Eva Kendorosi (AE Trustee) in her capacity as an ERC vice-president.

The Trustees are pleased to report a further widening of the membership of the Academia Europaea with the admission in 2017 of 247 scholars. The Trustees also continued to support the further development of the Young Academy of Europe, in recognition of the AE mission to promote young researchers. The Trustees continue to recognise the difficult economic circumstances and are able to report that the Knowledge Hubs are financed with local support and were not reliant on core financial support from central funds for their day-to-day operations. The Bergen hub was successfully transferred to the authorities of University of Bergen under new direction. The re-constituted Hub continued operation, but without restoration of the previous financial contribution to the centre. The AE launched a new advanced prize award – the Adam Kendorosi advanced award, to honour the memory and achievements of Professor Adam Kendorosi. The first award was made at the 2017 annual meeting in Budapest and is reported on below.

Following the 2016 referendum to leave the European Union: The implication of a future departure of the UK (BREXIT) was considered by the Trustees in 2017. However, as the Academia Europaea does not rely for its operational existence on any formalised funding from the European Union (other than as a partner in the Horizon 2020 research programme funded SAPEA project, which will end at the time of the end of the exit transition period, and as it has a membership of individuals drawn from the continent of Europe and from beyond Europe. The Trustees consider the risks to the continuation of the Academia as a UK registered and domiciled charity to be negligible at this time. The situation will be kept under review and any necessary steps will be taken to ensure a continuation, including any changes in jurisdiction if needed. The UK government confirmed during the year that all organisations in receipt of
EU project grants from Horizon 2020 would have their funding guaranteed in the event of an exit without a negotiated settlement of research participation.

The Trustees, are pleased to place on record, their belief that at the time of compilation of this report, there are no additional or unforeseen risks that may place the continuation of the charity in jeopardy.

Public benefit statement

Over the year the Academia has published articles and papers in commercial journals; organised academic meetings and conferences that are open to young scholars and to the interested public in all areas of operation. The Academia has provided prizes and awards to support and recognise researchers in pursuit of their scholarship. To enhance the accessibility of the European scholarly community to the public, the Academia has maintained and enhanced its Web portal and has contributed to the betterment of European Policy through participation in providing expert, impartial advice to authorities and governmental organisations and has supported the Young Academy of Europe. A full description of all of the main activities is included elsewhere in this report.

The Trustees have consulted the guidance made by the Charity Commission for England and Wales on the Public Benefit requirement of the charities Act 2011. The Trustees are confident that they have complied with their duty under section 4 of the Charities Act 2011 in that they have had a due regard to public benefit guidance published by the Commission.

Future Plans

In the coming year the Trustees will continue to deliver the mission of the Academia through the running of appropriate workshops, publications and related activities. More focus will be given to activity through the four regional hubs. The Trustees will explore new opportunities to expand the network of regional Hubs and also seek alternative models of financing and support for provision of communications infrastructure. The Young Academy of Europe will continue to be supported, specifically to provide a focus to engage with and support young researchers from across Europe, who are embarking on an academic and research career. The AE engagement in European Science policy advice will be strengthened through taking a lead on topics within the Science Advice Policy project (SAPEA) funded by the European Commission and the Trustees will endeavour to find additional core funding and sponsorship sources for activity. The Trustees will especially focus on ensuring that its UK based membership and researchers in general can continue to be fully engaged with their international colleagues during the period of negotiation of the UK exit from the European Union.
Section 4: Centrally co-ordinated activities during the period, 1 January 2017 – 31 December 2017

The 29th annual conference “Sustainability and Resilience” was held in Budapest, under the patronage of the President of the Hungarian Academy of Sciences – Professor László Lovász. The event was organised by the AE Trustees; Professor Balazs Gulyas and Professor Eva Kondorosi and with collaboration of the President of ALLEA Professor Günter Stock MAE and of the Young Academy of Europe. The Trustees wish to thank the Hungarian Academy and The Board of ALLEA and the Young Academy of Europe for their efforts in delivering a very successful event. The list of sponsors and patrons can be found below

The 2017 Erasmus Medal was awarded on 5th September, 2017 to the distinguished international economist and scholar;

**Professor Andreu Mas-Colell**

The Erasmus Medal of the Academia Europaea is awarded on the recommendation of the Council, to a member who has maintained over a sustained period, the highest level of international scholarship and recognition by peers.

The laudation was made by Sergiu Hart MAE, Professor of Economics, University of Jerusalem.

Professor Mas-Colell delivered the 2017 Heinz-Nixdorf Erasmus Lecture title: “Is the era of work ending?”

**Lecture abstract:** This will be a speculative talk on the future of work – and jobs – in economies subject to the scientific and technological advances associated with mechanization. Three propositions will be defended: (i) that if it is made an overwhelming priority of public policy, the minimization of work is a possibility in the long-run, (ii) that the natural development of our managed economies will not necessarily lead to this outcome, and (iii) that this minimization of the role of work is an undesirable outcome that should not be fostered.

**BIOGRAPHICAL NOTE:**
Professor Mas-Colell is an expert in microeconomics and one of the world’s leading mathematical economists. He is the founder of the Barcelona Graduate School of Economics and a professor emeritus in the department of economics at Pompeu Fabra University in Barcelona, Catalonia, Spain. He has also served several times as a Minister in the cabinet of the Catalan government. He has been Secretary General of the European Research Council (July 2009-August 2010). Summarizing his and others’ research in general equilibrium theory, his monograph gave a thorough exposition of research
using differential topology. His textbook on microeconomics, co-authored with Michael Whinston and Jerry Green, is the most used graduate microeconomics textbook in the world.

Mas-Colell is a foreign associate of the United States National Academy of Sciences, a foreign honorary member of the American Economic Association, a fellow of the American Academy of Arts and Sciences, a member of the Academy Europaea, a member of the Institute of Catalan Studies, and a fellow of the Econometric Society. He has been President of the Econometric Society and of the European Economic Association. He has received honorary doctorates from the University of Alicante in Spain, the University of Toulouse and HEC Paris in France, the National University of the South in Argentina, and the University of Chicago in the United States. He is a recipient of the Creu de Sant Jordi, the highest civil honor of Catalonia, and of the King Juan Carlos Prize in Economics. Further information: http://84.89.132.1/~mcolell/cv.pdf

The Erasmus lecture is sponsored by the Heinz-Nixdorf Stiftung and will be published in a future issue of The European Review.

Heinz Nixdorf Stiftung

Award of a Gold Medal of the Academia Europaea, 2017

Made on 4th September 2017, at the Hungarian Academy of Sciences, Budapest, to;

Professor dr. Helga Nowotny
MAE

Citation: This award is only rarely given, and is made “... to those members and non-members of the Academia and to organisations, in recognition of the contribution made to European science through inspiration, public support, management expertise or by financial means.”

The Board of trustees and the Council of the Academia Europaea are pleased to recognise the substantial and sustained contribution that Professor Nowotny has made, to the enabling of and to the development of the European Research Area and systems for direct support and encouragement of European collaborative research and researchers, of all categories.

Professor Nowotny delivered her Gold Medal address during the opening session of the 2017 joint annual meeting of the Academia Europaea-ALLEA and the Young Academy of Europe, on 4th September, 2017.

Title: “Science and Resilience”

BIOGRAPHICAL NOTE:

Helga Nowotny is Professor emerita of Science and Technology Studies, ETH Zurich, and a founding member of the European Research Council. In 2007 she was elected ERC Vice President and from March 2010 until December 2013 President of the ERC. Currently she is Chair of the ERA Council Forum Austria, member of the Austrian Council and Vice-President of the Council for the Lindau Nobel Laureate Meetings. She is Nanyang Technological University Singapore Visiting Professor. She holds a Ph.D. in Sociology from Columbia University, NY. and a doctorate in jurisprudence from the University of Vienna. She has held teaching and research positions at the Institute for Advanced Study, Vienna; King’s College, Cambridge; University of Bielefeld; Wissenschaftskolleg zu Berlin; Ecole des Hautes Etudes an Sciences Sociales, Paris; Science Center for Social Sciences, Berlin; Collegium Budapest; Budapest. Before joining ETH Zurich, Professor Nowotny was Professor for Science and Technology Studies at the University of Vienna. Among other, Helga Nowotny is Foreign Member of the Royal Swedish Academy of Sciences and continues to serve on many international advisory boards in Austria and throughout Europe. Just to mention a few she is Member of the Steering Board of the
Falling Walls Foundation, President of the Board of Trustees of the Institute for Human Sciences Vienna and Member of the Scientific Advisory Board of the L’Institut d’études avancées de Paris. Helga Nowotny has published widely in Science and Technology Studies, STS, and on social time. Throughout her professional career Helga Nowotny has been engaged in science and innovation policy matters and continues to serve as advisor at national and EU level. From 2001 till 2005 she was Chair of the European Research Advisory Board, EURAB, advising the European Commission.

The laudation was given by Professor Enric Banda MAE (Barcelona)

-------------------------

The 2017 “Adam Kondorosi” Advanced Research Award

“The Adam Kondorosi Academia Europaea Award for Advanced Research” recognizes landmark research in symbiosis and related fields that has changed our understanding and made a significant scientific impact. It was presented at the Academia Europaea-ALLEA–YAE joint conference for the first time on 5 September 2017 for his work on rhizobial-legume interactions, to:

Professor Allan Downie MAE, [John Innes Centre, UK].

The laudation was given by Professor Jens Stougaard MAE, Aarhus

Award lecture title: “Symbiotic nitrogen fixation: a paradigm for inter-kingdom signalling”.

Abstract:
Rhizobia are bacteria that enter into an intimate symbiosis with leguminous plants, resulting in the formation of root nodules, in which the bacteria reduce N2 to ammonia, which is then taken up by the plant, stimulating growth. As the plants senesce, rhizobia from the nodules are released into the soil where they can re-initiate the nodulation process. The infection of legume roots and stimulation of nodule development by rhizobia requires a dialogue to be established between the bacteria and the plant roots. One aspect of this involves attraction of the rhizobia to legume roots and their specific attachment to root hairs. A second aspect is that the legume roots secrete chemical signals (flavonoids and related compounds). These are recognised by rhizobia, stimulating the synthesis of nodulation (Nod) factors, which are acylated chitin oligomers that are decorated with various chemical groups. These Nod factors induce plant responses at extremely low concentrations. One of the earliest observed responses of Nod factors added to legume roots is the induction of an oscillation of calcium levels in and around nuclei of root hairs. A second and independent response induced by Nod factors is an influx of calcium at the root-hair tip and this requires both higher levels of Nod factors and higher structural specificity of Nod factors. The calcium oscillation is required for both nodule development and infection, whereas the calcium influx appears to be specifically associated with initiation of plant-made infection structures. Secreted rhizobial proteins and polysaccharides also play important roles in enabling the rhizobia to initiate infection of legume roots usually via root hairs. Multiple mechanisms of plant bacterial signalling are important to minimise infection by those soil bacteria that will not confer the selective advantage of symbiotic nitrogen fixation. I will explain recent work describing the identification of legume genes associated with these early stages of infection, revealing roles for signalling kinases, cytoskeletal rearrangements, and localised induction of plant-cell-wall remodelling enzymes.
BIOGRAPHICAL NOTE:
After completing my BSc in microbiology (University of Strathclyde) and my PhD in biochemistry (University of Dundee) I worked as a postdoctoral fellow in yeast genetics (University of Rochester, New York) and then as a research fellow at the John Curtin School of Medical Research at the Australian National University. In this latter position I worked in the area of bioenergetics, using biochemical, genetic and molecular biology approaches to analyse oxidative phosphorylation. I was then recruited to a position at the John Innes Centre, where I started working on the nitrogen fixation symbiosis that occurs between rhizobia and their host legumes. After five years I took a position at CSIRO laboratory in Canberra, where I remained for three years before returning to the John Innes Centre. In the following 30 or so years I have been involved with and coordinated several international research programmes in the area of rhizobial-legume research. At the John Innes Centre I became chair of faculty and served on the management board, whilst maintaining an active focus on research. I have always been fascinated by the fact that rhizobia and legumes enter into a dialogue to enable these bacteria to infect legume roots, and induce the development of nodules in which rhizobia differentiate and reduce atmospheric N2 to ammonia which can be used by the plant. I am now an Emeritus Fellow at the John Innes Centre, where I remain actively involved with research.

“The Adam Kondorosi Academia Europaea Award for Advanced Research” recognizes landmark research in symbiosis and related fields that has changed our understanding and made a significant scientific impact. It will be presented at the Academia Europaea-ALLEA–YAE joint conference for the first time in September 2017 to Professor Allan Downie [John Innes Centre, UK], for his work on rhizobial-legume interactions.

The awards consist of a diploma/medal and prize money. This prize was established in recognition of the significant achievements made in the field of Plant and Microbial Nitrogen Fixation by the late Professor Adam Kondorosi.

Members of the Award Committee:
- Jens Stougaard, ENFC president (chairman)
- Eva Kondorosi, ENFC board
- Sharon Long, Stanford University
- Graham O’Hara, Murdoch University
- Klaus Palme, Academia Europaea
- Mart Saarma, Academia Europaea
- Luis M. Rubio, ENFC board

-------------------

The 2017 Burgen Scholars awards,

The Burgen Scholarships are named in honour of our founding President – Professor Arnold Burgen FRS MAE.

They provide recognition to younger European scholars, at the post-doctoral level, who are emerging talents and potential future leaders in their field. Recipients may or may not yet have an established position.

The nomination of candidates is a task given to the members of the Academia Europaea resident in the country that is hosting the annual meeting.

Up to ten awards can be made. The awards cover the costs of attendance and participation in the Annual Conference (registration fees, travel and accommodation).

The Burgen Scholarship award is marked by the presentation of a certificate to the successful candidates, and a book prize generously donated by World Scientific. Costs for attendance and participation are covered by the AE.

A local committee of Academia Europaea members who are responsible for the organisation of the Annual Conference make the final selection of the list of Burgen scholars from amongst those nominated by their fellow national members of the Academia Europaea.
The Academia Europaea in collaboration with World Scientific and The Hungarian Academy of Sciences was pleased to award the 2017 Burgen Scholar awards to:

Éva Dékány
Eva Doka
Balázs Enyedi
Gergely Maróti
Dömőtőr Pálvölgyi
Balázs Pozsgai
Brigitta Tóth
Péter Vancsó
Deodáth Zuh

(in alphabetical order by family name).

TITLE AND NAME: Dr. Éva Dékány

AFFILIATION: Research Institute for Linguistics of the Hungarian Academy of Sciences

LINK TO WEBPAGE: http://www.nytud.hu/depts/tp/dekany/index.htm
personal: https://sites.google.com/site/dekanylinguistics/home

FIELD OF SCHOLARSHIP: Linguistics

BIOGRAPHICAL NOTE: Éva Dékány was born on March 18, 1983 in Kecskemét, Hungary. She graduated from Eötvös University (Budapest) as an M.A. in English Language and Linguistics in 2006 and as an M.A. in Theoretical Linguistics (with distinction) in 2007. She pursued a doctoral degree at the Center for the Advanced Study of Theoretical Linguistics at the University of Tromsø between 2007 and 2011, defending her PhD thesis in 2012. Since 2012, she has been working at the Research Institute for Linguistics of the Hungarian Academy of Sciences (RIL HAS). Between 2013 September and 2017 August, she held two successive postdoctoral grants from HAS. In 2016 she received the József Herman Young Researcher’s Prize from RIL HAS and the Prima Junior Award from the Prima Primissima Foundation. As of 2017 September, she is the holder of a Premium postdoctoral grant from the Academy.

DETAILS OF RESEARCH:
Éva Dékány’s work has had two main strands: the noun phrase (NP) and (non-finite) clausal subordination. International research shows that the NP has a finer structure than previously thought, but the new results after the late 90’s were not applied to Hungarian. She integrated this research into the analysis of the Hungarian NP and set up a new, refined model thereof, which is new both in its details and justification. She was the first to describe and analyze Hungarian classifiers. She provided the first detailed analysis of the possessive -é suffix, and (in co-authored work) the first analysis of Hungarian possessors that can only bear Dative case. She gave the first model of Old Hungarian non-finite embedded clauses and in co-authored work provided the first formal analysis of how Hungarian relative pronouns grammaticalized. She is one of the first linguists to apply formal grammatical models to Khanty and Udmurt in general and embedded clauses in particular. She also collaborates on the ‘Comprehensive Grammar Resources: Hungarian’ project at RIL HAS that is preparing the most detailed grammatical description of Hungarian to date.

TITLE AND NAME: Dr. Eva Doka

AFFILIATION: National Institute of Oncology, Budapest, Hungary
FIELD OF SCHOLARSHIP: Chemistry

BIOGRAPHICAL NOTE:
Place of studies: University of Debrecen
MSc in Chemistry, 2012
BSc in Mathematics, 2013
PhD in Chemical Sciences, 2016

Thesis: Experimental and Modelling Studies on the Reactions of the Sulfate Ion Radical
Supervisor: Dr. Gábor Lente, Dept. of Inorganic and Analytical Chemistry

Current occupation: Chemist
National Institute of Oncology,
Dept. of Molecular Immunology and Toxicology, Budapest, Hungary

Foreign studies:
Karolinska Institutet, Stockholm 1 month
Tohoku University, Sendai, Japan 2 months

DETAILS OF RESEARCH:
I’ve been trained in the experimental and computational methods of solution phase reaction kinetics, and the studies of the mechanism of complex redox reactions, mainly regarding environmental chemistry.
I’m currently involved in fundamental biochemical research. Our group has two main lines of interest, the biological actions of hydrogen sulfide, a newly recognized endogenously produced signalling molecule, and the redox regulation of thiol proteins by various posttranslational modifications. A close link between these subjects are the formation of protein persulfide and polysulfide moieties on cysteine side chains, which was previously shown to regulate enzymatic activities. In our laboratory, we developed a novel experimental method for the detection of protein persulfidation from biological materials such as living cells or tissue samples. Furthermore, we showed that global persulfidation level is tightly regulated by the major disulfide reductase machineries of the cells, the thioredoxin and the glutathione systems. We are currently examining the consequences of this newly recognized functions of the NADPH dependent reductase system on cellular signaling and redox regulation.

Doka, E., Arnér, E. S. J., Schmidt, E. E., Nagy, P. Methods in Molecular Biology, in press

Balázs Enyedi, M.D., Ph.D.

Department of Physiology, Semmelweis University

Cell Biology and Physiology

Balázs Enyedi obtained his medical degree with honours from the Semmelweis University, Budapest in 2006. He joined the laboratory of Miklós Geiszt as a graduate student to study the intracellular role of hydrogen peroxide. After completing his PhD thesis in 2011 he was invited as a postdoctoral fellow to Memorial Sloan Kettering Cancer Center (New York) to the laboratory of Philipp Niethammer, where he was funded by the Lucille Castori fellowship. His research interest shifted towards understanding the mechanisms of tissue damage induced inflammation. His discoveries here earned him publications in prominent journals such as Nature Cell Biology and Cell.

Balázs has published close to 20 research and review papers and has been invited to several prestigious Gordon and Keystone conferences as a speaker. He was the recipient of the Junior Prima Prize from the Prima Foundation in Hungary and the Premium Post Doctorate Scholarship of the Hungarian Academy of Sciences. He holds a Starting Grant from the Semmelweis University where he was recently appointed as an Assistant Professor to establish his laboratory in the Department of Physiology.

As a PhD student Balázs focused on understanding the intracellular role and production of reactive oxygen species, mainly hydrogen peroxide (H2O2). He was the first to map the level of H2O2 in different subcellular compartments and developed highly sensitive and specific genetically encoded H2O2 biosensors (Enyedi et al. ARS, 2010 and 2013).

As a postdoctoral fellow Balázs became interested in understanding how epithelial wounding triggers inflammation. Using the zebrafish as a model system he unravelled that injury-induced cell swelling is a central mediator of epithelial wound closure and leukocyte recruitment (Enyedi et al. NCB, 2013). Continuing with this work he showed that nuclear swelling and membrane stretch serves as a sensor and trigger for inflammatory signaling (Enyedi et al. Cell, 2016).

Balázs is currently establishing his research group in the Department of Physiology to continue his work on nuclear mechanobiology and tissue damage detection.

Gergely Maróti PhD

Hungarian Academy of Sciences, Biological Research Center

Biology

PhD in Biology (2005), University of Szeged, Hungary

Title of thesis: Insights into the assembly of NiFe hydrogenases

Post-Doctoral position at the J. Craig Venter Institute, Rockville, Maryland, USA. Member of the Synthetic Biology & Bioenergy Team led by the Nobel-Laureate Hamilton O. Smith.

Associate Professor at the Hungarian Academy of Sciences, Biological Research Center since 2012. More than 70 international publications in the field of microbiology.

As a PhD student Gergely focused on understanding the assembly of NiFe hydrogenases. He developed a novel high-throughput method to screen for enzymes that can produce hydrogen gas. This work has led to the discovery of several new hydrogenase enzymes and has implications for the development of hydrogen as a renewable energy source.
Symbiotic interactions range from very tight (e.g. organelle endosymbioses) to diffuse associations (e.g. co-localization) with a broad spectrum in between (e.g. predation, parasitism, commensalism, mutualism). These interactions involve elaborate communication between the partners at the cellular level. Our major goal is the discovery of the potential of selected living interactions as specific sources of useful biomolecules and metabolites (e.g. antimicrobial peptides-AMPs, biofuels, biomaterials, etc.). Microbial associations of various levels are analyzed in details and interrogated for the presence of such products.

THREE KEY PUBLICATION REFERENCES:

TITLE AND NAME: Dömötör Pálvölgyi
AFFILIATION: Eötvös Loránd University (ELTE Budapest), head of MTA-ELTE Combinatorial Geometry Research Group
LINK TO WEBPAGE: http://www.cs.elte.hu/~dom/
FIELD OF SCHOLARSHIP: Mathematics

BIOGRAFICAL NOTE:
Dömötör Pálvölgyi obtained his PhD degree in mathematics from the Ecole Polytechnique Fédérale de Lausanne (EPFL) in 2010, after which he worked in various positions at the Mathematical Institute of the Eötvös Loránd University (ELTE Budapest). He was also a visiting professor at IIT Delhi (2012 spring) and a research fellow at the University of Cambridge (2015-2017). He won the Grünwald Géza medal of the János Bolyai Mathematical Society (2011), the János Bolyai Scholarship of the Hungarian Academy of Sciences (2012), the Postdoctoral Fellowship of the Hungarian Scientific Research Fund (2012), the Marie Sklodowska-Curie Fellowship (IF-EF) of the European Commission (2015) and the Momentum (Lendület) grant of the Hungarian Academy of Sciences (2017).

DETAILS OF RESEARCH:
Dömötör Pálvölgyi mainly works in Combinatorial Geometry, Combinatorics and Theoretical Computer Science. His main focus of research has been in decompositions of multiple coverings and in colorings of geometric hypergraphs. These problems have several applications, related to frequency assignments, sensor covers and similar questions involving partitionings of geometric networks.

THREE KEY PUBLICATION REFERENCES:

TITLE AND NAME: Balázs Pozsgai
AFFILIATION: Hungarian Academy of Sciences (Office for Research Groups Attached to Universities and Other Institutions of the Hungarian Academy of Sciences)
LINK TO WEBPAGE: http://sft.phy.bme.hu/
FIELD OF SCHOLARSHIP: Physics
BIOGRAPHICAL NOTE:
I obtained an MSc and later a PhD in Physics at the Eötvös University, Budapest. Afterwards I spent 3 years (2010-2012) as a postdoctoral researcher in Amsterdam, at the University of Amsterdam. In the first year I was applied by Jean-Sébastien Caux, and afterwards I got the VENI grant of the NWO (The Netherlands Organisation for Scientific Research). In 2013 I returned to Budapest to work in the recently started research group of Gábor Takács (MTA-BME “Momentum” Statistical Field Theory Research Group), and I also obtained the Magyary Zoltán Fellowship. Currently I am applied by the Hungarian Academy of Sciences through the Premium Postdoctoral Program. In 2014 I won the hungarian “Junior Prima” prize in the category of “Hungarian Science”.

DETAILS OF RESEARCH:
In my research I have been dealing with the so-called Integrable Models of Quantum Mechanics. These are special theories describing interacting many-body systems, that can be solved exactly without the need to use approximate methods or computer simulations. The models that I have been investigating include models of quantum magnetism (the Heisenberg spin chain), interacting quantum gases (the Lieb-Liniger model), or exactly solvable Quantum Field Theories. These models are interesting for two main reasons: First of all it is important to study examples of quantum behaviour where analytic solutions can be found. Second, these models describe real materials and/or can be realized experimentally, and we can give predictions for physical properties of these systems. Recently I have been interested in non-equilibrium situations. One of the fundamental questions is how can the laws of statistical physics be derived from the underlying microscopic quantum theory. Our research played an important role in clarifying the statistical physics of integrable models, which are actually an exception to the standard laws in many respects.

THREE KEY PUBLICATION REFERENCES:
B. Pozsgay et. al, Phys. Rev. Lett. 113 (2014) 117203

BIOGRAPHICAL NOTE:
Brigitta Tóth is a senior soil scientist of Institute for Soil Sciences and Agricultural Chemistry, Centre for Agricultural Research, Hungarian Academy of Sciences (ISSAC CAR HAS), Budapest and adjunct professor at the University of Pannonia (UP) in Keszthely, Hungary. She obtained her PhD in soil physics in 2011. Her main research focus is on obtaining information on soil hydraulic properties at local, regional and continental scale to improve our understanding on the role of soils in agricultural production and ecosystems services, and their influence on drought, excess inland water and erosion sensitivity.

DETAILS OF RESEARCH:
In her PhD research she described with mathematical formulas the relationship between simple soil characteristics and soil hydraulic properties. During her PhD studies she was a grant holder at the Politecnico di Milano (Italy) collaborating on joint research publications. She participated in the development of European Hydropedological Data Inventory (EU-HYDI), which was built as a collective effort of 29 institutes from 18 European countries. She was in the core group of coordinating establishment of database structure, data harmonization and description. She was the lead scientist in deriving soil hydraulic predictions for regional and continental scale applications in Europe. In collaboration with Melanie Weynants from Joint Research Centre (JRC) the prediction functions has
been implemented in a package, called 'euptf', in the open source R software, which enables the wider access and easier implementation of the prediction methods. With the collaboration of ISSAC CAR HAS, UP, ISRIC-World Soil Information and JRC she supervised the preparation of 3D soil hydraulic maps of Europe at 250 m resolution (EU-SoilHydroGrids). The freely accessible database provides soil hydrological information up to 2 m depth with full continental coverage, which enables hydrological, ecological, atmospheric, agricultural or other environmental modelling at continental and regional scales.

TITLE AND NAME: Dr. Péter Vancsó
AFFILIATION: Institute of Technical Physics and Materials Science, Centre for Energy Research of Hungarian Academy of Sciences, Budapest, Hungary (currently postdoc at University of Namur)
LINK TO WEBPAGE: www.nanotechnology.hu
FIELD OF SCHOLARSHIP: Engineering Science
BIOGRAPHICAL NOTE: Péter Vancsó graduated in Physics at Eötvös Loránd University, Budapest in 2010. Between 2010-2015 he worked as an Assistant Research Fellow at the Institute of Technical Physics and Materials Science (MFA) in the group of Prof. László P. Biró. He received his Ph.D in 2015 with a thesis on the electronic properties of graphene. Since 2016, Péter Vancsó has been a postdoctoral researcher at University of Namur, Belgium. In a group led by Prof. Philippe Lambin he is investigating electronic, magnetic and transport properties of different two-dimensional layered materials. He was a recipient of the Young Researcher Award of the Hungarian Academy of Sciences in 2016. Besides his scientific research, he is also active in the popularization of science among high school students.

DETAILS OF RESEARCH:
His main research interest is computational solid-state physics with direct relevance to nanoelectronics. In close collaboration with experimentalists, he is working on novel two-dimensional materials investigating their physical properties and their future potential for electronic applications. During his PhD, he has accomplished achievements in the calculation of transport properties in carbon nanostructures and graphene. Recently, based on detailed calculations, he laid the foundations of a novel nanoelectronic device concept based on graphene nanoribbons which can efficiently control both the charge and the spin signal in a simple three-terminal field effect transistor configuration. Nowadays, he extended his focus also towards novel two-dimensional materials, such MoS2, revealing the major role of native defects in the electronic properties of MoS2 based devices.

THREE KEY PUBLICATION REFERENCES:

TITLE AND NAME: Deodáth Zuh PhD
AFFILIATION: Hungarian Academy of Sciences, Research Centre for the Humanities, Institute of Philosophy
FIELD OF SCHOLARSHIP: History of Philosophy, Phenomenology, Philosophy of Art

BIOGRAPHICAL NOTE:
I finished my PhD at the Eötvös Loránt University of Budapest and the Babeș-Bolyai University of Cluj with an investigation in Edmund Husserl’s philosophy of knowledge and its beginnings in his philosophy of arithmetic and his seminal but still relevant studies on the logic of signs. Currently I work as a research fellow at the Hungarian Academy of Sciences. Due to my training in German language resp. German philosophy and my constantly growing interest in Austro-Hungarian intellectual history, in the last few years I have made progress in encompassing the partly uncharted territories of Hungarian pre-war intelligentsia. Even though my serious interest in the group of intellectuals around the young Georg Lukács and Béla Balázs, the very group that underwent serious research not to mention the decade-long process of collecting their records, there is still enough work to do both in processing primary material and in re-evaluating the results of an established scholarship.

DETAILS OF RESEARCH:
In the meantime I work on a monograph which evaluates the life, work and reception of the 20th century Hungarian-born philosopher of art, Arnold Hauser (1892-1978). The work as a whole will be also a detailed account on last century Hungarian intellectual history. Taking cues from Hauser’s still unprocessed personal archives I will try argue for the thesis that the community that gave decisive impulses to the young Hauser, was much more a intellectual incubator than a clear-cut circle of progressive intellectuals. This community let us think of it as the Sunday Circle, but the narrative about its shared general outlook was forged a few decades after it ceased to exist. If anything could have been learnt in this circle was the stunning proximity of concurrent or even contrictory ideas and not a certain mood to contemplate things. Hauser probably learnt here that a thinker’s ideas are sociologically bound. But these sociological ties are pertaining to the idea that none of a scholar’s theses can perpetuate unless they are widely received and discussed. This applies mutatis mutandis to large portions of the history of art: they not only reflect a certain form of social embeddedness, but also a long history of how they resonate with different meanings and in different communities.

Scientific Programme of the 29th Annual conference of the Academia Europaea, 3 -6 September, 2017 – Budapest

The conference was jointly organised by Academia Europaea, ALLEA and the Young Academy of Europe and with the patronage of the Hungarian Academy of Sciences. The Trustees would like to thank the officers and staff of these organisations for their cooperation and assistance in creating a memorable event.

Programme

4 September Opening Addresses
László Lovász, President, Hungarian Academy of Sciences
Sierd Cloetingh, President, Academia Europaea
Günter Stock, President, ALLEA
Marcel Swart, Chair of Board, Young Academy of Europe

Prizes Ceremonies and Lectures

Academia Europaea Gold Medal: Helga Nowotny (see above)

All European Academies (ALLEA) Madame de Staël Prize for Cultural Values
Koen Lenaerts: The European Court of Justice in times of societal change
Laudation by Sir David Edward
5 September
Academia Europaea Kondorosi Prize and Lecture - Allan Downie (see above)
Symbiotic nitrogen fixation: a paradigm for inter-kingdom signalling
Laudation by Jens Stougaard
Chair: Pál Venetianer, MTA Biological Research Centre, Szeged

Frontiers of Science Lecture: Reinhard Jahn (Balzan Prize Laureate)
How neurons talk to each other – about molecular machines and membranes
Chair: Ole Petersen

Plenary Session I: Climate, Environment, Water and Future Earth
Moderator: Enric Banda, Barcelona Supercomputing Center and
Speakers:
Georges Vachaud, Directeur de Recherches Emérite, CNRS
Some environmental and social impacts of climate change on the water cycle: from scarcity to submersion
Katharine Hendry, University of Bristol, UK
The physical, biological and chemical fingerprint of melting ice
Steve Evans, Director of research in Industrial Sustainability, University of Cambridge
On the efficiency of our industrial system as a stakeholder in our natural system
Josep Maria Antò, Scientific director at the Barcelona Institute for Global Health
The impacts of climate change in human health: a global bidirectional challenge

Plenary Session II: Economy, Resources, Energy
Moderator: Andreu Mas-Colell, Barcelona
Speakers:
Yan Lavallée, School of Environmental Sciences, University of Liverpool
Towards New Magma Monitoring and Energy Frontiers
Jean-François Minster, Senior Vice President of Scientific Development, Total, France
Projections for the Energy mix transformation; comparison between various approaches
Frederick van der Ploeg, Department of Economics, University of Oxford
Dealing with conflicting view on global warming

Plenary session III: Europe: Culture, Heritage, Integrity, Resilience and Future
Moderators:
Miklós Maróth, Pázmány Péter Catholic University, Piliscsaba
David Edward, Edinburgh Law School
Speakers:
Paul Demeny, Population Council, New York. Sustainability and resilience: Linkages to demography
Ronald de Bruin, COST Association, Brussels. The COST Framework
Éva Kondorosi, European Research Council, Brussels Strengthening the European research system - the role of the ERC

Frontiers of Science Lecture II: José van Dijck. Royal Netherlands Academy of Arts and Sciences. European public values in a global online society.
Chair: Ed Noort, Vice President ALLEA

6 September
Young Academy Prize and Keynote Lecture - Rianne Letschert, Maastricht University:
United in Diversity; on the role of team science in modern universities
Chair: Marcel Swart, Chair of Board YAE

Plenary Session IV: Health and Disease, Healthy Living
Moderators:
Phillip Campbell, Nature and Ruth Arnon, Weizmann Institute
Speakers:
Emily Holmes, Division of Psychology, Karolinska Institutet, Stockholm. Mental Health after Psychological Trauma: Refugees in Europe
Martin Prince, King’s College London. Multimorbidity, frailty and dependence, and their
applications to promotion, prevention and delivery of age-appropriate healthcare in low and middle income countries

**Michal Schwartz**, Department of Neurobiology, Weizmann Institute, Rehovot. Targeting the innate and adaptive immunity in combating neurodegenerative diseases.

**Mangala Srinivas**, Department of Tumour Immunology, Radboud University Medical Center. Cellular Therapies in Europe: Current Status and Future Possibilities

**ACADEMY SHOWCASE SESSION**: Academies’ advice to policy-making – impact and strategies

Moderator: **Bärbel Friedrich**, Leopoldina, Germany

Speakers:
- **Roger Pfister**, Swiss Academies of Arts and Sciences. Climate hotspot Switzerland: scientific policy advice on resilience and mitigation measures
- **Sherrie Forrest**, The National Academies of Sciences. Engineering, and Medicine, US: Reimagining the Role of Academies in Building Resilience
- **Frontiers of Science Lecture III. Bertil Andersson**, Nanyang Technological University, Singapore - The Future of Universities

Chair: **Balázs Gulyás**, Nanyang Technological University, Singapore

**PLENARY SESSION V Scientific Advice (SAM/SAPEA)**

Moderator: **Sierd Cloetingh**, Academia Europaea

Speakers:
- **Robert-Jan Smits**, European Commission, DG RTD
- **Rolf-Dieter Heuer**, SAM High Level Group
- **Günter Stock**, ALLEA, Chair of the SAPEA board
- **Yves Caristan**, Euro-CASE
- **Marcel Stewart**, YAE
- **Bärbel Friedrich**, Leopoldina
- **László Lovász**, Hungarian Academy of Sciences
- **Helen Wallace**, British Academy

**PLENARY SESSION VI - Sustainability and Resilience of European Science**

Moderators:
- **Nicole Grobert**, University of Oxford
- **Stan Gielen**, Netherlands Organisation for Scientific Research, The Hague

Speakers:
- **Monica Dietl**, Science-Business, Brussels. No solid Research without Europe, no strong Europe without Research
- **Alban Kellerbauer**, Max Planck Institute for Nuclear Physics, Heidelberg. Resilience of fundamental research
- **Robert-Jan Smits**, European Commission, DG RTD. European Science at the crossroads
- **Jan-Wouter Vasbinder**, Nanyang Technological University, Singapore. What if there were no universities?
- **Alex Halliday**, Royal Society, London. International mobility, joint working and European research

------------------------

**HERCuLES group events 2017**

The HERCuLES group, is a thematic standing committee of Council established in 2004. It organises international symposia that are funded by a number of European charitable foundations and encompasses topics relevant to Higher education (in Europe). Educational research and general research issues and issues of emerging impact for the Higher education community, including cultural themes. The group aims to organise a major symposium every year. Symposium volumes are published. Further information can be found via the [www.ae-info.org](http://www.ae-info.org) website.
Reported by the Chair of the HERCuLES group – Professor Lars Engwall (Uppsala)

On behalf of the Trustees, I would like to thank the Wenner Gren Foundations (WGF) for the support and sponsorship of the HERCuLES event. The event was attended by over one hundred delegates. Special thanks to Professor Sjöberg the CEO of the WGF and to convenors of the symposium (listed below).

‘Crossing over to the future: Interdisciplinarity in research and higher education’

18 - 20 May 2017

Wenner-Gren Center, Stockholm, Sweden

Background of the symposium

More than fifty years has passed since C.P. Snow in his famous Rede Lecture of 1959 (Snow, C.P. 1964) on the ‘two cultures’ stressed the duality of the natural sciences and the humanities as a seemingly self-evident reality organizing academic production of knowledge. Snow argued that the university was a divided community with radically different cultures and languages. As is well known, his views have been greatly quoted, challenged and criticized. However, over the decades the contemporary research landscape can no longer be mapped by simple dichotomies. Today the concept of ‘interdisciplinarity’ has slowly but surely come to the forefront of research interests and is seen as leading the way to answering major research questions, often known as the Grand Challenges, that mankind faces today.

When one views what at present comes most frequently under the heading of the Grand Challenges (climate change, water resources, multiculturalism, migration, energy supplies, etc.) the two most dominant characteristics of this kind of research are encapsulated in the concepts of Inter/Multi/Transdisciplinarity (in the following mentioned as Interdisciplinarity) and the Global Dimension. This stems from the global nature of the Grand Challenges themselves and from the fact that they do not easily fit within the traditional disciplinary boundaries. The complexity implied by interdisciplinary research challenges both research and education within all research domains. Interdisciplinarity in many ways poses challenges both to research and education in all domains of research. The complex nature of crossing boundaries and integrating different lines of thought brings to the forefront a reconceptualization of research itself as well as the education necessary for it. It is not possible to mention all the great thinkers that have stressed and developed the notion of ‘interdisciplinarity’ over the decades. However, it is necessary to mention the work of Jürgen Mittelstraß (1982), who advocates the necessity of transforming ‘empirical knowledge’ into ‘orientational knowledge’ which is by definition culturally defined and socially implemented. Also, the work of Nowotny, Scott and Gibbons (2001) on what is called Mode 2 knowledge production, that is, knowledge production seen as a process for which people come together in temporary networks to work on specific problems in the real world.

No matter whether ‘interdisciplinarity’ is knowledge-led (research driven), risk (crisis) induced or challenge-driven, ‘interdisciplinarity’, the basic requirement for scholarly engagement across all research domains is the capacity to adapt a fundamentally open and experimental approach to disciplines, re-search questions as well as their potential for addressing societal issues. Therefore, ‘interdisciplinarity’ not only aims at crossing the boundaries of disciplines, but is also a challenge for research governance, funding agencies and policy makers. It stresses the necessity of investing in high risk and curiosity driven research initiatives as key drivers for research advancement as well as the developing of new practices and criteria for evaluating research projects and results. However, gaps persist between the widespread rhetoric for support of interdisciplinarity and the realities of practice within the realm of research, the institutional environments in which this research should be carried out. Universities as a rule (with a few exceptions) have not implemented systematic reforms for lowering institutional barriers and creating favourable cultures for both research and education (Klein et al. 2001). With respect to this, experiment and risk often may be controversial principles in those environments that provoke constraints of a political and ideological nature, thus hampering the development of ‘interdisciplinarity’. The freedom to follow curiosity-driven research questions in relation to the Grand Challenges is not met with the same enthusiasm everywhere inside and outside the scientific community.

What also has to be recognized is the fact that a particular concentrated effort has to be made to bridge the divide between the hard sciences and the Social Sciences and the Humanities (SSH). This is crucial if we are to address the many-layered problems inherent in the Grand Challenges. Thus, the necessity of raising the level of awareness
to bridge gaps and work across boundaries is very much felt throughout the entire research community. However, in turn, this underpins crucial necessities such as mutual understanding and respect especially between the hard sciences and SSH.

Organizing committee
Chair: Milena Žic Fuchs, Zagreb, mzicfuch@ffzg.hr
Erik De Corte, Leuven, erik.decorte@ppw.kuleuven.be
Lars Engwall, Uppsala, lars.engwall@fek.uu.se
Liesbet Geris YAE, Liege, liesbet.geris@ulg.ac.be
Svend-Erik Larsen, Aarhus, litsel@cc.au.dk
Bert Weckhuysen, Utrecht, b.m.weckhuysen@uu.nl

Contents of the symposium

18 May – Opening session
Britt-Marie Sjöberg, Chief Executive Officer of the Wenner-Gren Foundations, Stockholm,
Sierd Cloetingh, President of Academia Europaea, Utrecht,

Presentation of topic and programme by the Convenor Milena Žic Fuchs, Zagreb

Plenary: Interdisciplinarity across science - challenges and opportunities
Chair: Milena Žic Fuchs, Zagreb, mzicfuch@ffzg.hr

David King, Cambridge, Can Interdisciplinary Approaches Meet Our Unique Twenty First Century Challenges?
Bruce Brown, Brighton, The arts and humanities and interdisciplinary research

19 May – Session 1 Interdisciplinarity in research - obstacles and opportunities
Chair: Erik De Corte, Leuven, erik.decorte@ppw.kuleuven.be

Jürgen Mittelstrass, Constance. The Order of Knowledge: From Disciplinarity to Transdisciplinarity and Back
Bart De Moor, Leuven. Scientific and technological breakthroughs are induced by inter- and cross-disciplinarity
Chair: Lars Engwall, Uppsala, lars.engwall@fek.uu.se

Verena Winiwarter, Klagenfurt, The other kind of research: Power, epistemological status and subject construction in cross- multi- and inter-disciplinary scholarship
Bert Weckhuysen, Utrecht Central Science and the Grand Challenges: Towards More Chemistry between Scientific Disciplines

20 May – Session 3 Interdisciplinarity and academic career path
Chair: Liesbet Geris, Liege,

Erin Leahey, Tucson, The Perks, Perils, and Precautions of Engaging in Interdisciplinary Research
Helen Bridle, Edinburgh, Strategies to foster and support interdisciplinary career paths

Hans Op de Beeck, Leuven, Living at the edges of disciplines

Concluding session
Chair: Milena Zic Fuchs, Zagreb

Panel members:
Helen Bridle, Edinburgh
Bruce Brown, Brighton,
Hans Op de Beeck, Leuven

Proceedings will be published in a future supplementary issue of The European Review (open access)

Section 5: Academia Europaea outreach.

Over the year, the President and members of the Board of Trustees and the Executive Secretary had discussions with the European Research Council and Commission, ALLEA and other European Academies and pan-European organisations, and with a number of European Charitable Foundations. The Trustees wish to thank in particular members of the Board and Section Chairs, who represented the Academy at a wide range of events.

Individual members of the Board and Council represented the Academy at a number of conferences and other invited events. Bids were prepared to a number of Foundations, in line with the policy to broaden the basis of general financing of the Academy and to support specific developments in the programme of the Academy, including through the new Hubs. These are mentioned where appropriate in the finance sections of this report.

Members of the Young Academy were invited to participate in all events organised by the AE and the AE Hubs. Members of the Board of the YAE were also invited to participate in meetings of the Board of Trustees and Council. Much outreach effort was channelled through the Regional Hubs and relevant outputs have been reported in the Hub reports as described in the annexes to this consolidated report.

The President assumed the chairmanship of the international COST research networking mechanism and this has opened up further collaboration opportunities. In addition members of the Board of trustees, notably Prof. Eva Kondorosi and Prof. Sierd Cloetingh participated in a number of joint events with the European Research Council, to promote partnership with former Balkan states in the East. The President and members of the Cardiff Hub were invited to assist in the preparation of an official event as a part of the Estonian Presidency of the European Union. During the year the President and the Executive Secretary held future collaboration meetings with the European Academy of Sciences (EurASC) and the European Academy of Sciences and Arts (Salzburg). The AE became a subscribing member to the European Association of Social Sciences and Humanities (EASSH) with Prof Poul Holm and Svend Erik Larsen as AE delegates. The Ae also continued as a subscribing member of the European Academies Science Advisory Council (EASAC). Prof Don Dingwell represented the AE of the scientific Council. Preliminary discussions were held with the University of Tbilisi and with ACATECH to explore the possibility of two new future AE Regional Knowledge Hubs. The President and other Board members participated in the 2017 Global Science Forum conference held in Jordan.

European research policy and advice

European Science Advisory Council (EASAC), formed by a number of European Academies, and supported by the Academia Europaea provides EU institutions and other pan-national bodies with fully independent advice on the scientific aspects of public policy.

The Academia was a founding member of this Council and collaborates with our sister Academies in making available our members’ expertise where needed, for the many study groups that are established. The Academia provides a financial contribution towards the running of the secretariat of EASAC, which is based at the German National Academy of Sciences (Leopoldina) in Halle. The Academia covers the costs of participation of the AE Council member and also AE experts participating in specific study panels.
The AE supports a number of members, who provide their individual expertise to EASAC studies and/or are engaged in the standing committees of EASAC. In 2016 these members were:

Professor Don Dingwell (Trustee) AE delegate to the EASAC governing Council;

**SAPEA – Scientific Advice for general European Policy (not policy for research)**

SAPEA: Science Advice for Policy by European Academies

- Spanning the disciplines of engineering, humanities, medicine, natural sciences and social sciences, SAPEA brings together the outstanding knowledge and expertise of Fellows from over 100 Academies, Young Academies and Learned Societies in more than 40 countries across Europe

- SAPEA is part of the European Scientific Advice Mechanism (SAM) which provides independent, interdisciplinary and evidence-based scientific advice on policy issues to the European Commission, working closely with the SAM High Level Group of Scientific Advisors

- The project is funded through a grant from the EU’s Horizon 2020 programme. It runs from November 2016 to October 2020.

Academies’ independence, academic expertise and convening power make them a critical source of evidence for policymakers and the wider public, providing an unbiased, balanced and transparent perspective. Academies within SAPEA are members of one or more of the European Academy Networks: Academia Europaea, ALLEA, EASAC, Euro-CASE and FEAM.

SAPEA will provide a means for closer collaboration between Academies, combining Fellows’ expertise in engineering, human, medical, natural, social and technical sciences in a unique way.

All of the Networks’ Member Academies across Europe are part of SAPEA and are encouraged to participate actively. Opportunities for involvement include:

- **suggesting scientific topics**
- **communicating their latest major scientific outputs to SAPEA**
- **nominating Fellows** to the SAPEA Working Groups, or other events requiring the advice of an expert (e.g. experts’ workshops or stakeholder meetings)
- Fellows’ travel costs will be reimbursed
- **hosting Working Group meetings**

Direct costs can be covered
• acting as “Lead Academies” for a selected scientific topic
• hosting outreach events
  event support can be provided
• raising the visibility of Academy work at a European Level by sharing news of activities
  with the SAPEA Communications Office for the project website

AE engagement in SAPEA

The Horizon2020 funded project contract with the European Commission was signed and started at the end of 2016. The President is a member of the Board of Management of the project. Prof. Ole Petersen (Academic Director of the Cardiff Hub and VP) is our alternate and oversees the work of the AE SAPEA Science Policy Officer - Louise Edwards, who is based at the Cardiff Hub. Louise is responsible for the day-to-day management of any AE involvement in policy advice topic work and is a member of the project coordination team. The AE Executive Secretary acts as AE project manager in liaison with the central project coordination team. The day-to-day engagement in SAPEA is undertaken by the Science Policy team at the Cardiff Knowledge Hub. Louise Edwards manages the Science Policy work and is supported by Ester Dorado Ladaro. During 2017 the AE was the lead network on the first evidence review project – Food from The Oceans. And this was delivered on time to the European Commission with great success. Full information can be found via the official SAPEA website (https://www.sapea.info/) and also through both the ae-info website [http://www.ae-info.org/ae/Acad_Main/Activities/SAPEA] and the Cardiff Hub website [http://aecardiffknowledgehub.wales/category/expertise-and-advice/]. A full report can be found in the Cardiff Hub annual report at annex

Our intention throughout the project is to work with and through the regional knowledge Hubs and with the Young Academy of Europe to ensure maximum opportunity for involvement of our members. We will also establish an outreach forum of other pan-European organisations to improve linkages and engagement of non-core partner expertise.

The European Review 2017 (volume 25): Four issues were published by Cambridge University Press on behalf of the Academia Europaea during 2017 and made available world-wide. Highlights were in issue (1) The 2015 Heinz-Nixdorf Erasmus Lecture by Professor Edith Hall (given at Darmstadt) – “Aristotle”, and in issue 2 a celebratory focus in honour of member Prof. Erol Gelenbe (Informatics).

Section 6: Events provided with AE patronage in 2017

Section events: 3- 4 September 2017

AE HISTORY & ARCHAEOLOGY SECTION - "How can History and Archaeology be handmaidens in defining a national or regional (in this case European) identity?"

AE FILM, MEDIA AND VISUAL STUDIES (FMVS) SECTION – “Media as public good and a lever of sustainability”

AE LITERARY AND THEATRICAL SECTION – “Sacrificial narratives”

AE LITERARY AND THEATRICAL SECTION – “Story-telling and Resilience: The Function of Literature in the Overcoming of Trauma”

AE SECTION ON PHYSICS AND ENGINEERING SCIENCES - Inaugural Presentations by New Members of AE from Section B1-3: Physics and Engineering Sciences

Other events:
"ERC – A SUCCESS STORY FOR EUROPE" PRE-CONFERENCE WORKSHOP
“TRAUMA MANAGEMENT, SEARCH FOR IDENTITY, SELFIMAGES AND OTHERNESS IN EAST CENTRAL EUROPE AND BEYOND” convened by Prof. Ivan Denes (Section of History and Archaeology).

--------------------------------------------------------
Section 7: Corporate information and reports of the Sections (where provided)

Class A1 – Humanities

Class report 2017-2018:

In Class of Humanities (A1) the class as a whole, the sections and individual members have been engaged in various activities:

1. The annual nominations meeting, hosted by Alain Peyraube (section 3) in Paris was held in July 2017. Items on the agenda included, apart from nominations, a first discussion of a class strategy in view of the devolvement of AE activities to the classes and a call to include neglected disciplines in future nominations.

2. In response to the call from David Coates, the Class has discussed and drafted a strategy with goals and tools for activities for members and activities with members for a two-year period. The drafted version has been submitted to the Board and discussion will continue on the coming nominations meeting.

3. The Class continues the cooperation with EASSH to strengthen the position of SSH disciplines in Europe, in particular in view of FP9 and the follow-up to Hor2020. Poul Holm, section 1, is one of the founding fathers. Members have attended stakeholders’ meetings in Brussels with DG6.

4. Sections organized four panels during the last annual AE conference in Budapest before the new downscaled format: section 1 (Nikita Harwich) (papers to be published in European Review), section 4, two panels (Susana Onega one and Vladimir Biti another (papers published)), section 7 (Kirsten Drotner).

5. Class and sections have circulated a number of newsletters and updates to the membership, jointly and separately.

6. Members of the Class, Milena Zič-Fuchs (section 3) and Svend Erik Larsen (section 4), organized a Hercules meeting in Stockholm on Interdisciplinarity in May 2017 with the Wenner-Gren Foundation. Papers in print for European Review. Svend Erik Larsen finished the planning of the next Hercules conference with the Wenner-Gren Foundation to be held in Stockholm May 2019 on bridging between secondary and higher education.

7. In his capacity of vice-president Svend Erik Larsen has chaired the task force to find a new class chair for Class A2 and for a reorganization of the class. He continues to assist Björn Wittrock as the new class chair.

8. Svend Erik Larsen continues as advisory board member in the reorganized Bergen Hub and has participated in the reorganizing process.

9. Members of the Class, Kirsten Drotner and Johan Fornäs (both section 7) and Theo D’haen (section 4 and EIC of European Review), have joined the working group for an AE communication strategy and revision of the website, chaired by Kirsten Drotner. Two reports have been submitted to the Board.

10. Member of the Class, Poul Holm (section 1), has chaired a sub-section on Food from the Ocean on the SAPEA project. A report has been submitted to EU’s High Level Group.

11. Sections members have organized or are organizing conferences with AE endorsement: Daniela Carpi (section 4), held in Verona, Cinzia Ferrini (section 6), held in Trieste, Nikita Harwich (section 1), to be held with the Wroclaw Hub, September 2018.

12. The Class is planning a panel at the upcoming annual AE meeting in Barcelona, November 2018.

Svend Erik Larsen
Class Chair Humanities/Vice-President

Sections:

History and Archaeology Section: A pre-conference workshop was organized on September 3rd, 2017 at one the Hungarian Academy of Sciences Library conference rooms. The topic selected was: “How can History and Archaeology be handmaidens in defining a national or regional (in this case European) Identity?”. The papers presented were:

1) Csanád Bálint (Hungary), « Nationalism and panhistorical perspective in Early Middle Age archaeology »
2) Robert A. Houston (United Kingdom), « Material culture and social practice: archaeology and history in understanding Europe’s ‘Celtic fringe’ »
3) Robert von Friedeburg (United Kingdom) « The idea of State in Latin Europe as preserving the rule of law ».
4) Olga Katsiardi-Hering (Greece) « The role of the archaeology in forming the Greek National identity and its embodiment in the European identity. »
5) **Rosa María Martínez de Codes** (Spain) « Reasonable accommodations in a secularized Europe in the face of integration challenges: the debate about legal pluralism and multiculturalism. »

6) **Sverre Håkon Bagge** (Norway) « History and Archaeology in the perspective of Ian Morris’s works: how handmaidens may interact. »

These papers are presently being edited for publication, as a special dossier, in *the European Review*. – **Nikita Harwich** (Section chair)

**Philosophy, Theology and Religious Studies:** Another member was added to the committee, Christoph Markschie. Prof. Markschie specialises in Religious Studies and we hope that his addition will contribute to increase the presence and visibility of the Religious Studies area in our section. Other than that, no special activities to report from January to December 2017. **Genoveva Marti** (section chair)

**Film, Media and Visual Studies:** 6 April: Section committee meeting with nomination of eight new members as key item on the agenda. All nominees were accepted at Class meeting in Paris 7 July, 3 September, 3.00 pm – 6.30 pm - Prior to the annual AE meeting in Budapest, a pre-conference Workshop with two panels: 'Media as public good and as cultural heritage' and 'Media culture as a lever of sustainability'. 4 October - Nomination of two new section committee members: Prof. Fausto Colombo, Università Cattolica del Sacro Cuore, Milan, Italy; and Prof. Maren Hartmann, University of the Arts Berlin, Germany. Circulation of three electronic newsletters to the FMVS membership (January, April, September). **Kirsten Drotner** (section chair).

**Literary and Theatrical Studies:** The Section has organized two panels at the AE-ALLEA annual meeting in Budapest in September 2017:

1. **Sacrificial Narratives**, attended by six participants (chaired by Vladimir Biti). All papers will be published in the peer-reviewed journal *Frontiers of Narrative Studies* (1/2018)

2. **Story-telling and Resilience: The Function of Literature in the Overcoming of Trauma**, attended by six participants (chaired by Susana Onega).

The Chair and two Section members (Vladimir Biti, Vivian, Liska, Joep Leerssen) have organized the international conference *The Idea of Europe: The Clash of Projections* (Vienna, 8-10 September, 2017), attended by four further Section members and under the auspices of Academia Europaea. Selected papers will be presented in the series European Studies, Brill (Leiden and Boston), and presumably in 2019. **Vladimir Biti** (section chair)

**Class A2 – Social and Societal Sciences**

**Law Section:** I. In January 2017 the law section committee voted for new committee members as four members could not run for office again. As new committee members were elected: Nina Dethloff from the University of Bonn, specializing in law and culture, private international law, family law. Rosa Greaves from the University of Glasgow, who is focusing on competition law, maritime law and issues related to the Court of Justice of the European Union and Kurt Seelmann from the University of Bale, a leading expert in philosophy of law, criminal law and medical law.

Therefore, now the committee consists of: Verica Trstenjak, Alain Strowel, Rosa Greaves, Nina Dethloff, Kurt Seelmann and Dagmar Coester-Waltjen (the latter as chair).

II. At the Budapest meeting three new members were elected: Professor Dr. Dr. h.c. Walter Pintens from the University of Leuven, Belgium, a highly respected specialist in family and succession law, European private law, comparative law and private international law; Professor Dr. Corjo Jansen from Radboud University Nijmegen who focuses on Roman private law, history of private law (18th-20th century) and of legal science, on the history of (Dutch) labour law, on law and second World War and on comparative law; and Professor Dr. Harald Eberhard from Vienna University of Economics and Business, a leading expert in Austrian constitutional law. International constitutional law and the law of self-government bodies. All of them have joined the Academia Europaea in the meantime and they will certainly enrich the work of the Academy in many respects.

III. Several members of the Law Section took part in the Budapest meeting, but there was no special meeting or session of the Law Section as such. - **Dagmar Coester-Waltjen** (section chair)

**Linguistic Studies:** The Section, and especially the Section Committee, was active in proposing nominations of new members. Seventeen nominations were received from members of the Section and backed up by a second nominator. Fifteen of these nominees were considered of good quality and supported by the Section Committee whose members graded and ranked them. Twelve of them have been approved during the Class I meeting for being proposed to be elected. The three who
were not elected were considered as having a grade too low and therefore not placed at a sufficiently high rung in the final ranking order to be retained. The twelve nominees were elected during the Annual meeting of the AE in Budapest on September 2017. The geographical distribution of the 12 new members is as follows: 2 FR, 2 IT, 2 RU, 1 BE, 1 DE, 1 ES, 1 HU, 1 PL, 1 SE. Five of them are women.

The Section Chair and two other members of the Committee have been working on the editing of a selection of the papers that were given during the workshop that they have organized on September 2015 in Poznan on “Language endangerment and revitalization” as a satellite meeting of the 45th Poznan Linguistic Meeting. The papers have been published in the last issue of the European Review.

A couple of lectures were delivered in China concerning the activities of AE: at the Shanghai Fudan University on 16th September, at the University of Wenzhou on 27th October, and at the Central China University in Wuhán on the 2nd of November.

Finally, new members were elected in 2014 to the section committee and approved by the Board of AE: Prof. Asifa MAJID (Center for Language Studies at Radboud University, Nijmegen, NL) and Prof. Nigel VINCENT (University of Manchester, UK). They have replaced Prof. Bernard COMRIE (DE) and Prof. Greville CORBETT (UK) whose mandates have expired at the last AGM meeting in Budapest.

For other activities (for instance in the HERCULES programme) involving members of the Section 3, see the report from the Class-1 Chair. - Alain PEYRAUBE, Chair of the Section Committee

Class B Natural Sciences:

Physics and Engineering: 1- The Physics and Engineering (P&E) Section members submitted 34 nominations by April 30, 2015. Only one of the candidates was female. Despite encouragement of Section members to nominate more females no progress on this issue has been made. Our Section Committee (SC) was also asked to evaluate five nominees on the Academia Europaea (AE) president’s list, one of whom was female. The P&E SC met after the nomination deadline in Prague on 12 May 2017. In this face-to-face SC meeting, the nominations were deeply discussed and critically evaluated. Following the evaluation, the nominations were ranked in a transparent procedure. In the meeting of Class B (Exact and Natural Sciences), which was held at LMU, Munich on 27-28 July, the Section Chairs (Class-B Committee) considered all nominees and discussed the recommendations of the SCs of Sections B1 to B5. For the P&E Section the Class-B Committee approved 27 new members out of the 34 candidates. Furthermore, The Class-B Committee on recommendation of the P&E SC adopted one candidate from the President’s list for ordinary membership, and rejected four other President’s list candidates.

2- The P&E SC took advantage of the 29th Academia Europaea (AE) Annual Conference (organised jointly with ALLEA), which was held at the Hungarian Academy in Budapest in the period 3-6 September 2017, and organised a workshop in which the new members of the Physics and Engineering Sciences Section of Academia Europaea could give their inaugural lectures. The Convenor and Chair was Muhsin N. Harakeh (KVI, Groningen, The Netherlands) and the Co-convenor and local organiser was Tamás Csögő (Wigner RCP, Budapest and EKE KRC, Gyöngyös, Hungary). The goal of the workshop was to contribute to the advancement and propagation of excellence in physics and engineering and to the advancement of public education in Europe. Thirty-nine persons attended the workshop and twelve new members gave their inaugural lectures. The workshop was partially supported by the Hungarian Academy of Sciences, the Wigner Research Centre for Physics of the Hungarian Academy of Sciences and three Hungarian grants.

The “Inaugural Presentations Workshop” has been held in the Conference Room of the Library of the Hungarian Academy of Sciences. The location was very nice and the workshop was a very successful event with excellent inaugural talks that have been archived together with some photos of the happening on Wigner's indico page at: https://indico.kfki.hu/event/554/timetable/#20170903.detailed Muhsin Harakeh (section chair)

Informatics: On 22 October 2017 the members of the Informatics Section were invited to participate in a section meeting at the European Computer Science Summit, where Dean and professors of Computer Science from all over Europe meet. We had a group of AE-I members and discussed our role in the context of Informatics research and society. We also had presentations of ERCIM, ACM Europe and the leadership of the European Computer Science Summit itself. Of course I as the section head introduced the AE-I to the other organizations as well. Schahram Dustdar (section chair).

Mathematics: 1) In 2017, the Section „Mathematics” as a whole was very active in proposing candidates for nominations. This spirit will be kept for the nomination process in 2018. This was a very valuable support for the work of the Section Committee.

2) The following new members have been elected to the Section; Béla Bollobás (FRS Cambridge U)
Class C Life Sciences:

Physiology and Neurosciences: In 2017, the AE Section of Physiology and Neuroscience had 25 membership nominations, 20 were elected. The Section committee members took an active part ranking the candidates – Dmitri Rusakov (section chair)

Clinical and Veterinary Sciences: The Clinical and Veterinary Sciences Section is a new Section and is still growing. Hopefully we will be in good shape next year to start some Section-Related activities. Stephen Holgate (section chair)

Biochemistry and Molecular Biology:
1. Statutory participation in selection of new AE Members, including soliciting submission of nomination from all section members, soliciting of opinion on the nominated candidates form all members of the Committee and participation in the Class C meeting in London in the Royal Society
2. Participation in the evaluation of the Erasmus Prize candidates as a member of the Erasmus Award Committee
3. Participation in the Annual Meeting in Budapest and the AE Council meeting
4. Active participation in the Budapest Annual Meeting Pre-conference Workshop “ERC- a success story for Europe”
5. Activities related to the elimination/fusion of some of the Class C sections (acceptance of members form dissolved sections to the Biochemistry & Molecular Biology Section) . Witold Filipowicz (section chair).

Reports of the activity of the AE Knowledge Hubs for 2017 are annexed as follows;  

Barcelona Knowledge Hub  (Annex 3) -
Bergen Knowledge Hub  (Annex 4) -
Cardiff Knowledge Hub  (Annex 5) -
Wroclaw Knowledge Hub (Annex 6) –
Graz Information Centre  (Annex 7) -

2017 New members elected

The Council approved the election 247 candidates as follows:
Class A1 (Humanities) – 50 new members; Class A2 (Social and societal sciences) – 17 new members;
Class B (Natural Sciences) – 88 new members and Class C (Life Sciences) – 67 new members. At their meeting in November, the Board of Trustees elected five candidates submitted through the President’s list. A full list of these members, allocated by Class and Section is at Annex 6

The Class chairs responsible for oversight of the nominations process in 2017 were:

Class A1 – Humanities and Arts – Sections A1-A6 [Chair Professor Svend Erik Larsen (Trustee)]
Class A2 – Social and related sciences – Sections A7 – A10 [Chair - Professor Larsen (pro tem due to the death of Professor Anne Buttimer (Vice President and Trustee)]
Class B – Exact and Natural Sciences – Sections B1 – B5 [Professor Don Dingwell (Trustee)]
Class C – Life Sciences – Sections C1 – C5 [Professor Alex Verkhratsky (Trustee)]
Communications

During the year an A-Z membership directory for 2017 was published, in time for the Budapest AGM, and general leaflets and other printed materials were updated. The Hubs and HQ issued regular electronic newsletters throughout the year. A letter from the President was issued to all members, Young Academy contacts and non AE contacts every two months throughout 2017. The Graz Data centre maintained the ae-info.org website and both Graz and Wroclaw ensured that member data was updated, including for new members elected in 2017.

Governance meetings held in 2017

The Trustees, Council and their subcommittees

The Board of Trustees met on 17 May 2017, at Stockholm; 3 September at Budapest; 23 November, Barcelona. All meetings were quorate.

The Council met in Budapest on 4 September.

Class meetings to decide on recommended new member lists were held on:
Class A1 (July 7) - Paris
Class A2 (8 May) - Bonn
Class B (27-28 July) - Munich
Class C (28 July) - London

A list of Trustees, Council and Section Committees at December 2017 are at Annex 2

Annual Business Meeting 2017 (AGM)

The 2017 AGM took place at The Hungarian Academy of Sciences, Budapest on 4 September. All members had been given notice of the date, time and place throughout the year and motions from members invited. There had been no motions notified by the deadline. Documents were provided online in advance and at the meeting. The President was in the Chair. There were 53 members present. The minutes of the 2016 AGM were approved and signed.

The Chair welcomed members to Budapest and thanked the President of the Hungarian Academy for his kind hospitality in hosting the AGM. In a departure from normal meetings, The AGM was split into two parts: The first was the Presentation of the 2017 Burgen Scholars to the members (see below) and also the welcome to 55 new members of the AE who were present and who had been elected in 2016.

The Second part was the 29th AGM business meeting. The following motions were put to members present and were duly adopted:

4.1 The Board of Trustees recommend that the AGM do elect Professor Sierd Cloetingh to a second and final term as President. Approved
5.1 The AGM adopted the 2016 Trustees (activity) report.
5.2.1 The AGM adopted the 2016 financial report and audited accounts.
5.2.2 The AGM re-appointed the auditors.
5.2.3 The AGM approved the 2018 members’ financial contributions as follows (with one objection):
Member 64 years of age and below 150 Euros; Members under 75 years of age 85 Euros; Foreign members 80 Euros; Members over 75 years of age a voluntary donation of any amount (minimum 35 Euros)

In addition the AGM noted a launch of calls for nominations for candidates as Treasurer and for a Vice President.

Reports were given as follows:
SAPEA (President); EASAC (Prof. Dingwell); Barcelona Hub (Prof. Guerrero); Wroclaw Hub (Ms Kasia Majkowska). Cardiff Hub (Ms Edwards)

The President announced that the 2018 AGM would take place at Barcelona on 28 November 2018

The meeting was closed at 16:00

Section 8: Statement of Trustees’ Responsibilities
The Trustees (who are also the directors of The Academia Europaea for the purposes of company law) are responsible for preparing the Trustees’ Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees’ must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in operation.
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and

The Trustees are responsible for keeping accounting records that are sufficient to show and explain the company’s transactions and disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the Trustees are aware:

- there is no relevant audit information of which the charitable company’s auditor is unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

The Trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company’s website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

**Risk assessment**

The Trustees have assessed the major risks to which the charity is exposed, in particular those relating to the operations and finances of the charity and for BREXIT and are satisfied that systems are in place to mitigate our exposure to these risks. However, the situation will be kept under constant review.

**Financial Report**

The Trustees confirm that suitable accounting policies have been used and applied consistently and that reasonable and prudent judgements and estimates have been made in the preparation of the financial statements for the year January 2017 - 31 December 2017. The Trustees also confirm that applicable accounting standards have' been followed and that the financial statements have been prepared on the going concern basis. The assets are available and adequate to fulfil obligations on a fund - by - fund basis.

The Academia is required by UK law to present its accounts in sterling. A version expressed in Euros could be prepared by converting the figures at the exchange rate for a particular date, but this would not be accurate since transactions are spread across the financial year, during which a range of exchange rates have existed. Any significant foreign exchange impacts are described in the notes to the accounts. The full accounts have been published separately to the activity report.

**Reserves policy**
The total funds for the year ended 31 December 2017 was £178,050 [YE 31 December 2016, £278,066]. It is the policy of the trustees to maintain sufficient reserves for the Academia Europaea to continue its charitable activities and in view of this, the trustees aim to achieve reserves equal to approximately six months of operations. A review of reserves policy will be undertaken every year.

Income and expenditure for the period ended 31 December 2017 (summary overview)

The year was one of progress towards stability. Our total income for the year was £424,890. Total expenditure was £542,906. The balance of funds brought forward to 2017 from 2016 was £278,066. In addition to normal income and expenditure, the accounts also reflect income and expenditures associated to the European Commission SAPEA grant. The AE benefits from overhead associated with our involvement in this project activity.

The AE as a charity seeks to operate an effective zero balance budget. We are essentially dependent upon members’ donation income and in 2017 this was at £181,468 and life membership payments totalled £15,100. This represented a positive increase over previous years. The Trustees stress to all members, the importance of supporting the Academia by making a donation every year, preferably at the recommended level. Without more members making a payment, the AE will not be able to grow the range and type of activity and support for member initiatives that we all hope for. Whilst a voluntary scheme remains our policy, the Trustee reviewed this policy in November and decided to levy a simplified recommended general fee rate, linked to age-related banding for annual donations, per member. Sponsorship continued to be successful for individual activity, and we thank the Wenner Gren Foundations (Sweden), The Heinz-Nixdorf Foundation (Germany), The Balzan Foundation (Switzerland) and World Publishing Ltd (Singapore) for their support and the support of other sponsors, especially the Hungarian Academy of Sciences the Caixa Foundation (Barcelona) and our Patron member The German Academy of Sciences (Leopoldina). The Board continued to recognise the ongoing difficulty in obtaining core financial support from public and private institutions.

The full audited accounts for 2017 have been filed and can be viewed through the Academia Europaea website; the UK government Companies House and the Charities Commission of England and Wales websites respectively.
Signed on 4 September 2017 by:

Professor Sierd Cloetingh (President)

Professor Ole Petersen (acting Treasurer)
Annex 1: Members elected in 2017 and who subsequently accepted an invitation into membership

Class A1 – Humanities – Chair: Professor Svend Erik Larsen (DK)

Annex 2 Trustees, Council, and Section Committee composition as at 31st December 2017

At the AGM in September 2015, the Regulations were amended to allow the appointment by the Board of a variable number of Vice Presidents (ex officio) to provide flexibility to the President and that serve a VP term limited to that of the President. These changes are within the overall limits set for the Trustees in the Articles of Incorporation and do not impact on the role or seniority of the elected officers. The Articles prescribe a Board made up of not less than 3 and NOT MORE than 15 members. The Articles describe a Board made up of elected officers (President, Vice Presidents and the Treasurer – all elected by the general meeting); a number of members (appointed by the Council) and a number of co-opted (by the Board) members. The subsidiary Regulations are used to determine numbers and balance up to the limit of 15. The current formula is: President, elected Vice presidents (up to 2 were approved by AGM in 2012); Treasurer. Three members appointed from the Council.

In November 2015 the Board approved the designation of several existing Trustees as Vice Presidents ex officio, to reflect new portfolios. These were Professor Dingwell (Class Chair); Professor Svend Erik Larsen (Class Chair) and Professor Ole Petersen (Class Chair, later acting Treasurer). Governance and incorporation documents can be found on the website (www.ae-info.org).

Members of the Board of Trustees (at 31st December 2017)
The President – Prof. Sierd Cloetingh (Utrecht) from AGM 2014 to AGM 2020
The Treasurer – Prof. Ole Petersen (Cardiff) to AGM 2018, Vice president (ex officio)
The Vice President – Prof. Anne Buttimer (Dublin) until 2018 (deceased in 2017)

Theo D’Haen, (B) (Editor-in-chief – European Review – co-opted 2014);
Svend Erik Larsen (DK) – Class chair – Class A1 (Humanities) co-opted Vice President ex officio;
Don Dingwell (D) – Class Chair – Class B (Natural Sciences) co-opted Vice President ex officio;
Alex Verkhratsky (UK) – Class chair – Class C (Life Sciences) co-opted Vice president ex officio;
Balazs Gulyas (HUN) (co-opted until end of 2017);
Eva Kondorosi (HUN) from January 2016, co-opted
Alain Peyraube (Linguistics) France – from Council
Kirsten Drotner (Film, Media and Visual Studies) Denmark – from Council
Dagmar Coester-Waltjen (Law) Germany – from Council

Academia Europaea - Composition of the Advisory Council (at 31 December 2016)
All terms of office are three years, with the possibility of renewal for one further period of three years. Positions on subcommittees are not time-limited. Since September 2006 Chairs of Sections are all full members of the Council. From 1st January, 2008 all Section chairs serve a three year term (renewable once) on Council. The first date of retirement for them was 31 December 2010. The Trustees (Officers) are de facto members of the Advisory Council.

At 31 December 2017

CLASS A1

A1 History & Archaeology
Chairperson²: Nikita Harwich Vallenilla (until AGM 2019)⁴
harwich.nikita@noos.fr

* Members of the Board (of Management)
University of Paris X-Nanterre, 35 Rue de Noailles, 78100 Saint-Germain-en-Laye, France

Committee:

A2 Classics & Oriental Studies
Chairperson: Irmela Hijiya-Kirschner (from AGM 2016 to 2019, renewable)
i.hijiya@fu-berlin.de
Hittorfrstr. 18 D-14195 Berlin

Committee: Carmela Baffioni (till AGM 2017), Irene de Jong (till AGM 2017), Juha Janhunen (till AGM 2017), Barbara Borg (till AGM 2019, renewable), Gerd Haverling (till AGM 2019, renewable), Eun-Jeung Lee (till AGM 2019, renewable), Alexander Lubotsky (till AGM 2019, renewable)

A3 Linguistic Studies
Chairperson: Alain Peyraube (until AGM 2017)
peyraube@ehess.fr
Ecole des Hautes Etudes en Sciences Sociales, 54 Bvd. Raspail, 75006, Paris, France

Committee: Bernard Comrie (till AGM 2017), Maria Koptjevskaia-Tamm (till AGM 2019), Greville Corbett (till AGM 2017), Wolfgang Dressler (till AGM 2019), Pier Marco Bertinetto (first term ends AGM 2017, renewable), Katarzyna Dziubalska-Kolaczyk (first term ends AGM 2017, renewable)

A4 Literary & Theatrical Studies
Chairperson: Vladimir Biti (to end of 2018, renewable)
vladimir.biti@univie.ac.at http://www.ae-info.org/ae/User/Biti_Vladimir
University of Vienna, Institut für Slawistik, Spitalgasse 2-4, Hof 3, 1090 Vienna, Austria

Committee: César Dominguez, Marko Juvan (to end 2017), Lucia Boldrini (to end 2017, renewable), Susana Onega (to end 2017, renewable)

A5 Musicology & History of Art & Architecture
Chairperson: Laurenz Lütteken (till AGM 2019, renewable)
luetteken@access.uzh.ch
http://www.ae-info.org/ae/Member/L%C3%BCtteken_Laurenz

Committee: David Hiley (till December 2017), Christian Leitmeir, Lynda Nead, Raphael Rosenberg, Victor Stoichita, Valeska von Rosen (all till December 2017, renewable)

A6 Philosophy, Theology & Religious Studies
Chairperson: Genoveva Marti (till AGM 2019, renewable)
ICREA and Universitat de Barcelona, Departament de Filosofia, Montalegre 6, 08001 Barcelona genoveva.marti@gmail.com

Committee: Claudine Tiercelin, Włodek Rabinowicz (all until AGM of 2018, all renewable), Tim Crane (until end 2019), Christoph Markschies (till end of 2020, renewable)

A7 Film, Media and Visual Studies (created at the AGM of September 2015)
Chairperson: Kirsten Drotner (from AGM 2015 – AGM 2018, renewable)
drotner@sdu.dk
Institute for the Study of Culture - Media Studies, University of Southern Denmark, Campusvej 55, 5230 Odense M, Denmark

Committee: Professors Daniel Biltereyst, Gőran Bolin, Patrizia Lombardo (all to AGM of 2018, renewable); Professor Fausto Colombo (to end of 2020, renewable), Professor Maren Hartmann (to end of 2020, renewable)

CLASS A2

A8 Behavioural Sciences
Chairperson: Peter Scott (to AGM 2019)
p.scott@ioe.ac.uk https://www.ioe.ac.uk/staff/51229.html
University of London, Institute of Education, 20 Bedford Way, London WC1H 0AL, UK
Committee: Terrie E. Moffitt, Kurt Pawlik, Ulrich Teichler, Johan P. Mackenbach, Archana Singh-Manoux; Gianvittorio Caprara (until AGM 2019, renewable)

A9 Social Sciences
Chairperson: Antoine Bailly (to end 2017, renewable)
Antoine.Bailly@unige.ch
Rue de la Tour 51, 1867 Olton, Switzerland

Committee: Alessandro Cavalli, Yale Ferguson, Sture Öberg, Justin Stagl, Yola Verhasselt, Maria Paradiso (until December 2017, renewable), Maria Dolores Garcia-Ramon (until December 2017, renewable), Alun Jones (until December 2017, renewable)

A10 Law
Chairperson: Dagmar Coester-Waltjen (to AGM 2018, renewable)
coeva@freenet.de   http://www.uni-goettingen.de/de/person/100247.html
Hilariastrasse 7, Pullach, Germany

Committee: Nina Detloff (until December 2019, renewable), Rosa Greaves (until December 2019, renewable), Kurt Seelmann (until December 2019, renewable), Verica Trstenjak (until end 2017, renewable), Alain Strowel (until end 2017, renewable)

CLASS B

B1 Mathematics
Chairperson: Jürg Kramer (to 2019)
Kramer@math.hu-berlin.de
Department of Mathematics, Humboldt University, Unter den Linden 6, 10099 Berlin

Committee: Jean-Michel Bismut (to September 2019 not renewable), Helmut Hofer (to September 2019 not renewable), Nigel Hitchin (retires 2017), Philippe Michel [to 2016], Umberto Zannier [to September 2016], Alfio Quarteroni (to December 2017, renewable)

B2 Informatics
Chairperson: Schahram Dustdar (until Dec 2019, renewable)
dustdar@dsg.tuwien.ac.at
TU Wien, Distributed Systems Group, Argentinierstrasse 8, 1040 Vienna. Austria

Committee: Dieter Fellner (until AGM of 2018), Paul Spirakis (to 2017), Carlo Ghezzi (to 2017, renewable), Jan Bergstra (until end 2019)

B3 Physics and Engineering Sciences
Chairperson: Muhsin Harakeh (ends AGM 2018)
m.n.harakeh@kvi.nl
Rijksuniversiteit Groningen, Kernfysisch Versneller Instituut, Zernikelaan 25, 9747 AA Groningen, The Netherlands

Committee: Pavel Exner -Vice Chair (ends AGM 2020, not renewable), Michael Peter Kennedy (until end 2020, renewable), Angela Bracco (until end 2020, renewable), Tamás Csörgő (until AGM 2019), Sydney Galès (until AGM 2019), Karlheinz Langanke (until AGM 2019), Maciej Ōgorzalek (first term till AGM 2017, renewable), Minh Quang Tran (till AGM 2020, not renewable)

B4 Chemical Sciences
Chairperson : Graham Hutchings (to AGM 2019, renewable)
hutch@cf.ac.uk
Cardiff Catalysis Institute, School of Chemistry, Cardiff University Cardiff, CF10 3AT UK
Committee: from January 2014 to 2016 - Carmen Claver, Janine Cossy, Konstantin Hadjijivanov, Joachim Sauer, Małgorzata Witko. Bert Weckhuysen (until December 2019, renewable)

B5 Earth and Cosmic Sciences
Chairperson: Paolo Papale (until December 2019, renewable).
papale@pi.ingv.it
Instituto Nazionale di Geofisica e Vulcanologia

CLASS C

C1 Biochemistry and Molecular Biology
Chairperson: Witold Filipowicz (to 2019)
filipowi@fmi.ch
Friedrich Meischer Institute for Biomedical Research, Maulbeerrestrasse 66, CH-4.58 Basel, Switzerland

Committee: Anton Berns, Nicholas Hastie, Maurizio Brunori, Esteban Domingo, Daniela Rhodes, Moshe Yaniv (all from September 2013 to 2016, renewable)

C2 Cell and Developmental Biology (renamed at the AGM of 2015)
Chairperson: Margaret Buckingham
margab@pasteur.fr
Institut Pasteur, Department of Biologie du Développement, CNRS URA2578, 25 rue du Dr Roux, Paris Cedex 75724, France

Committee: Meinrad Busslinger, Carl-Henrik Heldin, Elisabetta Dejana (first term ends AGM 2018, renewable), Anne Ephrussi (first term ends AGM 2018, renewable), Austin Smith (first term ends AGM 2018, renewable)

C3 Physiology and Neuroscience (renamed at the AGM of 2015)
Chairperson: Dmitri Rusakov (to AGM 2019)
d.rusakov@ucl.ac.uk
UCL Institute of Neurology, Queens Square, London, WC1N 3BG, UK

Committee: Marina Bentivoglio (till AGM 2017, renewable), Alfonso Araque (till AGM 2018), Robert Zorec (till AGM 2018), Vladimir Parpura (till AGM 2017, renewable), Riitta Salmelin (till AGM 2017, renewable), Cisca Wijmenga (till AGM 2017, renewable), Barbara Franke (till 31 December 2018, renewable)

C4 Organismic and Evolutionary Biology
Chairperson: Christophe Thébaud (To AGM 2019, renewable)
christophe.thebaud@univ-tlse3.fr
UMR 5174 CNRS ‘Évolution et Diversité Biologique’, Université Paul Sabatier, 31 062 Toulouse cedex 4, France

Committee: Roy Anderson (to end 2016), Lars Walloe (to end 2016), Pat Monaghan (to 2017), Ricardo Guerrero (to 2017)

C5 Clinical and Veterinary Science (created at the AGM of 2015)
Chairperson: Stephen Holgate (To AGM 2018, renewable)
sth@soton.ac.uk
Sir Henry Welcome Laboratories, University of Southampton, SO16 6YD, UK

Committee: Christopher Griffiths (until AGM 2019, renewable), Paul Matthews (until AGM 2019, renewable), Richard Frackowiak (until AGM 2019, renewable)

1 Committees are elected by the members of the section accordance with the Regulations for Section Committees. At least 50% of the committee has to be elected by a ballot of the membership of the Section. All members of the Section are eligible to stand for election as Committee candidates. The exact procedure for rotation and elections is decided by the Committees themselves. The Chair must ensure the committees reflect a balance of representation of the fields within the Section and should ensure a regular rotation of members of the committee.

2 Chairs serve a three term, renewable once only for a further three years.

3 Committee members serve a three year term that can be renewed once only for a further three year period.

4 (date first term ends / date second and final term ends subject to agreement of the committee and Council)
Annex 3: Academia Europaea Barcelona Knowledge Hub

2017 Annual report of Activities for AE Headquarters, London

28 February 2018
TABLE OF CONTENTS

1. OVERVIEW

1.1 The Academia Europaea ................................................................. 3
1.2 The Barcelona Knowledge Hub (AE-BKH) ...................................... 3

4.3 Annex 3. Promotion of the Disputatio of Barcelona 2017 via social media .... 30
   Contributions to Science, 12:93-98
1. OVERVIEW

1.1 The Academia Europaea

Founded in 1988, the Academia Europaea (AE) is an international, nongovernmental, not-for-profit association of individual scientists and scholars from all disciplines, recognised by their peers as experts and leaders in their own subject areas. The AE members collectively promote research, learning and education. The AE recognises genuine international excellence and supports the culture of European research through dialogue and collaboration. The AE membership now numbers well over 3000, including more than 75 Nobel laureates. The AE is pan-European, and its elected members are drawn from the whole European continent and also from non-European countries. The AE has currently 22 thematic sections. The current president of the AE is Prof. Sierd Cloetingh, from Utrecht University.

1.2 The Academia Europaea Barcelona Knowledge Hub

In 2012, the Catalan Autonomous Government (Generalitat de Catalunya), the Barcelona City Council (Ajuntament de Barcelona) and the "la Caixa" Banking Foundation (Fundació Bancaria "la Caixa") launched the Barcelona Knowledge Hub (from then on, AE-BKH) to promote activities of the AE at the southern European countries and the Mediterranean. Those three organizations from Barcelona have the condition of "partners" of the AE-BKH. The three partners count on the support of the Institute for Catalan Studies (IEC) to hold and maintain the Hub's office, which is located at the central site of the IEC, in a place at the old city, with a long and historical relationship with sanitary and scientific institutions.

Operational since January 2013, the AE-BKH focuses on the promotion of activities of interest for the Members of the Academy and the scientific community in general, with special emphasis on multidisciplinary activities that include the transversal perspectives of the natural and social sciences and the humanities. The field of action of the AE-BKH covers, especially, but not uniquely, the Mediterranean and southern Europe.

The AE-BKH office is located at the premises of the IEC, a mid-17th century historical building very conveniently sited in the centre of the city of Barcelona. Since August 2014, Prof. Ricard Guerrero, from the University of Barcelona and University of Massachusetts-Amherst, is the academic director. During 2017, the administrative staff was formed by Doina Bird, Griselda Ribas and Ruben Duro.

Doina Bird is the manager of the Hub, and Griselda Ribas gives the administrative support and relationships with the IEC. The management of the website, digital coordination, social networking, web and communication and the audio-visual section (AE-BKH "Barcelona in Action" Video Channel) is run by Ruben Duro. There have been other external personnel collaborating for several activities, among them, Carmen Chica, Merce Piqueras, Mercedes Berlanga, Jara Duro and Maite Sanchez. The administrative and
technical support of the Hub's site at the IEC building is excellent and an essential part in the efficient every-day running of the Barcelona Hub of the Academia Europaea.

1.3 The Young Academy of Europe

Since 2007, the European Research Council (ERC) has been supporting excellent young scientists by awarding them with the ERC Starting Grants under the motto "Supporting the next generation of research leaders in Europe." In this context, the ERC has also manifested its support to the Young Academy of Europe (YAE) as a bottom-up initiative of a dynamic and innovative group of recognized European young scientists with outspoken views about science and science policy. The YAE shares the objective of the ERC to widen participation across Europe and across the research domains.

The AE-BKH provides administrative support to the YAE since 2013, by working closely with the persons occupying the Chair position during each period, as they have been Lynn Kamerlin, Stockholm (2014-2015), Nicole Grobert, Oxford (2015-2016), and Hagit Amirav, Amsterdam (2016-2017). The current Chair of the YAE is Marcel Swart, Girona (2017-).  

1.4 The AE-BKH International Advisory Committee (IAC)

During the 26th Annual Meeting of the AE (held in Barcelona on July 16-18, 2014), the Board and the Council of the AE nominated an International Advisory Committee (IAC) for the AE-BKH. Elev- en academics, most of them Members of the Academia Europaea (MAE) from Mediterranean countries with different fields of expertise were chosen.

The members of the IAC are currently as follows:

**Enric Banda**, BSC, Barcelona, enric.banda@gmail.com  
**Pedro García-Barreno**, Fellow of the RAE and RAMed, Madrid, pgbarreno@gmail.com  
**M. Dolors García-Ramón**, UAB, Bellaterra, mariadors.garcia.ramon@uab.cat  
**Ramon Gomis**, IDIBAPS, Barcelona, ramon.gomis@idibaps.org  
**Sergiu Hart**, The Hebrew University, Jerusalem, Israel, hart@huji.ac.il  
**Genoveva Martí**, ICREA Professor UB, Barcelona, genoveva.marti@gmail.com  
**Marc Mayer**, Faculty of Philology UB, Barcelona, mayerolive@yahoo.es  
**Maria Paradiso**, University of Sannio, Benevento, Italy, paradiso@unisannio.it  
**Regina Revilla**, Merck Sharp & Dohme Spain, Madrid, regina.revilla@merck.com  
**Rosalia Vargas**, Ciencia Viva, Lisbon, Portugal, rvargas@cienciaviva.pt
2. FEATURE ACTIVITIES DURING 2017

2.1 THE AE-BKH WOMEN’S WEEK 2017 (1-3 MARCH)

An annual activity of the Academia Europaea-Barcelona Knowledge Hub

The ACADEMIA EUROPAAE- BARCELONA KNOWLEDGE HUB WOMEN’S WEEK (AE-BKH WW) is held every year in the first week of March, in commemoration of the UN International Women's Day, celebrated each 8th of March.

On March 1, Marie Farge, Directrice de Recherche at Centre national de la recherche scientifique (CNRS) and Ecole Normale Superieure, Paris and Member of the Council of the Academia Europaea, was received by the vice-president of the Institut d'Estudis Catalans (IEC), Joaquim Aguilo, at the main office of the Presidency of the IEC, where she signed the honour book.

Marie Farge has a PhD in physics, a PhD in mathematics and is a specialist in turbulence, numerical simulation and harmonic analysis to study aerodynamics, geophysical flows and plasma physics. She has published more than 200 papers in peer-reviewed journals and proceedings. She participated in the editorial board of three journals of applied mathematics and cofounded one in 1992. She is member of the council of the Academia Europaea and of RISE (Research, Innovation and Science policy Experts of the European Commission). In 2011 she wrote the recommendation of the Ethics Committee of CNRS on the relations between scientists and publishers. In 2012 she participated in the declaration The Cost of Knowledge, calling to reform the scientific publication system. In 2015 she cofounded the non-profit organization CAPSH (Committee for the Accessibility of Publications in Sciences and Humanities) that develops the open source platform Dissemin helping scientists to deposit their papers in open access.

Scientific publication in peer reviewed journals is the backbone of the current research system. Nowadays the process of peer reviewing and the dissemination of articles are controlled and privatized worldwide by publishers, they own the journals, peer review reports, and articles they publish. Researchers are not paid by publishers for writing articles and referee reports, but research institutions have to pay huge amounts of money to publishers to access those articles,
while the referee reports are non-disclosable and lost to research. Unfortunately researchers are kept in the dark about the business model of publishers and how much it costs to their institutions. The business model of publishers made sense when they were printing houses, but it has become harmful for research now that Internet can be used instead.

We will first describe the present system and then propose alternative solutions that take advantage of the digital revolution and consider scientific knowledge as a commons. This new approach is inspired by the work of Elinor Ostrom, the only woman having ever received the Nobel prize in economic sciences for ‘showing how common resources can be managed successfully by the people who use them rather than by governments or private companies’. [1]

Knowledge, like language, is not a merchandise to be traded but a commons that everyone should share worldwide and preserve for the generations to come. Scientific results that are not shared nor preserved are lost forever. On the contrary, when a researcher shows her results to a colleague she does not lose them but can thus improve them, correct errors and get new ideas. This is a positive sum game. Peer reviewing and publishing generalize such an exchange of results and ideas. This is why the research outputs (e.g., articles, data and codes) should belong to the knowledge commons one should collectively develop.

In the afternoon, the Experts Meeting was held with several specialists in the Open Access policy in academic institutions of Barcelona. People representing the initiative of Open Science discussed informally with Marie Farge the EC current actions on the topic in the Puig i Cadafalch Room at the IEC.

On March 2 in the Prat de la Riba Room of the IEC, Marie Farge gave a Distinguished Lecture entitled "Scientific knowledge as a commons: How to improve the peer review and dissemination of research outputs". The Secretary of Universities and Research (SUR) of the Catalanian local Government, Prof. Arcadi Navarro, chaired the lecture.

| 2013 | March 6th | InterSection Workshop: "Two cultures, three cultures, or one only culture?"  
Convenor: Nicole Skinner, AE-BKH. With the participation of: Dacha Atienza, Museum of Natural Science of Barcelona, Merce Berlanga, University of Barcelona, and Genoveva Marti, Catalan Institution for Research and Advanced Studies (ICREA). |
| 2014 | March 5th | Distinguished lecture: "Arab Spring, or long desolate Arab Winter?"  
By Nadia El-Awadi, Egypt, former president of the World Federation of Science Journalists. |
|      | March 6th | InterSection Workshop: "The Earth is our body. Lynn Margulis and Gaia".  
Convenor: Carmen Chica, editor of the book *Once Upon a Time*. With the participation of: Isabel Esteve, Marta Estrada, Ricard Guerrero, Juli Peretó, Merce Piquer, Anna Omedes, Carme Puche, Joandomenec Ros and Nicole Skinner. |
| 2015 | March 4th | InterSection Workshop: "Women and the academic ladder"  
Convenor: Lynn Kamerlin. With the participation of: Clara Corbella, Margaret Luppino, Maryam Ghafouri, M. Dolors Garcia-Ramon and Lourdes Beneria. |
|      | March 5th | Short film "In the search of truth. In memory of Lynn Margulis".  
Convenor: Anna Alberni, (ICREA).  
Comments by the director of the film: Carme Puche.  
Distinguished Lecture: "Empowerment of women in the academic world". By Lynn Kamerlin, University of Uppsala, chair of the Young Academy of Europe (YAE).  
Music Concert: "Women's Sephardic Songs". By Olga Miracle, soprano, accompanied by Noemi M. Agell and Pere Olive, string and percussion instruments. |
|      | March 6th | Guided visits:  
Documentaries:  
"Lin in Espain: How she stood our Spanish-Catalan accent." Several documentaries selected by Ruben Duro, AE-BKH.  
Music Concert: "Songs from Syria and Kurdistan, a Nation without a State." By the Gani Mirzo Band.  
Musicians: Neila BenBey (singer), Francesc Puig (clarinet), Juan Jose Barreda (flamenco guitar), and Gani Mirzo (ud, buzuk, composer). |
|      | March 4th | InterSection Workshop: "Women, migrations and war".  
Convenor: Mitsu Ito. With the participation of: Mitsu Ito, Maryam Ghafari, Pere Castano, Carmen Chica, Salvador Giner.  
Lecture: Commemoration of the International Year of Global Understanding. By Silvia Pellicer, University of Zaragoza.  
Paintings by Trini Sotos: "Women/Dones/Mujeres. Reflections and aesthetics of female emotions." |
Marie Farge referred to scientific publication in peer reviewed journals as the backbone of the current research system. She described the present system of the process of peer reviewing and the dissemination of articles controlled and privatized by publishers that own the journals. She commented on the situation of researchers, who are not paid by publishers for writing articles and are not informed about the business model of publishers, and the huge amounts of money it costs their institutions. Farge proposed alternative solutions that take advantage of the digital revolution and consider scientific knowledge as a commons. Farge expressed that common resources should be managed by the people who use them, rather than by governments or private companies, so as not to be lost forever.

On March 3 different experts in Open Access publication from several universities of the academic area of Barcelona discussed at the IEC the future of academic publication and the impact of Internet in the diffusion of the scientific and humanistic knowledge.

2.2 CO-ORGANISATION OF THE SUMMER COURSE "BARCELONA DIALOGUE 2017" WITH NORTHEASTERN UNIVERSITY (BOSTON, 21 MAY-19 JUNE)

Between 21 May and 19 June 2017, Xavier Costa-Guix (MAE, Northeastern University, Boston) organized, with the collaboration of the Barcelona Knowledge Hub of the Academia Europaea (AE- BKH), the "Art and design in Barcelona", Barcelona Dialogue 2017, a Summer Course held in different locations of Madrid and Barcelona. The course is conceived as an introduction to the creativity, art and design of cities of Madrid and Barcelona, focusing on the past few decades, yet keeping in mind historical trajectory since classical times. The dialogue includes a comparative approach between European and American cultures and an intensive introduction to Spanish culture and civilisation. In Barcelona the course focused on the changing role of the city's creativity in today's economy in the European, Mediterranean and Spanish contexts, and examines some cases of entrepreneurship and innovation resulting from applying design to fashion, gastronomy (Ferran Adria), media, advertising, and other fields, such as visual and performance arts, which are relevant fields of social, economic and technological innovation. The creation of Barcelona's cultural arts district in the Raval and the 22@ area for creative industries constitute two urban case studies that were explored during the program for understanding the importance of design and cultural industries and their heritage as a source of wealth in one of Europe's most innovative and culturally rich cities.
Northeastern University provides well known comprehensive programs, very strong academics, an unrivalled experiential learning program with a wealth of Co-op opportunities (by which as part of their undergraduate degree, students can spend up to three 6-month periods working in a range of positions related to their interests, in locations all over the world). In the College of Arts Media and Design, there are programs in Music, Theatre, Architecture, Art + Design (including Game Design and Media and Screen Studies), Journalism and Communication Studies. In addition to having a wealth of dedicated programs, the university particularly encourages interdisciplinary relationships, and encourages students to create their own path, both combining disciplines across our fields, and also with other Colleges across Northeastern, including flexible joint programs with Business, Computer Science, and Engineering, and students can create their own combined major in just about any area of interest.

The twenty American visiting students from different majors interacted with creators, designers, entrepreneurs and economists, visiting inspiring start-ups, exhibits, performances, and attending lectures, debates and special events. In the Institute for Catalan Studies (IEC), the site of the AE-BKH, they had lecture sessions held in the Pi i Sunyer Hall of the IEC, addressing the transformed contemporary cultural, economic and technological status of design, and the AE-BKH explored exchanges and intersections with architecture, urban identities and lifestyles. The course aimed to address the implications
for cities of the ascendancy of design as a process, a transdisciplinary mode of creative thinking, and as a specialized field of study. The city as a site of creativity, with visits to some outstanding architectural and design examples (Antoni Gaudi), and the observation of Barcelona’s artistic and design-based vitality (The Centre for Contemporary Culture in Barcelona) culminated in a creative project through drawing, photography, video or other media.

On 16 June, Prof. Ricard Guerrero, academic director of the AE-BKH, met Prof. Elizabeth Hudson, dean of the College of Arts, Media and Design of the Northeastern University, at the AE-BKH headquarter.
2.3 DISPUTATIO OF BARCELONA 2017 [24 NOVEMBER]

An annual activity of the Academia Europaea-Barcelona Knowledge Hub

About the Disputationes

In the scholastic system of education of the Middle Ages, the Disputationes offered a formalized method of debate designed to uncover and establish truths in theology and in sciences. Fixed rules governed the process: they demanded dependence on traditional written authorities and the thorough understanding of each argument on each side. The famous Disputatio of Barcelona, called in the summer of 1263 by King James I of Aragon, was the most important and well-known of the inter-faith Disputationes that took place between Christian and Jewish theologians in the late Middle Ages. In 1263, the disputants were Friar Paulus Christianus (Dominican, and a convert rabbi from Judaism) and rabbi Moses ben Nachman (also known as Nachmanides, or Benastruch Sa Porta), from Girona's community, the most important scholar of Judaism in his time. They discussed theological questions in front of the king and his court, in the presence of the most important men of the prosperous and influent city of Barcelona.

The modern-day Disputatio of Barcelona, 2013-2016

The modern Disputatio of Barcelona has been successfully recovered. In November 2013, the AE-BKH celebrated its inaugural event by commemorating the 750th anniversary of the medieval Disputatio, and organised a modern-day Disputatio on "Social and state-of-the-art Medicine", featuring philosopher Thomas Pogge (Yale University; leader of the Health Impact Fund) and neuroscientist Mara Dierssen (Centre for Genomic Regulation, UPF, Barcelona; president of the Spanish Society for Neuroscience).

After the success of the first modern-time Disputatio of Barcelona (2013), the AE-BKH organised on November 27, 2014, a second modern-day Disputatio of Barcelona, together with the United Nations University Institute on Globalization, Culture and Mobility (UNU-GCM). The topic was "The Mediterranean, bridge of cultures". The Disputatio of Barcelona 2014 was held at the Saint Pau Historic Site, where the UNU-GCM is located. Two MAE, Maria Paradiso (geographer, Professor of Geography and Planning at the University of Sannio, Italy), and Enric Banda (geophysicist, Director of Science and Environment at the "la Caixa" Foundation, Barcelona), presented many different aspects of the Mediterranean history, culture, opportunities and present difficulties.

On December 9, 2015 the third modern-day Disputatio of Barcelona was held in the Royal Chapel of Sainte Agatha, in the Gothic Quartier. This Disputatio of Barcelona 2015, was also a success. Two scholars, Nuria Sebastian (vice-president of the European Research Council), and Ulises Cortés (from the Barcelona Supercomputing Centre), discussed on "Natural vs Artificial Intelligence".

On November 21, 2016 the fourth modern-day Disputatio of Barcelona, was held at the Palau de la Generalitat, under the presidency of the president of the Government of Catalonia, M. Hon. Carles Puigdemont. It was devoted to the topic: "Natural Life vs. Synthetic Life". Two scholars, Anna Veiga (Centre for Regenerative Medicine, Barcelona) and Ricard Sole (Complex Systems Lab, PRBB, Barcelona), debated on the new challenges that the current scientific advancements presented to human societies. The impressive knowledge both disputantes allowed them to clearly expose their ideas to the audience. An active debate among the public and the speakers helped to better understand several critical questions previously exposed by the disputantes.
We can consider that the modern-day *Disputationes* are a distinctive feature of the AE-BKH, and must be continued in future years.

**The Disputatio of Barcelona 2017**

This year, the Barcelona Knowledge Hub of the Academia Europaea (AE-BKH) held the fifth modern-day *Disputatio* of Barcelona on **23 November 2017**, at the Institute for Catalan Studies (IEC) in the Prat de la Riba Hall. The *Disputatio* debated on "SUPERCOMPUTERS: An instrument for science, technology and the progress of society." The two *disputantes* were Mateo Valero, director of the Super Computing Center of Barcelona (BSC), who presented the "science and technology" aspects, and Alison Kennedy, director of the STFC Hartree Centre (Daresbury, Warrington, UK), who presented the "progress of the society" aspects.

The debate was coordinated by Enric Banda (BSC) and Fabrizio Gagliardi (BSC), and was followed by a Colloquium with the audience, in which the attendants addressed questions of relevance to both speakers.

---

Card for the public to address questions to the disputantes during the post-conferences colloquium of the *Disputatio* of Barcelona 2017.
**Mateo Valero**, director of BSC, spoke about the science and technology aspects of Supercomputers. The BSC is the Spanish National Supercomputing Centre, housing the MareNostrum supercomputer, one of the largest in Europe. Mateo Valero explained how MareNostrum is used in designing precise medicine, climate and weather monitoring and prediction, and development of new materials for science and technology. He then described the potential for a level of precise modelling enabled by Exascale computing, inconceivable so far, and the technical and economic challenges in achieving it. He also reviewed the current plans in Europe to develop an entire European HPC stack software and hardware, including a low power HPC processor. To this end 7 first European countries signed an agreement, EuroHPC, in Rome on 23 March 2017. The European Union and its member states felt that without a European supercomputer entirely designed with European technology and competitive enough to be in the top 3 supercomputers in the world, the very same independence and security of Europe would be compromised. BSC leads this effort with major contribution from the major European industrial players in France, Germany, Italy and other countries. The first Exascale system is planned for 2023.

**Alison Kennedy**, Science and Technology Facilities Council (STFC), Hartree Centre Director (UK), talked about the progress of society aspects. The Hartree Centre is funded by the UK government with a remit to improve the global competitiveness of UK industry by facilitating the adoption of High Performance Computing (HPC), High Performance Data Analytics and Cognitive Computing techniques by companies of all sizes. Alison spoke about how Europe has an ambitious challenge-led programme of research that reflects the policy priorities of the Europe 2020 strategy and addresses major concerns shared by citizens of Europe and elsewhere. Supercomputers enable sophisticated computer simulation and modelling and complex data analysis across a range of data sources to be undertaken, she explained. They play an increasingly important role in helping us to study and solve societal problems and challenges that are
too big, too complex, or which extend over too long a period of time, to be tackled by traditional methods such as observation or experiment. Priority areas for Europe include: Health, demographic change and wellbeing; Food security, sustainable agriculture and forestry, marine and inland water research; secure, clean and efficient energy; smart, green and integrated transport; climate action, environment, resource efficiency and raw materials; Her talk presented examples of how research in these areas, enabled by supercomputers, is contributing to the progress of society and underlines their continuing importance in shaping our future. This timely event was well-attended, drawing a diverse crowd from the sciences, arts and humanities, as well as interested members of the general public.
2.4 MUSIC CONCERT: THE EUROPEAN DIMENSION OF FELIP PEDRELL (22 NOVEMBER)

In conjunction with the main Disputatio event, a concert was organised on the day before. The concert was given by soprano Marta Matheu and pianist and composer Albert Guinovart. Guinovart played an Erard piano from the late 19th century loaned by the Music Museum in Barcelona. The concert, under the title "The European dimension of Felip Pedrell," was a presentation of songs by Felip Pedrell, Manuel de Falla, Joaquin Turina, Enric Granados and Albert Guinovart. Both events were well attended, drawing a diverse crowd from the sciences, arts and humanities, as well as interested members of the general public.

PROGRAMME

PART I
FELIP PEDRELL (1841-1922)
Cançons d'amor que he dictades
De cel·les matinera
L'estel dels Pirineus

MANUEL DE FALLA (1876-1946)
Oración de las madres que tienen a sus hijos en brazos
- Pan de ronda
- Preludios
- Olas
- gigantes

JOAQUIN TURINA (1882-1949)
Poema en forma de canciones
- I. Dedicatoria
- II. Nunca olvida.
- III. Cantares
- IV. Los dos miedos
- V. Las locas por amor

PART II
ENRIC GRANADOS (1867-1916)
Allegro de concert (piano)
- I. El majo tímido
- II. Callejeo
- III. El tralala y el punteado
- IV. El majo discreto
- V. Elegia eterna

ALBERT GUINOVART (1962)
Tanit
- I. Tu el mar, jo el blau
- II. Del meu sud ets el nord
- III. Era que et somniava
- IV. T'estim
- V. Que es el desig?
Performers:

**Marta Matheu** studied piano, singing and organ at the Conservatories of Tarragona and Valencia. She has received many awards in singing contests. She has recorded the complete songs of Frederic Mompou, as a soloist, and the St. John Passion by Bach with the Baroque Camerata Orchestra of Barcelona.

Albert Guinovart studied at the Conservatory of Barcelona and in London. He has collaborated with artists such as Victoria dels Angels, Barbara Hendricks, and Nacho Duato, among others. He has recorded albums with works by Joaquín Turina, Enric Granados, Isaac Albeniz and Xavier Montsalvatge. His operas include Atzar (Chance) (1998) and Eternal Dawn (2009), the ballet Terra Baixa (Low Land)(1999). His musicals include Mar i Cel (1988, 2004), Gaudi, the musical of Barcelona (2003) and Paradise (2005). His soundtracks include The Long winter (1992) and he won an Oscar for the orchestration of The Artist (2011).

**Felip Pedrell** (1841–1922) sang as a boy soprano at Tortosa Cathedral from age 9, where he was educated musically. In 1873 he co-directed a zarzuela troupe in Barcelona and studied the guitar with Jose Broca. He wrote over 100 compositions: salon music for piano, songs, and works for the stage. After living in Italy and France, he met Isaac Albeniz and Enrique Granados who became his first pupils. Other notable pupils included the composers Rosa Garcia Ascot, Manuel de Falla, and Joan Lamote de Grignion. Between 1891 and 1904 in Madrid he became a member of the Real Academia de Bellas Artes de San Fernando in 1895.In 1894, the first volume of his *Hispaniae schola musica sacra* appeared, a series of edited scores of renaissance and baroque church music from Spain. He returned to Barcelona in 1904, when his opera *Els Pirineus* (The Pyrenees) was eventually performed.
Roma Escalas, musician and musicologist, has directed and organised the cycle "Musica al Claus- tre" (Music at the Cloister; July, September and November 2017) on behalf of the IEC.

3. OTHER ACTIVITIES DURING 2017

{Activities and collaborations in chronological order}

3.1 COLLABORATION WITH THE CONFERENCE "CONTEMPORARY NARRATIVES IN ENGLISH" {UNIVERSITY OF ZARAGOZA, 26–28 APRIL}

In collaboration with the University of Zaragoza (Spain) and the Barcelona Knowledge Hub of the Academia Europaea, Dr. Jessica Aliaga Lavrijsen and Dr Jose M. Yebra Pertusa from the "Contem- porary Narratives in English" Research Group organised a three-day series of lectures entitled "Transmodern Perspectives on Contemporary Literatures in English" that explored the traces of what has been called "transmodernity" in contemporary literatures in English. Its working hy- pothesis is that, although still largely unnoticed, there is evidence of a paradigm shift taking place since the 1980s that involves the assimilation and transcendence of Modernity and Postmodernity into what we have provisionally called "Transmodernity". Contemporary literary texts, literary theory and cultural studies test the applicability of this concept and its utility as a tool to better understand contemporary trends in literature.

3.2 PARTICIPATION IN THE AE-YAE-ALLEA CONFERENCE {BUDAPEST, 3–7 SEPTEMBER}. VIDEO IN REMEMBRANCE OF PROF. ANNE BUTTIMER {1937–2017}

This joint meeting was entitled "Sustainability and Resilience", in line with the commitment of both AE and ALLEA, in partnership with the Young Academy of Europe (YAE) and with the host, the Hungarian Academy of Sciences.

The main conference and the pre-conference events were held in the Main Building of the Hun- garian Academy of Sciences in Budapest. Topics in the categories of natural sciences, life sciences, social sciences and humanities and the arts focused primarily on Europe, enlightening on various aspects of Europe's sustainability, resilience, heritage, social system, health, economy, climate, science and research landscape.

The Conference kicked off on Sunday, the 3rd of September in the morning with the ALLEA Board Meeting and carried through till the afternoon with numerous events held during the day, such as the European Research Council (ERC) Pre-Conference, entitled - A Success Story for Europe".
Meanwhile, the **Young Academy Of Europe (YAE) Pre-Conference Sessions** were launched, and the **pre-conference workshop Sections** on History and Archaeology, an Exact Science workshop on Physics and Engineering Sciences dedicated to the advancement and propagation of excellence in physics and engineering sciences, as well as the advancement of public education in Europe.

The other two section workshops for the day were dedicated to Literature and Theatre, and Film and Visual Studies.

The day ended with the **AE Board meeting**, including Professor R Guerrero, Director of the Barcelon Hub (BKH) and Dr. David Coates, AE Executive Secretary. The meeting began with the president, Sierd Cloetingh, welcoming members of the Board and thanking the generous hospitality of the Hungarian Academy. He then asked Trustees for a minute of silence in memory of Anne Buttimer. Prof. Guerrero, academic director of the AE-BKH, screened the audiovisual from the AE-BKH Video channel entitled "Homage to Prof. Anne Buttimer" produced by Ruben Duro (AE-BKH) throughout the conference. This audiovisual homage is available on the AE-BKH "Barcelona in Action" Video Channel through the link <http://vimeo.com/233712556>.

Prof. Guerrero, presented the plans for the **Disputatio** in November and explained that in 2018 there would be an overarching theme for Hub activity, focused on a concept of "Building Bridges". More detailed ideas would be presented at the November Board. The 2018 Disputatio would also reflect the theme. In addition, it was proposed by the President to use the Hub and extend the Disputatio to include other elements to create an AE annual meeting of short duration, focused on new members, which would also include prizes and Burgen Scholars. The President proposed that in the future AE should scale back the length of any annual meeting and fix the date and use the same venue every year. This would allow members to always make room for the event in their calendars. Prof. Guerrero said that the partners in Barcelona were willing to facilitate this at the Hub. There was general agreement to fix the 2018 Annual Meeting in Barcelona.
The Board WAS invited to have an initial exchange on a proposed 3-year strategy document on a series of common questions, including the President's priorities that formed the basis for his re-election mandate. The plan would be ready for rollout during 2018.

### 3.3 Participation in the SAPEA (Science Advice for Police by European Academies) Workshop on Academies' Interaction (Madrid, 21–22 September)

The Science Advice for Policy by European Academies Project (SAPEA) brings together the expertise of Fellows from over 100 Academies and Learned Societies in over 40 countries across Europe, working closely with the High Level Group of Scientific Advisors, as part of the Scientific Advice Mechanism (SAM), of the European Commission. The SAPEA workshop on Academies' interaction took place on 21-22 September 2017 at the Spanish Royal Academy of Engineering (RAI) in Madrid, with the aim of strengthening cooperation among Academies and supporting individual Academies in providing evidence-based policy advice. The workshop was attended by members of various academies of science and engineering from across Europe as well as by representatives of the European Commission. The workshop was split into five sections, spread across two days. The participants filled in a short survey prior to the event.

The first session introduced the participants to the structure of the workshop and was used as an opportunity for the participants to discuss their activities and challenges and what they wanted to get out of the workshop. The second session focused on the role of the European Academies and the challenges and opportunities they face. Five speakers gave brief presentations on topics ranging from organisational structure, funding, staff resources, large vs. small academies, and more. The third session focused on activities and best practices in academies, helping Academies of all sizes to raise their profile at the European level. Participants discussed strategies used for promoting activities and topics selection in policy advice; quality assurance and peer review of scientific advice; stakeholder engagement and impact. After the group discussions, participants came back together to present reports from each discussion group. The fourth session was about enhancing networking and collaboration among European academies. Presentations were given by representatives of various European academies on the topic of the added value of academies and how they can help, opening an activity in which well-resourced and less-endowed academies were twinned together to share insights and offer advice. The fifth session provided potential policy advice topics. Following this, there was a panel discussion on various European academies. The final session broke out into groups to discuss strategies and options for how academies can best engage with the SAPEA project.
**3.4 LECTURE AT THE BANYOLES REGIONAL STUDIES CENTRE (7 OCTOBER)**

**MUSEU ARQUEOLÒGIC DE BANYOLES**

The Banyoles Regional Studies Center conducted a new monographic course entitled "Our Paleontological Heritage", directed by Salvador Sarquella. Characteristic of all the courses of the Studies Centre, the conferences are accompanied by field trips to go deeper into the subjects that are treated during the sessions. For this 2017/18 course, 7 conferences and 6 field trips were scheduled. All the conferences take place at 7 pm in the conference room at the Darder Museum of Banyoles, one of the oldest in the surrounding region. Opened in 1916, it underwent few changes until its complete renovation, which began in 2003. In 2007 the museum opened again, incorporating the natural history collections dedicated to explaining the phenomenon of the hydrological basin of Lake Banyoles.

The inaugural lecture was held on October 7, by Prof. Ricard Guerrero, who talked about "Possible origins of life on Earth ... and beyond". Invited by two institutions: the Banyoles Regional Studies Centre (Centre d'Estudis Comaricals de Banyoles) and AstroBanyoles, Professor Guerrero also presented the AE to the audience and invited attendees to the Disputatio, which was held a month and a half later.

**3.5 CO-ORGANISATION OF THE BOARD MEETING COSCE (CONFEDERATION OF THE SCIENTIFIC SOCIETIES OF SPAIN IN BARCELONA (17 OCTOBER))**

The Confederation of Scientific Societies of Spain (COSCE) held their Government Board Meeting on 18 October, 2017 at the Institut d’Estudis Catalans (IEC) in the Puig i Cadafalch Hall, organized by the AE-BKH.

COSCE contributes to the scientific and technological development of Spain, acting as a qualified and unified voice, both before the civil society itself and before its representative public powers in matters that affect science by promoting the role of science and contributing to its dissemination as a necessary and essential ingredient of culture. Represented by all areas of Sciences and Humanities, on the agenda was the subject of the meeting with the Scientific Council of the Ramón Areces Foundation. The DECIDES 2017 Project report was presented. This project analyses the policies announced and implemented by the Government. The CONOCEROS + program that
COSCE initiated with conversations between parliamentarians and scientists through the program of meetings were discussed. The 2017 ENCIENDE Project, which is promoted by the COSCE for the teaching of sciences at the earliest ages was analysed along with the report and negotiation of the 2018 agreement. Also brought up among many topics were the COSCE 2018 Award, the Day of Societies 2018, the Creation of the COSCE Commission Draft of the Pact for Science 2018, the protocol for the admission of new societies and the advances with the Network of Foreign Societies, progress with the Federation of Spanish Medical Scientific Associations (FACME).

As an especial part of the meeting, Prof. Ricard Guerrero, academic director of the AE-BKH, had an informal conversation with Dr. Nazario Martin, president of COSCE in which explained the role of the Academia Europaea and of the Barcelona Knowledge Hub and offered the collaboration with COSCE in organizing their annual meeting in Barcelona under the auspice of the AE-BKH. The conversation was filmed and edited by Ruben Duro (AE-BKH) and is available on the AE-BKH "Barcelona in Action" Video Channel through the link <http://vimeo.com/242089657>. 
3.6 DIRECTION OF THE VISITS TO THE ARCHAEOLOGICAL MUSEUM OF CATALONIA AND THE NATURAL SCIENCE MUSEUM OF BARCELONA (9 NOVEMBER)

The visit to the Archaeological Museum of Catalonia on 9 November, following Professor Guerre-ro's lecture on "Possible origins of life on Earth ... and beyond" in Banyoles in the Paleontological Heritage Course, was organised to see the exhibit entitled "The neolithic revolution. La Draga, the town of wonders". The headquarters of the Archeological Museum in Barcelona has the most complete chronological and territorial division of archaeology in the country and one of the most important archeology libraries. In addition, the Museum manages the archaeological collection of the Generalitat de Catalunya, in Cervera (Catalan Cultural Heritage Agency), and is called to become the largest archaeological site of the country.

About 7,400 years ago, a group of prehistoric farmers and ranchers settled on the banks of the lake of Banyoles, becoming the most important Neolithic town in Catalonia, and where there was a real revolution. La Draga is the only lacustrine archaeological site in the Iberian Peninsula and one of the oldest and most important in the Western Mediterranean, which allows us to exemplify it through the extraordinary preserved heritage, partly underwater, a key stage in our history: the beginnings of agriculture and livestock. The thrill of being in an unrepeatable site leads an innovative museographic proposal that uses audiovisual resources and virtual recreations to transport us to the Neolithic.

The exhibition on the Neolithic revolution of La Draga, the town of prodigies is structured in areas that respond to four basic concepts: emotion, analysis, interpretation and imagination.

The impact generated by the discovery of the settlement of the village of La Draga presents a unique collection of original archaeological pieces representing the site: fauna, plant and food remains, objects of everyday life and elements connected with social sphere or beliefs. The reconstruction of the panorama of what happened in La Draga for about 400 years is thanks to the huge amount of data obtained and processed by a large multidisciplinary scientific team, more than two hundred archaeological pieces from the Banyoles Archaeological Museum.
On 15 November 2017, at 7 pm in the Prat de la Riba Hall, Prof. Ricard Guerrero, gave a lecture, organized by the Education Section of the Societat Catalana de Biologia (Catalonian Society of Biology)(SCB). The full title of the lecture was "Life that flows from the dark". It was a Commemo- rative lecture in honor of Saint Albert Magne Day, Patron Saint of Science.

The SCB is one of the most traditional and most active scientific societies in Catalonia. There are approximately 1,500 members, of which 80% do active research in universities or research centres. The scientific sessions of the SCB have a long tradition and are meeting points that allow researchers to network and collaborate effectively. The SCB organises activities around its 19 thematic sections in the most current aspects of basic or applied Biology, and 6 territorial sections. It also brings together a large number of secondary school teachers and other people relat- ed with the BIO area. The SCB is the point of reference for those interested in Biology in Catalonia.

Professor Guerrero described our planet as a tiny blue dot lost in the immense space of the Uni-

verse, and in the chronology of time he described humans' presence on earth as only a short mo- ment in the long arrows of time. He discussed the living systems of the Earth; the atoms of our body, those of animals, fungi, plants and microorganisms that were organized and evolved from the atoms of the galaxy trapped by our planet and were part of the great stellar disc that gave rise to the Solar System about 4,550 million years ago.
He went on to discuss how life appeared on Earth about 3,850 million years ago, following with the first 2,000 million years of evolution of prokaryotic microorganisms, the only inhabitants of the Earth, and highlighted ecopoiesis in the chronology. A film by Ruben Duro (AE-BKH) "Microbial mats. Life from Light, Light for Life", devoted to the supposed first ecosystems on Earth (the first appearance of ecopoiesis) is available on the AE-BKH "Barcelona in Action" Video Channel through the link <http://vimeo.com/154780343>.

Covering the climate and light conditions for the development of extremophilic macro-organisms, Prof. Guerrero took the audience on the adventure of wondering where "life" on the Earth could have been developing in the Solar System or in planets that orbit around other stars. The possibility of the investigation of primary ecosystems extended by many ridges of different oceans, especially in the Pacific and the Atlantic, in which primary production does not depend on photosynthesis, triggered reflexion about the discovery of the existence of other places in the Solar System where life could have arisen, although possibly only on Earth, thanks to the phenomenon of the ecopoiesis.
Prof. Guerrero attended the presentation of the book *Medicina en Español III* sponsored by the Spanish Royal Academy (RAE) and the Lilly Foundation on November 29 at the Headquarters of the Spanish Royal Academy in Madrid to present the highlighted 2017 activities and the planned 2018 activities of the AE -BKH.

The author of the book, Fernando A. Navarro, is a member of the technical committee of MEDES - MEDicine in ESpanol. Etymologies, mistakes, recommendations and other curiosities of medical language in Spanish are collected in this book promoted by the Lilly Foundation. "Medical language, with twenty-five centuries of history behind it, has reached a degree of richness and complexity that is hardly imaginable for those who see it from the outside," says Dr. Fernando A. Navarro. This work is aimed at bringing doctors closer to the pleasure of language. With this publication, framed within the initiative MEDES - MEDicine in Espanol, the Lilly Foundation aims to contribute to improving the prestige of Spanish as a language of transmission and dissemination of scientific knowledge.

The presentation was chaired by D. Dario Villanueva, director of the Spanish Royal Academy and Jose Manuel Sanchez Ron, Deputy Director of the RAE. Also participating were Mr. Jose Ramón Zarate, Deputy Director of Diario Medico, Mr. Jose Antonio Sacristan, director of the Lilly Foundation and D. Fernando A. Navarro, author of the book.
The Marie Skłodowska-Curie European Training Network DIAPHORA serves as a European research and training platform for collaborative research on the nature of philosophical problems, their resilience and the sources of persistent divergence of expert opinion about them, and their relation to conflicts in the practical sphere. DIAPHORA undertakes to provide 14 Early Stage Researchers with the knowledge and skills necessary to meet the demands of top-level research within its remit, as well as professional complementary skills training in both the academic and non-academic sectors, with the goal of widening their potential societal contributions and improving their individual career prospects. Diaphora holds a mid-term review so the fellows can present and get feedback on their work carried out so far. The 8 evaluated work package topics are: The Sources of Disagreement, Logic and Paradox, Determinism and Open Choices, A Priori Knowledge, The Nature of Representation, The Structure of Warrant, Self-Knowledge, Management & Dissemination and Training Days. This provides the recruited Early Stage Researchers with skill training at network level that complements their training in the context of secondments (internships) with the partner organisations.

The meeting was funded by the European Commission and by the Faculty of Philosophy, University of Barcelona. Sven Rosenkranz (ICREA Research Professor; coordinator of the LOGOS Research Group in Analytic Philosophy, Department of Logic, History and Philosophy of Science, University of Barcelona) coordinated this meeting, which lasted one working day.

The AE-BKH prefer the month of November for hosting research fellow interns, as November is the month with the most important activity of the year, the Disputatio of Barcelona Week. At this time of the year, AE-BKH can offer comfortable office space for the respective interns, and this year we hosted Matthew Jope from Edinburgh University. He got his undergraduate and master's degrees at KU Leuven, Belgium. His Ph.D. research is on the structure of epistemic justification. His supervisors are Prof. Duncan Pritchard and Dr. Aidan McGlynn.

Ricard Guerrero, Director of the AE-BKH and Doina Bird attended the meeting held at the Philosophy Department at the UB as representatives of the BKH, one of the five partners of this initiative. The other partners are United Nations University Institute on Globalization, Culture and Mobility (UNU-GCM), Search for Common Ground, Ideaborn international consultants in Human Rights, and the International Catalan Institute for Peace.
4. ANNEXES

4.1 ANNEX 1

Updates on the Website

A new feature was added to the barcelona.acadeuro.org website: a PhotoGallery section within the "Barcelona in Action" page with a selection of photographs related to the different activities organised in the AE-BKH.

The AE-BKH "Barcelona in Action" Video Channel

The AE-BKH audiovisual "Barcelona in Action" video channel, running on the YouTube and Vimeo platforms represent the activities organised by the hub and as support to other institutions related to the Academia Europaea. The webmaster and social communicator of the AE-BKH is Ruben Duro, who is responsible for this development, offering technical support to the YAE for the production of several interviews included in the YAE Project "Dialog Project". Some of the videos produced by the BKH audiovisual team are included into the "Barcelona in Action" video channel and linked through the "Video" section of each "BarceloNEWS" newsletter with the aim of all MAE and visitors to the web being able to view them.

The Latest Videos in the AE-BKH "Barcelona in Action" Video channel

From the Disputatio of Barcelona 2017, held on November 23, in which Mateo Valero, director of the Super Computing Center of Barcelona (BSC) and Alison Kennedy, director of the STFC Hartree Centre, Daresbury, Warrington, UK explained different aspects of the topic "SUPERCOMPUTERS: An instrument for science, technology and the progress of society."

The video, "Homage to Anne Buttimer", was added onto the Vimeo channel, in which YAE member Alexander Fidora, interviews Anne Buttimer. She reflects on aspects of her career such as integration of knowledge, innovation that arises from dialogue, and concern about lack of dialogue and sharing ideas among students in a digital world.
4.2 ANNEX 2

Diffusion of the activities of the AE-BKH

The AE-BKH office, with the purpose of informing about the activities developed by the hub, created the barcelona.acadeuro.org website and the corresponding accounts on Facebook, Twitter and Instagram platforms. Through these accounts it has been possible to introduce information about the activities related to the AE-BKH into the social network. The average number of visits to the Hub website per month in 2017 were 1,681 and the average number of page views on the Hub website per month in 2017 were 8,264.

Instagram account of the AE-BKH has been less active than the other networks during 2017. This has been due to the difficulties in managing all social accounts. This has been the cause of the small number of publications and followers of the account. To improve the positioning of the AE-BKH in Instagram is a task that should be addressed during 2018.
Promotion of the Disputatio of Barcelona 2017 via email and social media.

In order to ensure a high turnout for the Disputatio of Barcelona 2017, we began promoting it via email and social media four weeks ahead of the date. Given the broad appeal of the topic "Super-computers: An instrument for science and the progress of society", a wide range of scientists, academics and members of the public would be interested in attending.

We contacted some university departments and e-mails were sent out to each department and institution that could be found, explaining the nature of the event and politely asking whether they would disseminate the information internally. Where possible, contact details of individual researchers at each institution were included in our mailing list. The final number of individual researchers contacted was 189.

Social Media

In addition to promoting the event via e-mail, a social media campaign online carried out via our Twitter account, Instagram account and two Facebook accounts. By the day of the event the number of followers of the Academia Europaea account on Twitter was almost 700. This meant each of our promotions was being seen by thousands of people. A new Facebook page for the Disputatio was created that allowed sharing with, and inviting, our followers. Finally, on the day of the event, live-Tweeted updates were made while the Disputatio was taking place. This allowed people who were unable to attend the event to follow along with the debate in real-time.

It is always difficult to judge what effect this kind of promotion has on the actual number of attendees at an event. However, it is clear that these campaigns had some positive effect because names recognised from the individual researchers located and e-mailed, as well as individuals from Twitter were appearing in our AE inbox requesting reserved seats at the Disputatio. Using social media in this way was also a good way of letting more people know what is going on at the Barcelona Knowledge hub, even for those who were unable to attend. Some of the other AE hubs also interacted with us via Twitter, helping to promote the event by sharing our tweets leading up to and during the event. The Cardiff hub was particularly helpful in this regard, therefore creating a wider audience for the whole of AE.
The AE-BKH Women’s Week, 2013–2016

Mercè Piqueras, Ricard Guerrero

1 Catalan Association for Science Communication (ACCC), Barcelona, Catalonia
2 Academic Director, AE-BKH, Barcelona, Catalonia

Summary. The article describes the activities of the Barcelona Knowledge Hub of the Academia Europaea (AE-BKH) on the occasion of the BKH-AE Women’s Week, from 2013 to 2016. This Week will be continued in the coming years. Two major changes have revolutionised society and specifically higher education in only one century. Firstly, higher education and scientific research have rapidly expanded throughout the world. Secondly, this exceptional opportunity to promote and strengthen the values of science in the service of humanism, development and peace is partially the consequence of the achievements of women in science. Women have been able to apply their knowledge and skills to many fields of science and humanities, and their contributions to progress in all of them have been highly significant.

Keywords: International Women’s Day lectures · AE-BKH Women’s Week · Academia Europaea’s activities · higher education for women · gender equality

Introduction

From 2006 to 2012, the Institute for Catalan Studies commemorated the International Women’s Day with a Distinguished Lecture. Since 2013, that celebration has been the responsibility of the Barcelona Knowledge Hub of the Academia Europaea (AE-BKH) [7,9]. To the Distinguished Lecture, other activities have been added, including a concert, a work-shop and a visit to a center of special cultural or scientific relevance in Barcelona. Therefore, the activity has been re-named the AE-BKH Women’s Week. The International Women’s Day (IWD) first emerged from the activities of female

As Scientific Secretary of the Institute for Catalan Studies, one of the authors, R. Guerrero, commemorated the International Women’s Day from 2006 to 2012. And from 2013 to the present, as Academic Director of the AE-BKH, organised the AE-BKH Women’s Week. This article is based on a previously published article in the journal Contrib Sci 11(1):21-26 (2015).
workers at the start of the 20th century in North America and across Europe. On February 28, 1909, the first Woman's Day was observed in the United States. The Socialist Party of America proposed this day in honour of the 1908 strike of garment workers in New York, where women protested against working conditions. In 1910, the Socialist International Meeting in Copenhagen established a Women's Day to honour the movement for women's rights and to build support for achieving universal suffrage for women. The proposal was greeted with unanimous approval by the conference of over 100 women from 17 countries, which included the first three women elected to the Finnish Parliament. No fixed date was selected for the observance. As a result of the Copenhagen initiative, IWD was marked for the first time (19 March) in Austria, Denmark, Germany and Switzerland, and more than one million women and men attended rallies. In addition to the right to vote and to hold public office, they demanded women's rights to work, to vocational training and to an end to discrimination on the job [9]. In 1915, during the first winter and spring of World War I women started to take action by reclaiming their rights as wives, mothers and housekeepers, and the IWD provided the framework for their protests. As part of the peace movement, Russian women first observed IWD the last Sunday in February in 1913. In 1917, against the backdrop of the war, women in Russia held a mass demonstration for "bread and peace" on February 23 (8 March on the Gregorian calendar). Four days later, the Czar was forced to abdicate, and the provisional Government granted women the right to vote. Since those early years, the growing international women's movement has been strengthened by four global UN women's conferences and has helped to make the commemoration a rallying point to build support for women's rights and participation in the political and economic arenas [6,9].

Many countries around the world followed the observance of the IWD, in commemoration of the women's struggles to revalidate their rights, recognizing their social achievements in those struggles and looking ahead to obtain a full and equal participation in society. After World War II, however, the IWD remained a communist celebration until the late 1960s. A group of women at the University of Illinois, Chicago Circle commemorated it in 1967. The United Nations (UN) started celebrating the IWD on March 8, 1975, on the occasion of the International Women's Year. In December 1977, a resolution of the UN General Assembly proclaimed a UN Day for Women's Rights and International Peace, which would be observed on any day of the year by Member States, according to their traditions. Nowadays, the IWD is commemorated in more than 100 countries and in some of them, including Russia, it is even an official public holiday [6,9].

Increasingly, IWD is a time to reflect on progress made, to call for change and to celebrate acts of courage and determination by ordinary women who have played an extraordinary role in the history of their countries and communities. Accordingly, the Institute for Catalan Studies (IEC), always eager to follow international trends and multinational cooperation, celebrated the IWD from 2006 to 2012 by holding a Distinguished Lecture during the week of March 8 (Fig. 1). Female researchers and scholars talked on a great variety of topics, as shown in Table 1. Several lectures related to the IWD given at the IEC have been published in Contributions to Science [2,4,5,8]. From 2013 on, other events have been added to the main lecture (Fig. 2). Therefore, the whole activity has been renamed the AE-BKH Women's Week.
Table 1. Events related to the International Women’s Day held at the AE-BKH since 2013 to present.

**International Women’s Day at the AE-BKH, 2013–2016**

**2013**

**March 6th**  "Two cultures, three cultures, or one only culture?"
Dacha Atienza, Museum of Natural Sciences of Barcelona; Merce Berlanga, University of Barcelona; and Genoveva Martí, Catalan Institution for Research and Advanced Studies (ICREA).

**2014**

**March 5th**  Distinguished lecture: “Arab Spring, or long desolate Arab Winter?”
Nadia El-Awadi, Egypt; former president of the World Federation of Science Journalists.

**March 6th**  "The Earth is our body. Lynn Margulis and Gaia"
Convenor: Carmen Chica, editor of the book *Once Upon a Time*. With the participation of: Isabel Esteve, Marta Estrada, Ricard Guerrero, Juli Peretó, Merce Piqueras, Anna Omedes, Carme Puche, Joandomenec Ros and Nicole Skinner.

**2015**

**March 4th**  InterSection Workshop: “Women and the academic ladder”
Convenor: Lynn Kamerlin. With the participations of: Clara Corbella, Margaret Luppino, Maryam Ghafouri, M. Dolors Garcia-Ramon and Lourdes Beneria.

**March 5th**  Convenor: Anna Alberni, Catalan Institution for Research and Advanced Studies (ICREA). Short film, "In the search of truth. In memory of Lynn Margulis", comments by director Carme Puche, Barcelona.

Distinguished Lecture: "Empowerment of women in the academic world", by Lynn Kamerlin, University of Uppsala, chair of the Young Academy of Europe (YAE).

Concert: "Women's Sephardic Songs". By Olga Miracle, soprano, accompanied by Noemi M. Agell and Pere Olive, string and percussion instruments.

**March 6th**  Activities in support of the YAE:
Visit to the Museu Blau, the new Natural Sciences Museum of Barcelona. Visit guided by Marta Punseti.
Visit to the Cercle del Liceu pinacothque. Visit guided by Maria Jimenez de Parga.

**2016**

**March 3**  Distinguished Lecture: "Women and cultural transmission. The essential role of translation” By Mary Ann Newman.
"Lin in Espain. How she stood our Spanish-Catalan accent.” (Documentaries selected by Ruben Duro) and "Symbiotic Earth” by John Feldman, Filmmaker, Hummingbird Films, New York.

Concert: Music from Syria and Kurdistan, a Nation without a State. By the Gani Mirzo Band. Neila BenBey (singer), Francesc Puig (clarinet), Juan Jose Barreda (flamenco guitar), and Gani Mirzo (ud, buzuk, composer)

**March 4**  InterSection Workshop: “Women, migrations and war”
Convenor: Mitsi Ito. With the participations of: Mitsi Ito, Maryam Ghafouri, Pere Castano, Carmen Chica, Salvador Giner.

Commemoration of the International Year of Global Understanding by Silvia Pellicer.

International Women’s Week

Fig. 2. Celebration of the Women’s Week at the Barcelona Knowledge Hub of the Academia Europaea, on March 5, 2015. Women’s Sephardic Songs concert by soprano Olga C. Miracle, Barcelona and Sacramento, California. Held at the premises of the Royal Academy of Medicine of Catalonia.

The role of the AE in promoting women at the upper academic levels

On 2 Nov. 2000, UNESCO’s Director General, Dr. Koichiro Matsuur, received Prof. Stig Stromholm, President of the Academia Europaea, and Prof. Enric Banda, Secretary General of the European Science Foundation (ESF). Both visitors expressed their interest in joining UNESCO’s efforts in South East European countries to contribute to the development of the intellectual activities in this region. Director General Matsuur supported this initiative of building upon the region’s unique and diverse cultural identities and its historical close cultural links.

The following day, 3 Nov. 2000, another meeting took place between the Permanent Delegates to UNESCO of the following member states: Albania, Bosnia-Herzegovina, Bulgaria, Croatia, Greece, Italy, Romania and Slovenia. The Permanent Delegate of Italy to UNESCO and other delegates agreed on a two-step exercise, with proposals emerging from a scientific expert conference which would need to be examined at a governmental level. As a result of these preliminary discussions, a joint UNESCO-ROSTE/AE/ESF Organizing Committee was set up in order to prepare the expert conference as a first step of the process. The International Conference of Experts on the Reconstruction of Scientific Cooperation in South East Europe took place in Venice, Italy from 24-27 March 2001. It focused on country presentations and reviews of existing collaborations and furthermore on the potential South Eastern European countries to develop cooperation in some strategic fields of research.
Two major changes have revolutionised society and specifically higher education in only one century. Firstly, higher education and scientific research have rapidly expanded throughout the world. Access to higher education has become a common aspiration, and is no longer perceived as the privilege of social elites. Moreover, higher education is increasingly recognised as a social, economic and political driving force for progress. Nowadays, a larger proportion of humanity aspires to education, and higher education is increasingly regarded as tomorrow’s general education. Secondly, this exceptional opportunity to promote and strengthen the values of science in the service of humanism, development and peace is partially the cause and the consequence of the achievements of women in science. By breaking down earlier social, cultural barriers, women can now apply their knowledge and skills to many fields of science, and their contributions to progress in all of them have been significant. Despite these important gains, women in higher education must still overcome difficult hurdles before being granted the same opportunities as their male peers. There is no real evidence that gender has ceased to stratify opportunities. Many obstacles to women’s equity remain: advancement to the upper rungs of the career ladder is slow, the glass ceiling—a metaphor used to represent an invisible barrier that prevents from reaching upper levels in a hierarchy—still hangs low, and equal work does not yet mean equal salary. Within the top rungs of higher education, women in many countries are greatly underrepresented even though they receive the majority of undergraduate degrees.
Inequality in STEM higher education

Shortages in the supply of trained professionals in disciplines related to science, technology, engineering, and mathematics (STEM) may weaken the innovation potential of a society [1]. Countries with higher proportions of engineering graduates tend to grow faster than countries with higher proportions of graduates in other disciplines. Moreover, future technical changes will probably be linked to abilities and tasks related to STEM disciplines. Over the years a wide gender gap has persisted at all levels of STEM disciplines throughout the world. Women have made important advances in their participation in higher education, yet they are still underrepresented in these fields. This is even a more acute concern in some regions of the world and at the senior-most levels of academic and professional hierarchies [1].

According to the UNESCO Institute of Statistics (UIS), women still account for a minority of the world’s researchers: 28.4% of the total number of persons employed in R&D. The highest percentages are found in Central Asia (47.1%) and Latin America and the Caribbean (44.3%). Other regional averages for the share of female researchers for 2013 were: Central and Eastern Europe, 39.9%; Arab States, 36.8%; North America and Western Europe, 32.0%; Sub-Saharan Africa, 30.0%; East Asia and the Pacific, 22.6%; and South and West Asia, 18.9% [Women in Science, UIS Fact Sheet, no. 34, November 2015]. Even though Latin America has a high percentage of female researchers, they are rarely present in the upperstrata of research. For example, while in Brazil 49 percent of researchers are female, only 27 percent of women lead research groups [Brazilian National Council for Scientific and Technological Development, CNPq, database, 2012].

Ceci and Williams reported in 2011 [3] that, while in Europe women accounted for 45 percent of Ph.D. graduates, they represented only 36 percent of associate professors and a mere 18 percent of full professors. Similarly, in the United States, excluding the humanities, 40 percent of new Ph.D. were women, but they were only 34 percent associate professors and only 19 percent of full professors. In terms of decision making, on average, in 2010 only 15.5% of institutions in the higher education sector were headed by women throughout the European Union, and just 10% of universities had a female rector [Gender in Research and Innovation. Statistics and Indicators. European Commission, Brussels].

Gender equality and technological excellence

A more inclusive workforce is assumed to be more innovative and productive than one which is less so [3]. Having scientists and engineers with diverse backgrounds, interests, and cultures-and male and female-assures better scientific and technological results and the best use of those results. Gender equality is a means to promote scientific and technological excellence rather than just improving opportunities for women. Women who might be interested in STEM but decide not to follow studies in these fields or who decide to change careers because of obstacles, real or perceived, represent a major lost opportunity not only for their own careers but also for society as a whole. Hindering women’s scientific careers deprive societies of human resources, which is detrimental to competitiveness and development [1]. The root causes of gender disparities in STEM must be established through research, which would allow to develop appropriate policy responses. In developing countries, the impor tance of this issue is being more and more recognized. How-ever, most of the literature related to gender inequalities in STEM and the policies designed to amend them refer to the United States and Europe. [1]

The role of the Academia Europaea

While women academic roles in the 21st century have much advanced, persistent inequities beg for new solutions. And it is in this context that institutions such as the Academia Europaea can provide representative, authoritative and independent perspectives to take on these and other social challenges. One of the main objectives of the Academia Europaea, an international, non-governmental and not-for-profit association of scientists and scholars from all disciplines, is to propose appropriate action to ensure that topics of trans-European importance to science and scholarship are adequately addressed. Thus, the Academia Europaea endeav ours to encourage achievement of the highest possible standards in scholarship, research and education. But to do so, it must promote gender equality and facilitate connectiv ity and networking among all Members of the Academia. One of the activities in 2014 was the invitation to the coauth or of this article, in his quality of the Academic Director of the AE-BKH, to give the inaugural lecture in the International Seminar "Education and Empowerment of Women", held at
the Autonomous University of Madrid (UAM), at Cantoblanco, Madrid, on September 17-19. The Seminar was organized by the UAM, with the collaboration of the Iranian Embassy in Madrid and the Barcelona Knowledge Hub of the Academia Europaea. Social improvements in women’s rights have still to alter the nature and structure of institutions at the highest academic level. This, however, should not prevent the Academia Europaea from seeking the full participation of the women’s college-age population, who embody an as yet untapped source of talent for meeting the needs of society, today and in the coming years. To this end, the Academia Europaea must work with governmental institutions and with professional and learned societies to support higher education of women, by fearlessly embracing radical shifts in organizational paradigms. Gender equality must be pursued at all levels of education, including the highest, where the challenges are often the most daunting. The systematic incorporation of gender awareness into the fabric of institutional, departmental, and programmatic efforts is crucial. It is a great challenge for the Academia Europaea and for other high-level educational stakeholders in the continent.

Annex 4

ANNUAL REPORT 2017

ACADEMIA EUROPAA KNOWLEDGE HUB REGION BERGEN (AEkhRB)

The Academia Europaea Knowledge Hub Region Bergen is the regional hub for the academy in Northern Europa and will also provide the national academies of science and letters in Norway with a European partner in Bergen. The focus of Academia Europaea’s Hub in Bergen will be resources and expertise relating to the The Nordic region, polar issues, the northern seas – Europe’s northern dimension, sustainability and energy.

Professor Jan S. Vaagen of the Department of Physics and Technology at the University of Bergen has served as the Academic Director of Knowledge Hub Region Bergen since the Collaboration Agreement was signed on May 30th, 2014. Academia Europaea Member, Professor Laszlo P. Csernai at the University of Bergen, has served as Hub Manager since it was established in 2014.

In the BHAG meeting of 10.11.17 Rector Dag Rune Olsen of UiB presented the reorganization and new structure of Academia Europaea Knowledge Hub Region Bergen (AEkhRB), and Professor Eystein Jansen was appointed as Academic Director by UiB, with reference to the contract between UiB and AE concerning the AE Hub. It was also announced that the premises of the AEkhRB would be located at the Division of Research Management at UiB.

www.acdeuro.w.uib.no
AEkhRB meetings in 2017:

June 18, 2017, Bergen:
Regional Members Meeting and the event: *Consensus; “Harvesting the Ocean.”* A programme of public talks and an open debate on the theme of “*Food from the Oceans*” also took place.

As a public engagement activity for “*Food from the Oceans*,” and to mark UNESCO Sustainable Gastronomy Day as well as Bergen’s status as a UNESCO Creative City of Gastronomy, a series of stalls offering food samples were offered to the public. The event attracted around 2000 visitors and was featured on the main news of TV2.

September 1-3, 2017, Bergen:
Norwegian Minister for Fisheries opened the festival “*Mat fra havet på Matfestivalen*”. AE Bergen Hub participated in the exhibition and talks.

September 3-8, 2017, Budapest:
Participation at the AE Council Meeting and the AE Annual Business Meeting of Members. Including welcome of new 2016 AE members and presentation of 2017 Bergen scholars. Venue: Hungarian Academy of Sciences. There were a total of 21 new Nordic memberships in 2017; Denmark: 3 new members, Norway: 7 new members and Sweden: 11 new members.

October 19, 2017, Bergen:
The University of Bergen (UiB) and the Academia Europaea Knowledge Hub Region Bergen (AEkhRB), in cooperation with the Annual Meeting for the Norske Havforskers Forening, hosted the Buckland Lecture in 2017. The lecture was held by Buckland Professor for 2017, Professor Emeritus Paul Hart, University of Leicester.

The lecture title was "*Stewards of the Sea. Returning powers to fishers*" and held by Buckland Professor 2017, Professor Emeritus Paul JB Hart, from the University of Leicester, England.

The lecture examined the factors that have distanced the fishers from the fisheries management process. It was discussed ways in which fishers are being brought back into the process of managing their stocks sustainability and contributing towards marine conservation. Professor Hart argued that fishers must be empowered to take the lead in the management system.

December 6-7, 2016, Bergen:
NorSAC; Atom Smashers and Cancer Therapy Tools, Northern Contributions-Past-Present-Future.
AEkhHB activities in 2017:

Food from the Oceans (FFO) project, on behalf of Academia Europaea:

Exhibitions, expert panels, public talks, education. SAPEA 2017, AE Cardiff Hub.

The FFO project is the result of a request from the European Commissioner for Maritim Affairs and Fisheries, Karmenu Vella, within the context of the Scientific Advice Mechanism (SAM). The question posed was: “How can more food and biomass be obtained from the oceans, in a way that does not deprive future generations of their benefits?”

Two international working groups were set up of experts in the field, one in the natural sciences and the other in the social sciences/humanities. Professor Dag Aksnes, from the University of Bergen, was the leader in the group in natural sciences, and Professor Carl Matthias Kaiser was a part of the group in the social sciences/humanities.

- **Radiation Therapy:**
  Conferences, publications, Research and spin-offs.

**Report on the 2017 AE activity "Energy and Sustainable Development".**

This activity started in 2007 by the assistance of the AE Secretariat in London, based on the interested MAE-s.

Since 2014 it has been a supporting activity of the Academia Europaea Bergen Knowledge Hub.

Its last one-year activity was reported to the AE Annual General Meeting in Budapest in September 2017:

https://acadeuro.w.uib.no/activities/meetings/

**February 27, 2018:**
Science, Energy and Sustainability-2018 (The role of Water) Keynote Talk at the 25th International Energy and Innovation Forum (NEIF) By Laszlo Csernai, Aqua World Resort Hotel, Budapest; organized by the SUNWO Zrt.,

**January 2018:**
Executive summary: Simultaneous use of black, green and white certificates systems by Eirik S. Amundsen and Torstein Bye.
January 10, 2018:
"Historic German church demolished to make way for brown coal mine"; to provide balance power for intermittent renewable energy production (The Local .de).

October 13, 2017:
We need to have a global perspective when discussing the future of the Norwegian petroleum industry – Article in Bergens Tidende (Lett for oss å vifte med pekefingeren), by Susanne Sperrevik, Geologist, BD and Exploration Director in the company M Vest Energy A S.

October 3, 2017:
Full electrification is dead-end – Article in Bergens Tidende, by Rolf K. Eckhoff MAE, Alex C. Hoffmann MAE, Laszlo Csernai, MAE, Jan S. Vaagen MAE.

September 11, 2017:
Exaggerated climate gains - Article in Bergens Tidende, Full electrification of Norway with hydroelectric power Energy will not give any global «Environmental gain» by Rolf K. Eckhoff MAE, Alex C. Hoffmann MAE, Laszlo Csernai, MAE, Jan S. Vaagen MAE.

August 17-29, 2017:
ICNFP-2017 –The 6th International Conference on New Frontiers in Physics, in OAC, Kolymbari, Crete, annual interdisciplinary meeting, with more than 400 registered participants, co-organized by the Academia Europaea - Bergen.

June 26, 2017:

June 19, 2017:
Launch of the EASAC policy report on “Valuing Dedicated Storage in Electricity Grids”, from 12:00 PM –2:30 PM, Palace of the Academies, Rue Ducale 1, Brussels.

August 17-29, 2017:
ICNFP-2017, 12-day conference with very large participation, and a self-supporting budget of nearly 500 000 NOK administered by us. This was the sixth conference of this series, which was supported by our activity from the beginning.

The following refereed scientific publications were posted on the web pages of this activity with the permission of its members:

[e15] Decay mechanism and lifetime of 67Kr (Kr isotopes are produced by the nuclear fission of uranium and plutonium in nuclear reactors, etc), L.V. Grigorenko, T.A. Golubkova, J.S. Vaagen, and M.V. Zhukov, Phys. Rev. C 95, 021601(R) (2017).

Founded in 1988, Academia Europaea is a non-governmental association, acting as a pan-European academy. Our members are leading scientists and scholars who collectively promote research, learning and education. We now number around 4,000 members, including more than 70 Nobel laureates.

Academia Europaea operates through a network of regional knowledge hubs in Barcelona, Wroclaw, Cardiff and Bergen.
Annex 5

ANNUAL REPORT

2017

PROMOTING RESEARCH EXCELLENCE FOR POLICY AND PROGRESS
Welcome to our Annual Report 2017, highlighting our latest achievements in meeting the priorities set out in our Strategic Plan 2016-2019.

Founded in 1988, Academia Europaea is a non-governmental association, acting as a pan-European Academy. Our members are leading scientists and scholars who collectively promote research, learning and education. Our membership now numbers approaching 4000, including 75 Nobel laureates.

Academia Europaea operates through a network of regional knowledge hubs in Barcelona, Wroclaw and Bergen. Our own hub, hosted at Cardiff University, joined as the fourth in 2016. Cardiff’s world-leading research was ranked fifth for quality amongst UK universities in the last UK Research Excellence Framework and second for impact.

In 2017, the Hub set itself three major objectives for the second year of operation. Firstly, to meet our commitments in the SAPEA (Science Advice for Policy by European Academies) project, funded under Horizon 2020 and supporting policymaking in Europe. Secondly, to run a successful programme of Hub events. Thirdly, to continue to raise our profile, both regionally and internationally.

Sound progress was made in all of these areas, as we describe in this Report. In particular, I draw attention to the lead coordination role played by the Cardiff Hub in the Food from the Oceans project, the first evidence review report delivered by the SAPEA Consortium under the European Scientific Advice Mechanism. After extremely hard work by all staff members of the Hub, the year came to a very successful end, with the handover of the Food from the Oceans Evidence Review Report to the European Commission in Brussels on 29th November.

I would like to thank Sir John Skehel for his very active engagement as Chair of the Hub Steering Group. My thanks also to Professor Nora de Leeuw, Pro Vice-Chancellor (International and Europe), Cardiff University, for her great support.

Professor Ole H. Petersen

Highlights in 2017
Coordination of the *Food from the Oceans* evidence review for the European Commission, with handover of the Evidence Review Report to the Commission in November

A vital role for the Cardiff Hub in the SAPEA (Science Advice for Policy by European Academies) project, funded by the Horizon 2020 programme

*Meeting of the European Commission with representatives from SAPEA and Members of the High Level Group of Scientific Advisers, January. Commissioner Moedas (second front-left), Sir Paul Nurse MAE FRS (second front-right), Robert-Jan Smits (back-left), Professor Ole Petersen (second row, second-right)*

Reaching a mass audience through public engagement events in Norway, Wales and Germany, June-September

*Panellists at the Hamburg Academy, October [l-r] Prof Edwin Kreuzer, Angela Grosse, Prof Marian Paschke, Dr Gesche Krause, Prof Gerd Krause, Prof Ole Petersen, Prof Rolf-Dieter Heuer (Chair, High-Level Group of Scientific Advisers)*
Achievements in 2017

Our achievements are set out in the context of the five priorities in the Strategic Plan 2016-2019.

Priority 1: Establish a major role in supporting policymaking in Europe

A new project, SAPEA (Science Advice for Policy by European Academies), kicked off in November 2016. Funded under the Horizon 2020 programme, the Cardiff Hub plays a major role in delivering work in the project, on behalf of Academia Europaea. The Hub undertook the coordination of the Food from the Oceans evidence review, the result of a request from the European Commissioner for Maritime Affairs and Fisheries, Karmenu Vella. It addressed the key question of how more food and biomass can be obtained from the oceans in a way that does not deprive future generations of their benefits.

The Food from the Oceans Evidence Review Report was delivered on-time and to-budget and was the first in the series to be published by SAPEA.

Cardiff University Library, recognised widely for its expertise in the systematic review method, conducted the literature search. Working with communications professionals at SAPEA, we ran successful public engagement events on the theme of Food from the Oceans in the cities of Bergen, Cardiff and Hamburg. We also promoted our work at an event organised by Cardiff University’s Sustainable Places Research Institute to mark World Oceans Day on 8th June.

In another area of the SAPEA project, Professor Petersen served on an expert working group to establish procedures for assuring the quality of scientific advice. The group’s output, Guidelines on Advising Policymakers and Society & Procedures for Quality Assurance of Scientific Advice, was delivered in July and subsequently published on the SAPEA website.
Priority 2: Showcase outstanding regional research

Since the professional re-design and launch of the Cardiff Hub website in October 2016, we have published a continuous flow of news items and more in-depth articles, for example, reports on our events and SAPEA-related work.

We also launched an interview series with regional Academia Europaea members, providing insight into their research career and achievements. The first of these was with Professor Petersen.

All these new editorial approaches have been effective in driving up traffic to the Hub website. Between January and December 2017, there was an increase of 57% of online visits, compared to January-December 2016.

To facilitate our work in the SAPEA project, we undertook a major data-gathering exercise to update the expertise database of Academia Europaea. Around 800 AE members and YAE (Young Academy) members have responded to date, making it easier for us to identify experts in specific research fields. Of note, Academia Europaea and the Young Academy of Europe have both been particularly successful in having members appointed to SAPEA international working groups.

Priority 3: Engage with our membership

We have continued with our successful programme of lunchtimes debates on key aspects of science and research. The events are free and open to all, attracting a wide audience from the academic, public and corporate sectors. These events also gained traction on Twitter, regularly featuring in our monthly ‘Top Tweet’.
Four debates were held in 2017:
- Open Science, 17th February
- Research Evaluation, 5th April
- Interdisciplinary Research, 9th June
- International Research Networks, 28th November

Our panel on interdisciplinary research ([l-r] Prof Petersen, Dr Stephen Hill, Dr Ian Viney, Prof Nicky Priaulx, Prof Nick Pidgeon, Prof Cathy Holt (not pictured))

Priority 4:
Engage with wider stakeholders

Our quarterly newsletter has a circulation of nearly 5,000, including not only the membership of Academia Europaea but also senior staff at Cardiff University, the Welsh Government and the Learned Society of Wales. Participants in Hub events has included academic colleagues at universities in the region, for example, Cardiff Metropolitan, the University of South Wales and the GW4 universities at Bristol, Exeter and Bath. Small business owners and other corporate representatives have also been involved. Our performance in social media activity has been particularly strong, where we have used Twitter to reach out to a wider audience.

The Cardiff Hub supported an international symposium, Neuroplasticity and Synaptic Function in Neuropsychiatric Disorders, held at Cardiff University on 27th-28th April.

Hub staff have also been speakers at external events. On 8th May, the Royal Institution held a summit for scientists, policymakers and other key stakeholders to consider the impact of the Brexit vote on science and innovation. The event, Brexit: the scientific impact, was jointly supported by Academia Europaea, EuroScience and the Royal Institution. Academia Europaea was represented by Professor Ole Petersen, in his capacity as Vice-President.

On 21st June, Hub Manager Louise Edwards spoke on the role played by Wales in the new European Scientific Advisory Mechanism, at a workshop held by the Sêr Cymru National Research Network for Low Carbon, Energy and Environment.
A highly innovative aspect of the SAPEA work has been public engagement activities for *Food from the Oceans*. These events provided the perfect opportunity for the *Academia Europaea* Hubs at Bergen and Cardiff to collaborate. The first, held in Bergen on 18th June, marked UNESCO Sustainable Gastronomy Day and Bergen’s status as a UNESCO Creative City of Gastronomy. A series of colourful stalls offering food samples attracted around 2,000 visitors and featured on the main news of TV2, Norway’s principal commercial channel, attracting up to 1 million viewers. A programme of public talks and an open debate on the theme of Food from the Ocean also took place.

The second event saw around 80,000 people come to Cardiff Bay over three days, 14th to 16th July, to enjoy the annual Cardiff International Food and Drink Festival. Food from the Oceans was the theme of a programme of events hosted at the Norwegian Church. This open and free programme of events was the result of collaboration between the Cardiff and Bergen Hubs, together with SAPEA (Science Advice for Policy by European Academies). We also worked closely with other partners, including the SAM (Science Advice Mechanism) Unit, the Learned Society of Wales, the Hordaland County in Norway and Cardiff University. Especially popular was the ‘Food from the Oceans’ stall, serving a variety of seafood from Norway and informing the public about SAPEA and the Food from the Oceans topic.

The highlight of a full programme of public talks on the theme of Food from the Oceans was a reception to mark the twenty-fifth anniversary of the restoration of the Norwegian Church in Cardiff Bay, July 2017.
Bay, supported financially by the Royal Norwegian Embassy and hosted in partnership with the Welsh Norwegian Society.

In co-operation with SAPEA and the Union of German Science Academies, a third public event, a debate on how to extract more food from the oceans in a sustainable manner, took place at the Hamburg Academy in the city of Hamburg, Germany on 5th October. SAPEA was represented by Professor Ole Petersen. Dr Gesche Krause spoke as a member of the SAPEA international working group and Professor Rolf-Dieter Heuer represented the European Commission’s High-Level Group of Scientific Advisers.

Senior staff of the Academia Europaea Hubs played an active role at SAPEA workshops designed to strengthen relationships between European academies, held in Madrid and Bucharest. Professor Petersen represented SAPEA at the Bucharest meeting and took part in a panel that discussed the role of academies in providing scientific advice. Louise Edwards and Esther Dorado-Ladera of the Cardiff Hub facilitated some of the sessions at both events.

On 12th October, a largescale international conference in Tallinn, Estonia, focused on the impact and value of European research. The event was organised as part of the Estonian Presidency of the European Council, with Professor Sierd Cloetingh (AE President) and Louise Edwards (Cardiff Hub Manager) acting in advisory and editorial roles as members of the Steering Group.
Prime Minister of Estonia, Jüri Ratas, addresses the conference

Louise Edwards also played a pivotal role in shaping the programme for the SAPEA symposium, Crossing Boundaries, which was held the following day, and authored the published report (available on the SAPEA website).

Panel discussion on public engagement at the Crossing Boundaries symposium

In November, we were delighted to welcome Academia Europaea President, Professor Sierd Cloetingh and Sir John Skehel, Chair of our Steering Group, to the Cardiff Hub. In addition to meeting with the Vice-Chancellor of Cardiff University, Professor Cloetingh also spoke at the Hub networking event and panel debate, International Networks (see above).

Priority 5: Ensure future sustainability

In addition to the core operational funding provided by Cardiff University, the Hub was boosted by Horizon 2020 funding for the SAPEA project, which enabled us to employ an extra member of staff from September. We welcomed Dr Esther Dorado-Ladera to the team as Executive Officer (Projects).
Governance

The Cardiff Hub Steering Group held its second meeting on 19th October. The following distinguished scientists and scholars serve on the Group:

- **Yves Barde MAE FRS**
- **Nora de Leeuw FLSW MAE**
- **Dianne Edwards CBE FLSW FRS MAE**
- **Theo D’Haen MAE**
- **Donald Dingwell MAE**
- **Stephen Holgate CBE FMedSci MAE**
- **Colin Riordan FLSW**
- **Irene Schulz-Hofer ML MAE**
- **Sir John Skehel FRS FMedSci MAE** (Chair)
- **John Tucker FLSW MAE**

Resources

Staffing

- **Academic Director**
  - **Professor Ole Petersen**

- **Knowledge Hub Manager**
  - **Louise Edwards**

- **Executive Officer**
  - **Judith Lockett**

  - **Executive Officer**
    - **Esther Dorado-Ladera**

Finance

Cardiff University covered the salary costs of one FTE member of staff and one half-time member of staff, in addition to providing £10,000 for operating costs in the financial year 2017-18. The SAPEA project has also been a significant source of funding.

ACADEMIA EUROPAEA
WROCŁAW KNOWLEDGE HUB
ACTIVITIES REPORT FOR 2017

Signing the official Framework Agreement for Continuation of Academia Europaea Knowledge Hub in Wrocław

On the 7th of March, 2017 the President of Academia Europaea, Professor Sierd Cloetingh, and the Mayor of Wrocław, Rafał Dutkiewicz signed the official Framework Agreement for Continuation of Academia Europaea Knowledge Hub in Wrocław. This agreement prolongs the activity of the Wrocław Hub for next two years, i.e. 2017-2018, allowing for the implementation and realization of numerous projects.

The meeting took place at the premises of Academia Europaea Wrocław Knowledge Hub at Rynek 13, hosting many delegates from local academic institutions. The list of guests included representatives of AE: Prof. Sierd Cloetingh (the President of AE), Dr David Coates (Executive Secretary of AE), representatives of the Hub: Prof. Tadeusz Luty (Academic Director of the Hub) and Katarzyna Majkowska (Hub Officer) and representatives of local institutions: University of Wrocław, Wrocław University of Science and Technology, Wrocław Medical University, Eugeniusz Geppert Academy of Art and Design in Wrocław, Wrocław Academic Hub, Academy of Young Artists and Scholars. The meeting included presentations of the undertakings of AE Wrocław Hub, projects and plans of partner institutions, and main presentation of Prof. Cloetingh, presenting the cooperation between AE and SAPEA.

The first seminar in the second series of “The Wrocław Seminars” – New Nationalisms: Sources, Agendas, Languages, 25-27 September 2017

The Seminar New Nationalisms: Sources, Agendas, Languages took place between 25-27 September 2017 in Wrocław, Poland. The academic programme of the seminar was developed by dr. Dorota Kołodziejczyk (University of Wrocław), Prof. Siegfried Huigen (University of Wrocław), and Prof. Hana Cervinkova (Lower Silesian University, the Czech Academy of Sciences). Seven keynote speakers and 19 junior scholars attended the seminar. The event was coordinated by Pieter Emmer (Leiden) and Siegfried Huigen (Wrocław) together with the Organising Committee consisting of Prof. Uwe Backes (Hannah Arendt Institute, TU Dresden), Prof. Hana Cervinkova (University of Lower Silesia), Prof. Przemysław Czapliński (University of Poznań), Dr. Dorota Kołodziejczyk (University of Wrocław), Katarzyna Majkowska (AE Wrocław Knowledge Hub Officer) and Prof. Bogdan Stefanescu (University of Bucharest). Streaming of the conference was provided and is still available online (http://ae.marttinii.pl/).
The three-day seminar focused on the rise of populist nationalisms in Central Europe. It comprised several disciplinary perspectives:

1. **The historical perspective** sought to answer questions about how the new nationalisms build on the past, for instance:
   - How do they use the past to build a new model of national identity as part of a strictly defined and exclusionary ethnos?
   - How do they formulate the concept of a historically rooted national subject?
   - Which historical narratives do they turn into (new) national myths?
   - Which historiographic models and historical research can be deployed to challenge the appropriation of history by nationalist politics?

2. **The social sciences perspective** sought to tackle the issue of contexts and reasons for the rise of nationalisms within Europe, with questions discussed including:
   - The division into the EU “integrative project” and its opponent, “national loyalties” may inadvertently empower ethnic/exclusionary nationalism as the only viable politics for fostering national identities;
   - How does mass migration influence the sense of identity, locatedness, and belonging? How does it happen that migrants are often lured into nationalist sentiments?
   - How do contemporary mediascapes, including social media, influence identity formations and give individuals a sense of political agency?
   - In what sense is postcommunist nostalgia a factor in attracting supporters of nationalist sentiment?
   - In what sense does the current turn to nationalism look like a haunted revolution? What prior appeals to the will of the sovereign as supreme political agency does it echo?
   - In majoritarian discourse – the one that claims legitimacy on the basis of representing the majority – national identity may turn into what Arjun Appadurai calls “predatory identities”. What are the mechanisms that trigger this transformation?
   - How does nationalist discourse react to the emergence of new nations, and how are national identities constructed beyond the reach of nationalism?
The linguistic perspective invited a reflection on the formation, alliances and porousness of discourses, an investigation of imaginaries and conceptualizations of belonging in culture, the affect in language and politics, the language of dichotomous divisions vs. the language of linking and inclusion. The questions to cover were, among others:

- How and in what circumstances are the languages of emergency, nationalist discourse being one of them, constructed and deployed?
- How are the enemies created (named) and contained? How does it happen that in nationalist discourse the excluded margins are becoming ever broader?
- How is the stereotyping language of nationalist othering neutralized into seemingly acceptable euphemisms (e.g. refugee becomes migrant; xenophobia becomes “modern patriotism”)?

Presentations included a wide spectrum of case studies and theoretical discussions, ranging from topics in new media nationalist or counter-nationalist activism, civic- or nation-building aspects of historical manuals for schools, attitude surveys about minorities and/or immigrants done on the groups of youth, consequences of migration for shaping xenophobic or, to the contrary, open attitudes the and affective aspects of nationalist mobilisation, especially in the context of refugee crisis in Europe and the refusal of some states to receive relocated refugees, populist politics and the new media information control, various aspects of nationalist rhetoric (reliance on and production of symbols, tradition, history and memory), various forms and ideologies of new nationalisms and their historical backgrounds (and their uses of history and memory), civic education projects as viable ways to curb and block the development of nationalist ideologies, and other forms of political and cultural alternatives to populisms.

The seminar has been assessed highly by the participants who additionally opted for developing the programme of meetings to a steady annual format. The European Review, Cambridge University Press, has already expressed interest in publishing a selection of articles.

**Event process and outcome**

The work on the forms of participation began in December 2016. The seminar’s Organising Committee decided to keep two categories of participants: invited keynote speakers and early career scholars selected in the Call for Papers process.
The Call for Papers was prepared and published both on the Seminar’s website and on the official website of the Academia Europaea. Registration was available both via online form and as a submission via e-mail. In addition, the CFP was sent to more than a dozen European universities. In order to participate in the seminar, candidates had to submit a completed application form, a short abstract of their paper, and a CV with a list of publications. After receiving 40 applications, the Committee decided on inviting 21 young scholars to participate in the seminar. It was obligatory for the participants to send a fragment (or the draft version) and the title of their papers until August 15, 2017, so that the other seminar participants could read them before the beginning of the conference.

The participants were informed about conditions of participation in the event (accommodation and meals provided by the organisers, reimbursement of travel expenses up to the maximum of 100 EUR for Western Europe and 150 EUR for Central and Eastern Europe) and required materials (e.g. a pre-paper containing 4,000-6,000 words).
Air-tickets and travel reimbursement

Only senior scholars were entitled to receive the full reimbursement of air transport costs to/from Wroclaw. The procedure of ticket purchase by the organisers included several stages. Lecturers were contacted by email to agree on the exact itinerary and time of travel. Three plane tickets have been purchased, and costs of one car travel and one domestic train ticket have been refunded via expenses claim form. As was stated in the Call for Papers, there was a budget for travel costs reimbursement: up to 100 EUR for connections from Western Europe and up to 150 EUR from Eastern and Central Europe, due to fewer cheap airlines offers in the region. Participants received expenses claim forms for the reimbursement of travel costs on the spot, together with conference materials.

Accommodation

All participants were provided with accommodation at the PURO Hotel. One person reported resignation too late to apply for the procedure of cost-free cancellation. According to the decisions made by the Organising Committee, organisers covered accommodation for up to four hotel nights. In the light of the above, senior scholars’ hotel was covered by the grant funds. The young scholars’ stays were covered with the support of the Municipality of Wroclaw funds donated for the events organised by the Academia Europaea Wroclaw Knowledge Hub.

Catering

The seminar organisers worked on the preparation of a complex order of catering services for all participants. During the event, coffee breaks were served by the Art Hotel where the conference took place. The coffee breaks were available throughout the three days of the event. Three evening meetings took place during the seminar. The first dinner for the speakers and organisers of the seminar was held at the La Maddalena Restaurant. The second meeting, a welcome dinner for all participants took place in the Malarska 25 Restaurant on 25th September 2017. During the last evening of the conference, the Farewell Dinner was served to all participants, which was the official ending of the event. It took place at the Art Hotel Restaurant on 27th September 2017.

Branding and website

For the needs of the event, different types of conference materials have been produced: a new batch of tote bags, paper folders and notepads with the logotype of Wroclaw Seminars (stock sufficient for 2 years), lanyards with the logotype of the event, posters of the event, booklets with biographical notes and abstracts, seminar programme, and name badges. For the needs of the local promotion of the event, a poster of the seminar has been designed and printed. 50 conference packages have been prepared and handed to the participants and guests at the registration desk before the event. The roll-up of the conference was placed at the main spot of the conference room. The whole event was video-recorded, the live-streaming was provided throughout the whole duration of the seminar and it was available on the website of the seminar. After the event, all participants received a pen drive with the record of the whole seminar by post. The photos from the event are all available on the separate website: http://ae.marttinii.pl/. All the conference materials (online and printed) have been proofread by a professional translator.

To enhance the efficient management of the event and future editions of Wroclaw Seminars the website http://www.acadeuro.Wrocław.pl/ has been updated. The website CMS, built from scratch in 2016, allows to manage the content in an easier and faster way. Thanks to constant upgrade and update of the website information, the visual representation of the event definitely increased visibility of the event. The website (www.acadeuro.Wrocław.pl) is an extremely useful tool, as it contains not only details concerned with the seminar (Call for papers, Organisers, Organising Committee, Keynote Speakers, Participants photos, biographical notes, abstracts, pre-papers), Programme and Registration, but also the Gallery and Livestreaming. The second part of the website is devoted to the upcoming, current, and past activities of the Academia Europaea office in Wroclaw.
Seminar results and future plans

AE Knowledge Hub Wrocław, noting a very positive response from all participants of the Relocating Central Europe seminar series in its so-far four editions, has decided to develop it into an annual event. The Wrocław Seminars are likely to become a model for top-quality academic research in the humanities, launching and coordinating productive academic communication and research collaboration between regions and disciplines. Publications from the seminars so far have been accepted by recognized academic publishers and journals. Our plans for further seminars include explorations in digital humanities, environmental issues, new mobilities, disability discourses and social inclusivity, and other topics of global urgency and local implications. In the time of shrinking resources for the humanities the success of our research initiative is of special importance – it contributes to safeguarding the development of European humanities.

39th MAX BORN SYMPOSIUM and 5th International Symposium “Optics and Its Applications” (Optics-2017)

The 39th Max Born Symposium took place in Wrocław took place between 3-7 July 2017 and was simultaneously the 5th International Symposium in the series on “Optics and its Applications” (OPTICS-2017).

The Symposium was jointly organized by the University of Wrocław, the Wrocław University of Technology, the Russian-Armenian University (Yerevan, Armenia), the OSA & SPIE Wrocław Univ. of Technology student chapters, and the Russian-Armenian University and National Academy of Sciences SPIE student chapter (Armenia). The following SPIE student chapters were also involved in the organization: Yerevan State Univ. student chapter (Armenia), Univ. of Trento Chapter (Italy), and BMSTU chapter (Russia).

Here OSA stands for The Optical Society founded in 1916 as Optical Society of America and SPIE is the abbreviation for the International Society for Optics and Photonics.

OPTICS-2017 was attended by 62 scientists and students representing 13 countries: Armenia (8), Australia (2), Czech Republic (1), France (2), Germany (6), Hungary (2), Italy (3), Mexico (1), Poland (25), Russia (3), Ukraine (7), UK (1), and USA (1).

The Symposium was supported by the University of Wrocław, The Academia Europaea, SPIE, and Springer.

The program of the symposium included not only scientific presentations but also a career development lecture, presentations of the above societies, and public lectures. Each day of the symposium took place at a different scientific organization: University of Wrocław, the Wrocław University of Technology, and the Institute of Low Temperature and Structure Research of Polish Academy of Sciences. This gave the participants the opportunity within the few days of the symposium to acquaint themselves with the main centres of scientific research in Wrocław and to visit their laboratories.

Different aspects of the broad spectrum of the present status of “Optics and its Applications” were presented in invited lectures, contributed talks and posters. During the symposium two public lectures were held, which were presented by the SPIE Visiting Lecturers Sir Michael Berry (“Optica fantastica: images to illuminate the physics of light”), and Walter Dittrich (“The life and work of prominent physicists at Breslau University until 1933”).

The CEO of SPIE, Eugene Arthurs, presented a lecture entitled “Opportunities in Photonics”. The outlook on “Quantum Technology: The New European Flagship Project Initiative” was presented by Juergen Mlynek, the former president of the Helmholtz Association of German Research Centres, laureate of the Leibnitz prize (1992) and the Max Born prize (1996).
The goal of the symposium, organised with support of the Hub, was to bring together both young and experienced scientists from various countries working on optics, and to provide a perfect setting for their discussions of the most recent developments in that area. The participants had an occasion to join excellent lecturers and to make personal contacts with worldwide known experts in the field of optics.

Thanks to the support by Academia Europaea three additional students from Eastern Europe could participate in the event: Andrii Barabashov (B.Verkin Institute for Low Temperature Physics and Engineering, Kharkiv, Ukraine), Anna Reymers (Russian-Armenian Uni., Yerevan, Armenia) and Andrii Shcherbakov (Taras Shevchenko National Uni. of Kiev, Kiev, Ukraine).

The Symposium perfectly served its main goal: to bring together experienced and young scientists alike from different countries working on optics and photonics, and to provide a perfect setting for their discussions about most recent developments and directions in that area as well as fostering their contacts thus developing and promoting the high Academic profile of Wroclaw as a University city with its historical as well as modern role in the field of Optics.

**Excellent Science Days 2.0, 23–25 October 2017**

Academia Europaea Knowledge Hub Wroclaw, Polish Academy of Science, Wroclaw Research Centre EIT+ and Wroclaw University of Science and Technology organized a 3-day workshop entitled Excellent Science Days 2.0.

The aim of the workshop was to facilitate good writing skills among researchers (useful in future scientific publications for universities and top level journals). The workshop gathered numerous representatives of the academic and journalist environments, during which the participants had an unique opportunity to collaborate with editors from the prestigious journal Nature: Liesbeth Venema and Bart Verberck, and took part in workshop onducted by representatives of the Excellent Science Office at the Polish Academy of Sciences: Ewa Kuśmierczyk and Marta Kowol, who specialise in the field of gaining ERC grants.

The workshop was set on the frame of 1,5-day meeting, organised at the premises of AE Hub, that gathered 15 participants from Eastern European countries (Poland – 8 people, Czech Republic – 2 people, Slovakia – 4 people, Bulgaria – 1 person). The workshop had a closed character and was conducted in English. The AE office organized a coffee break and lunches for all participants.

**44th Congress of Polish Physical Society (10-15 September 2017) in Wroclaw, Poland**

44th Congress of Polish Physical Society was an initiative of the Wroclaw Department of the Polish Physical Society and aimed for the integration and cooperation of the physical enviroment. The congress had a form of lectures and workshops, conducted by worldwide known physics, including laureats of Nobel Prize. The program of the Congress was dedicated not only to scientists, but the organizators prepared various attractions for high school students and children.

Academia Europaea Wroclaw Knowledge Hub contributed to the congress by supporting the participation of several speakers, for example Prof. Šuji Nakamura, Prof. Gerard t’ Hooft, Charles H. Bennett, MAE: Prof. Theodor W. Hänsch (photo below) and Prof. Anton Zeilinger.
Seminar on Philosophy and Topology, Wrocław Academic Hub, 1 June 2018

Academia Europaea Wrocław Knowledge Hub in cooperation with the Academy of Young Scholars and Artists is working on coorganisation of a Seminar entitled Philosophy and Topology. The seminar is directed to mathematics and physicists who are interested in the intensification of interdisciplinary research. The culmination of the meeting will be a debate at 18:00, entitled *What does philosophy have in common with mathematics and physics?*

Invited guests:
Jan Woźniak (Jagiellonian University, Poland), Marek Kuś (Center of Theoretical Physics of Polish Academy of Science), Hannes Leitgeb (University of Munich, Germany), Peter Simons (Trinity College, Dublin, Ireland), Kevin Mulligan (Université de Genève, Switzerland), Thomas Mormann (University of the Basque Country, Spain), Bartłomiej Skowron (AMUiA, Warsaw University of Technology, Poland), Przemysław Swatek (AMUiA, PAS, Poland), Mateusz Kwaśnicki (AMUiA, Poland) The Wrocław Seminars

The Academia Europaea Wrocław Knowledge Hub will support the event by organising travel and accommodation of several speakers, who are also Academia Europaea Members.

Symposium on Mathematics and Philosophy, 7th December 2017

On 7th December 2017 Academia Europaea Wrocław Knowledge Hub in cooperation with the University of Wrocław and International Center of Formal Ontology organised the symposium entitled Formal Logic and Common Sense devoted to the book by Andrzei Kisielewicz Logic and argumentation. Practical critical thinking course.

The opinion concerning the content of the book was presented by Prof. Ludomir Newelski, Prof. Marek Magdziak, Dr. Bartłomiej Skowron, Prof. Krzysztof Szlachcic and Dr. Marek Krajewski. The Symposium was inaugurated by the authors’ speech about the books’ idea and genesis.

Around 50 people took part in the Symposium. The publisher, Polskie Wydawnictwo Naukowe, presented and sold copies of the book. The recordings from the discussion are to be uploaded on YouTube on the channel of International Center of Formal Ontology. The lecturers and participants of the Symposium were encouraged to submit comments to professor Kisielewicz’s book. The comments will be published in Studia Philosophica Wratislaviensia magazine.
3rd Germanist Congress in Wroclaw, 30 November–2 December 2017

On 30 November–2 December 2017 Willy Brandt Center of German and European Studies, University of Wroclaw, Deutscher Akademischer Austauschdienst, in cooperation with Academia Europaea Wroclaw Knowledge Hub organized the 3rd Germanist Congress in Wroclaw.

The topic of the Congress was related to the history of the Lower Silesia region throughout centuries and the current situation of the German-speaking countries. The focus was put on the parliamentary elections in Germany and Austria, the tensions among the European Union countries, and the conflicts arising on the basis of migration, energetic and economic policy. There was also time for a debate focusing on the Polish-German relations after World War Two.

The event, supported by the Hub, was led by several speakers:

- Prof. Robert Grzeszczak (University of Warsaw)
- Agnieszka Łada (Institute of Public Affairs)
- Prof. Wojciech Kunicki (University of Wroclaw)
- Editor Andrzej Stach (journalist, Berlin)
- Prof. Włodzimierz Borodziej (University of Warsaw)
- Prof. Dieter Bingen (Deutsches Polen-Institut Darmstadt)
- Joanna Urbanek (House of European History, Brussels)
- Prof. Andrzej Gwóźdź (University of Silesia)
- Dr Ewa Fiuk (Jagiellonian University)
- Róża Domaścyna (poetry translator)
- Richard Pietraś (poetry translator)
- Leszek Szaruga (poet)
- Prof. Hubert Orłowski (Adam Mickiewicz University in Poznań)
- Roman Bąk (poet, translator, editor)
Summer School on Democracy: Integration vs. Disintegration? CEECs towards the European Union and its Challenges, 14–15 September 2017

Academia Europaea Wroclaw Knowledge Hub with Institute of Political Science (University of Wroclaw) once again jointly organized “Summer School on Democracy” in cooperation with Dr. Piotr Sula. Wroclaw Hub financed participation of Prof. Aleks Szczerbiak (University of Sussex). During the Summer School participants discussed the same subject of the general conference with different approaches – the consequences for the CEE countries of the multiple crisis the European Union is facing recently. Some of the subjects were related to Euroscepticism, disintegration of the EU and other challenges to democracy, new forms of government and digitalization of media. This problem is successfully carried out by Prof. Aleks Szczerbiak in numerous publications devoted to Poland and the theoretical framework defining the scope of analysis of contemporary Euroscepticism. His articles on this topic have been published in the most prestigious magazines in the field of social sciences such as Journal of Common Market Studies, Party Politics etc. He is an author of several books concerning European Union (e.g. Poland Within the European Union: New Awkward Partner or New Heart of Europe?). More information about the Summer School can be found under the link: http://summerschool.politologia.uni.wroc.pl/About/Summer-school-1. Prof. Szczerbiak’s flights and accommodation in Art Hotel were provided by the AE Hub.

Specialization seminar: Towards the Development of the Mediatization Research. The Workshop with Professor Göran Bolin (MAE) – 11 December 2017

On 11th December 2017, the Institute of Journalism and Social Communication, Academia Europaea Wroclaw Knowledge Hub organized a specialization seminar entitled “Towards the development of the Mediatization Research” conducted by Prof. Göran Bolin from Södertörn University. Prof. Bolin is an author of numerous publications in the field of Media Studies, member of the Committee Section of Film, Media and Visual Studies in Academia Europaea and Vice-President of Mediatization Section in Communication Research and Education Association. The workshop took place in Coworking space Fabryka Sensu.
The meeting had a workshop character, which was inaugurate with Prof. Bolins’ lecture. The main assignments were focused on the materials that were circulated previously. In the inspiring interiors’ of Fabryka Sensu, the participants of the seminar worked on their projects, prepared articles and discussed the plans for future researches. The workshop gathered researchers from local and abroad educational institutes. Georgi Savchev (a young researcher from Eastern Europe) was granted with reimbursement of travel and accommodation (Art Hotel) expenses form project funds. Other participants came to Wrocław from Great Britain, Latvia and Romania as well as from Poland.

Two types of presentations were conducted:
- completed works: empirical research results, theoretical discussions
- works in progress: working papers, ideas of proposals.

Professor Bolin’s flight costs, his accommodation at the Art Hotel as well as coffee break, lunch and dinner for all participants of the event on 11 December were covered by the Wrocław Hub.

**Workshop-seminar visit of Plovdiv University of Environmental and Life Sciences and Agricultural delegation – 13-14 December 2017**

On December 13-14, 2017, in cooperation with Wrocław University of Environmental and Life Sciences, Academia Europaea Wrocław Knowledge Hub hosted a delegation of scientists from the Agricultural University of Plovdiv (Bulgaria). The idea of a mutual meeting was initiated during the October workshops “Excellent Science Days 2.0”. Four academics - Assist. Prof. Rositsa Cholakova; Assist. Prof. Dobrinka Balabanova, PhD; Assist. Prof. Maryian Yanev, PhD; Field researcher, Nesho Neshev, PhD came to Wrocław as its especially important for Academia Europaea Knowledge Hub Wrocław to develop cooperation between scientific institutions in Central and East Europe, and to stress the primacy of establishing and strengthening inter-university contacts.

The visit enabled the employees of the University of Plovdiv to familiarize with the functioning of their faculties at the Wrocław University of Environmental and Life Sciences; as part of the visit, a working meeting was held with the authorities of the Faculty of Natural Sciences and Technology and representatives of fields such as: Plant Medicine, Horticulture, Agriculture. The visit was led by Dr. Bartosz Kozak, Dr. Renata Galek, Dr. Xymena Połomska and Dr. Krzysztof Kafarski.

As part of the organized visit, the flight and accommodation (Art Hotel) costs of four academic staff of the University of Plovdiv were covered. The delegation took part in lunch and dinner with representatives of the University, and had a short guided tour of Wrocław. All activities were organized and coordinated by Wrocław Knowledge Hub.
European Identity: An antidote to the crisis of the European Union? A lecture of Prof. Ireneusz Karolewski, 9 May 2017

A lecture by Prof. Ireneusz Karolewski was organised by the Hub in collaboration with the Willy Brandt Center (WBZ) for German and European Studies. The lecture gathered over 30 attendees and was presented in Polish.

Short outline of the lecture

The EU is facing a multitude of challenges, including the rise of Eurosceptic populism, a number of crises and centrifugal tendencies. Scholars have argued for some time that strong collective identity might be a solution for communities in deep crisis. The lecture took this as its point of departure and reflects on possibilities and limitations of the European identity. First, the lecture addressed the main issues of current research on European identity by focusing on the very concept of collective identity as well as on identity measurement. Second, drawing on nationalism research the lecture discussed main challenges to the “generating” of a supranational identity. Third, it explored specific identity “technologies” applied by the EU as well as their limitations. The lecture concluded with an assessment of how far and if at all a “nationalism-lite” of the EU can be successful.

Prof. Indekeu, Classical engines with ideal efficiency and nonzero power: is it possible? and About Einstein – 17 May 2017

Academia Europaea Wroclaw Knowledge Hub in cooperation with Wroclaw University of Science and Technology organized a lecture by Prof. Joseph Indekeu on Classical engines with ideal efficiency and nonzero power: is it possible? and another one, a very interesting lecture about Einstein, that gathered many students from the University of Science and Technology.

Short outline of the lecture

A classical engine with ideal efficiency (unity for a chemical engine and Carnot for a thermal one) has zero power because a reversible cycle lasts infinitely long. However, at least from a theoretical point of view, it is possible to conceive (irreversible) engines with nonzero power that can reach ideal efficiency. Our way to do this is by replacing the usual linear transport law by a sublinear one and taking the step-function limit for the particle current (chemical engine) or heat current (thermal engine) versus the applied force. We speculate on the physical motivation for a sublinear law and a step-function law in the context of criticality and first-order phase transitions, respectively. Quantum engines are also relevant in this context.

The lecture was a part of the 38th Max Born Symposium (Crossing Frontiers in Science: a physicist’s approach 38th Max Born Symposium in celebration of Andrzej Pękalski’s 80th birthday) which took place on 18-20 May 2017 in Wroclaw.

The lecture of Prof. Bonifacas Stundžia: Language culture and policy in Lithuania (Kalbos kultūra ir politika Lietuvoje) within the International Lithuania Congress – 22-24 May 2017
The International Lithuania Congress is a cyclical event combining academic panels, expert debates and cultural happenings. Its main aim is to bring together representatives of many disciplines (law, political science, international relations, European studies, sociology, linguistics, as well as, cultural and literary studies), who in their research examine Lithuanian issues in a broader geopolitical context. The organizers of the Congress were the University of Wroclaw, the “Labas” Lithuanian Studies Club and the Pobliza Foundation.

Academia Europaea Wroclaw Knowledge Hub contributed to the event by inviting Prof. Bonifacas Stundžia [http://www.ae-info.org/ae/Member/Stund%C5%8Eia_Bonifacas], who gave the opening Expert’s Lecture within the session entitled The Year of the Culture of Lithuanian Language: Kalbos kultūra ir politika Lietuvoje (Language, culture and policy in Lithuania).

The fourth edition, which took place from 22nd to 24th of May 2017, was devoted to the three symbolic topics constituting at the same time the general themes of this year’s Congress. Firstly, it is the Year of Culture of the Lithuanian Language, announced by the Lithuanian Seimas. Secondly, the year 2017 is also the 25th anniversary of the adoption of the Constitution of the Republic of Lithuania. Thirdly, it was important to stress the heritage of Algirdas J. Greimas (semiotician of Lithuanian descent, renowned literary scientist and linguist) on the 100th anniversary of his birth. Prof. Stundzia was accommodated at the PURO Hotel.

During the opening expert’s lecture of the Congress, in a few words about Academia Europaea activities and mission was presented as well as invitation to all further ventures and joint new initiatives on the local ground.

Visit of the “NANOin” Students’ Research Club to the University of Warsaw – 23-24 November 2017

Thanks to stronger collaboration between Academia Europaea Wroclaw Hub and Wroclaw University of Science and Technology, a group of 25 from Students Research Club “NANOin” (Faculty of Fundamental Problems Technology) had the opportunity to visit Warsaw to take part in a series of and to visit the Faculty of Physics lab at the University of Warsaw. The visit between 23 – 24 November 2017. The NANOin Students’ Club is by Prof. Grzegorz Sęk and brings together students who are passionate nanoeengineering.

To enable Wroclaw students to develop inter-university cooperation the joint venture of the NANOin with the Students Research Club “Nanorurki” at the University of Warsaw (supervised by Dr. Jacek Szczytko), students of the Faculty of Fundamental Problems of Technology to visited the University of Warsaw. Students from Wroclaw had an opportunity to develop inter-university cooperation and visit the laboratory of the Faculty of Physics of the University of Warsaw. It was also an occasion to organize one-day workshops, where both NANOin members and hosts gave their presentations.

Academia Europaea Knowledge Hub Wroclaw provided financial support the trip by covering the costs of one-night accommodation for participants of the meeting in Warsaw.

A lecture by Prof. Katarzyna Bazarnik from Jagiellonian University on “Liberature”, 1 December 2017

The Postcolonial Studies Center and Academia Europaea Wroclaw Knowledge Hub organized a workshop entitled Liberature in translation. Untranslatables in culture. coordinated by Prof. Katarzyna Bazarnik from the Jagiellonian University.
The topic, Liberature, is a kind of literature in which text and its material form constitute an organic whole in accordance with the authors intention. The lecture gathered over 30 participants.

The Wrocław Congresses’ Ambassadors and Polish AE Members Meeting – 5 December 2017

Academia Europaea Wroclaw Knowledge Hub annually co-organizes the Wroclaw Ambassadors Congress Meeting. In 2017 the meeting took place on December 5, at the AC by Marriott Wroclaw hotel.

Due to broader program of the event concerning the topic of effective acquiring of scientific congresses and conferences, all Polish Members of Academia Europaea were invited to participate. The presentations concerned not only Wroclaw’s conference and hotel industry but also the tools and entities that effectively contribute to organizing scientific meetings and events (like the local organization Convention Bureau - Wroclaw). Mr. Milos Milovanovic, an expert from Belgrade and founder of the Serbian national Convention Bureau, shared his knowledge with our guests concerning the topic of gaining events, forms of funding and providing support to the Ambassadors to acknowledge their role in gaining meetings.

During the meeting, the Katarzyna Majkowska presented the achievements of the Academia Europaea Wroclaw Knowledge Hub. By organizing series of conferences, meetings or lectures, the Hub integrates the local academic environment with the Members of Academia Europaea.

For the members of Academia Europaea this was an occasion to learn what kind of support they can obtain from AE Wroclaw Hub and which initiatives are possible to undertake in cooperation with local institutions and local entities. Significant aspects of functioning and support opportunities through city programs for students, entrepreneurs and academics were presented by Ms. Monika Sochacka, Deputy Director of the Wroclaw Academic Hub.

In order to make it easier for Academia Europaea Members to attend the event, for interested persons (Prof. Jerzy Langer from Warsaw, Prof. Jan Wołeński from Krakow), a railway (Prof. Wołeński) and a plane ticket (Prof. Langer) were organized and an overnight stay at the AC Hotel the Marriott was booked. The meeting was also attended by Ms. Aneta Książek from the Polish Tourist Organization, supporting all kind of activities connected to Ambassadors program, conferences and congress organized in Poland. As part of the participation of Mr. Milanovic and Ms. Książek, AE covered transport and accommodation of Mr. Milanovic and Ms. Książek, as well ae participation of Prof. Jan Wołeński (MAE) and Prof. Jerzy Langer (MAE).
Round Table of Scientific Excellence: ERC Grants From The Beginning One More Time, 20 December 2017

The meeting took place on 20 December 2017 and was organised jointly by three local institutions:

- Wrocław University of Science and Technology
- Academia Europaea Wrocław Knowledge Hub
- Wrocław Academic Hub

The discussion revolved around the topic of gaining prestigious European Reach Council grants for scientific research purposes of local institutions. The seminar was an opportunity for Rectors and Prorectors to exchange perspectives and opinions between various challenges, problems and ideas characteristic for educational institutions in Wrocław.

International Staff Week WSB – 17-18 May 2017

As a part of the program „3rd International Staff Week - Challenges for International Education” taking place in Wrocław on 17-18.05.2017 r. Academia Europaea hosted the visitation from WSB University.

The project guests were 15 representatives of academic and didactic staff from WSB Partner Universities: Cankiri Karatekin University-Turkey, Baltazar Zapresic University of Applied Sciences - Croatia, Universidad de Sonora – Mexico, National Minning University – Ukraine, Batumi Shota Rustaveli – Georgia, Franklin University – USA, European University – Ukraine.

The Hub presented its activities and plans and described the cooperation with the Municipality of Wrocław. In the second part of the meeting the representative of the Wrocław Academic Hub, Dr. Maciej Litwin presented the details of the local cooperation of scientific institutions with the city authorities.

SAPEA workshop: participation of Prof. Tadeusz Luty in the workshop in Bucharest – 16-17 October 2017

On the end of July, the Cardiff Hub Officers sent an invitation to Prof. Tadeusz Luty to participate in the workshop organized by SAPEA. The workshop aimed to strengthen cooperation between
Academies and to support individual Academies in providing evidence-based policy advice.

The workshops offer the opportunity to meet and exchange ideas with colleagues from Academies all over Europe, with discussions on topics such as Challenges faced by Academies when providing scientific advice for policy, working models and organizational structures or strategies used for promoting their activities.

The SAPEA project helps Academies of all sizes to raise their profile at the European level as well as aims to mobilise Academies in order to strengthen their contribution to SAPEA and SAM, through their membership of the five European Academy Networks (Academia Europaea, ALLEA, EASAC, Euro-CASE and FEAM). The workshops specifically targeted senior staff members of the Academies in order to strengthen the operational links with the SAPEA project.

Prof. Tadeusz Luty, Academic Director of Academia Europaea Wrocław Knowledge Hub actively participated in the meeting. His travel and accommodation was covered by the workshop organisers.

Annual AE Conference – Budapest, 3-7 September 2017 r.
During the Annual Conference AE Wrocław Hub presented its activities and plans on two most important meetings of the Conference – during the Board and Council meeting and during the General Assembly meeting. All its initiatives were applauded by the AE Members and further events were planned accordingly to the Board decisions.

Administrative support to two Classes of AE: A1, A2
The Wrocław hub supports two Classes of AE – A1 Humanities and A2 Social Sciences. Katarzyna Majkowska Wrocław Hub took part in both Class meetings (A2 – Germany on 8 May, 2017; A1 – Paris, France on 7 July, where the nomination cycle was finalized.

Promotional materials
In 2017 the Hub helped with creating business cards of Members, updated the AE Directory, printed a new batch and created and sent welcome packs for New Members Academia Europaea.
Introduction

Academia Europae Graz Information Centre was established in 2010 in an effort to increase the visibility of the Academy and its members. The Graz Information Centre is also responsible for the development and application of the nomination system and membership administration and registration. The AE-Info Server (http://www.ae-info.org, http://www.acadeuro.org) is hosted and operated by ISDS (Institute of Interactive Systems and Data Science), Graz University of Technology.

Website Tasks

- Web presentation of the Academy
- Presentations of the members of the Academy and their achievements
- Presentations of the individual sections of the Academy

Activities 2017

- 1145 pages edited
- 921 documents uploaded
- 41 News items posted
- 15 Events posted
- Generation and posting of membership statistics
- Management and upload of administrative pages (board meeting documents, council meeting documents, AGM documents, etc.)
- Creation of new website areas/(re)structuring of existing website areas
- Changes and improvements of navigation functionalities
- Support of Wroclaw staff concerning editing, contact data, statistics, mail lists etc.

Database (technical part)

The Graz Information Centre maintains and develops the membership database of the Academy.
Activities 2017

- Adapts of section structure (reduction in sections, transfer of members to other sections)
- Adaptation and extension of the database web application for administration of database
- Support of new fields by the administration tool. The following services for the AE-Info Server maintenance team are now provided:
  - Search for and retrieval of information (database content) of members of the Academy
  - Features to correct and update all specific information which is stored in the member database (e.g. address information, email address, phone numbers, etc)
  - Functions to export member information from the database and to download it to the local filesystem (for storage csv file format will be used)
- Paid/not paid
  - Extension of the admin application to support the administration of the Paid/not paid information
  - Expanding the search functionality to support the “Paid/NotPaid” flags
  - Exclusion of the Members with status of “NotPaid” from the search results
- Extension of search facilities (gender, resigned and deceased members)

Database (content)

The Graz Information Centre updates and administers the membership database of the Academy.

Activities 2017

- Registration of changes in contact data information
- Search for contact data of unreachable members
- Registration of deaths
  - 23 deaths from 2017 registered
  - 44 deaths from previous years registered
  - Search for deceased members
- Generation and provision of mail lists for section chairs
- Supply of membership information for section chairs
- Regular database updates sent to London and Wroclaw

Nomination Process

The electronic “nomination” and “acceptance” workflows operated by the Graz Information Centre support the nomination and acceptance procedures.
Activities 2017

- Adaptation of the nomination form:
  - Change of sections
  - Change of membership type (foreign) (pull-down menu)
  - Addition of fields
- Assistance to members concerning the filling in of nomination files
- 279 nominations registered
- Upload of nominations to the website, update and administration of access rights
- Electronic notification to class and section chairs
- Administration of section assessments
- Mails to 225 elected members
- 213 new members registered within 3 months after first contact
- Editing of 225 member pages, upload of photos
- Mails to non-respondents
- Administration of acceptances

Technical Support

The Graz Information Centre hosts the AE-Info server.

Activities 2017

- Control and tests of server
- Improvement of backup strategies for the AE-Info website (setup of a standby backup system)
- Continuous maintenance and update of the server operating system and database management system
- Implementation of a "watchdog system" for monitoring the correct operation of the AE-Info server

Twitter

The Twitter account of the Academy was created in 2015.

Activities 2017

- 368 followers by 2017
- 33 tweets posted

Meetings and Conferences

In 2017, the members of the Graz Information Centre, Robert Hoffmann, Dana Kaiser and Helmut Leitner took part in the following meetings:
• Hub Meeting in Graz: 28.04.2017. In a meeting attended by Sierd Cloetingh, the President of Academia Europaea, David Coates, the Executive Secretary, Frank Kappe, Dean of the Faculty of Computer Science and Biomedical Engineering, Graz University of Technology and the staff of the Graz Information Centre Robert Hoffmann, Dana Kaiser and Helmut Leitner, the past and future developments of the AE website, nomination process and database were discussed.

• AE Council and General Meeting in Budapest: 04.09.2017 – 06.09.2017. Dana Kaiser and Helmut Leinter attended the Annual Conference in Budapest and took part in discussions with class and section chairs and AE members about the AE web activities and administration issues. A fruitful exchange was also conducted with the representatives of the AE Knowledge Hubs.

• Nikita Harwich in Graz: 10.11.2017 – 11.11.2017. In a meeting with Nikita Harwich, the Chair of the History and Archaeology Section and the former chair of the section, Professor Renate Pieper, issues concerning collaborations within sections and classes, membership activities and possibilities of AE communication within and outside the Academy were discussed.

The trustees (who for company law purposes are the Directors) present their report and financial statements for the year ended 31 December 2017.

Principal activities and aims
The company's principal activity during the year continued to be the promotion of International scholarship, research, provision of training in higher education. Some of the aims of the organisation are to make recommendations to national governments, international agencies concerning matters affecting science, scholarship and academic life in Europe. Also, encouraging interdisciplinary and international research in all areas of learning.

Trustees/ Directors
The following persons served as trustees/ directors during the year:

Professor Dr Sierd Auke Pieter Leonard Cloetingh
Professor Theo D'Haen
Professor Eva Kondorosi
Professor Ole Holger Petersen
Professor Svend Erik Larsen
Professor Donald Dingwell
Professor Kirsten Drotner (appointed on 01 January 2017)
Professor Dagmar Coester-Waltjen (appointed on 01 January 2017)
Professor Alain Peyraube (appointed on 01 January 2017)
Professor Anne Buttimer (resigned on 01 September 2017)
Professor Balazs Gulyas (resigned 31 December 2017)
Professor Genoveva Marti (appointed on 01 January 2018)

Disclosure of information to auditors
Each person who was a trustee at the time this report was approved confirms that:

- so far as he is aware, there is no relevant audit information of which the company's auditor is unaware; and
- he has taken all the steps that he ought to have taken as a trustee in order to make himself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This report was approved by the board on 18 April 2018 and signed on its behalf.

[Signature]

Professor Dr Sierd Auke Pieter Leonard Cloetingh
President
The Academia Europaea (The Academy of Europe)
Statement of Trustees' Responsibilities

The trustees (who are also the directors of The Academia Europaea for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in operation.

The trustees are responsible for keeping accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditor is unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

The trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.
THE ACADEMIA EUROPAEA (THE ACADEMY OF EUROPE)
Report of the Independent Auditors to the trustees of The ACADEMIA EUROPAEA (THE ACADEMY OF EUROPE)

We have audited the financial statements of The Academia Europaea (The Academy Of Europe) for the period ended 31 December 2017 which comprise the statement of financial activities, the Balance Sheet, Cashflow statements and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Trustees, as a body. Our audit work has been undertaken so that we might state to the Trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's Trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of trustees and auditors
As explained more fully in the Trustees' Responsibilities Statement set out on page 3, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

The trustees have elected for the financial statements to be audited in accordance with the Charities Act 2011 rather than with the Companies Act 2006. Accordingly we have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with regulations made under section 154 of that Act. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements
An audit involves obtaining evidence about the financial statements and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the charitable company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the trustees; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the trustees report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

In accordance with the exemption provided by APB Ethical Standard - Provisions Available for Smaller Entities (Revised), we have assisted in the preparation of the financial statements of the charitable company.

Opinion on financial statements
In our opinion the financial statements:
* give a true and fair view of the state of the charitable company's affairs as at 31 December 2017 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
* have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
* have been prepared in accordance with the requirements of the Companies Act 2006

Matters on which we are required to report by exception
We have nothing to report in respect of the following matters where the Charities Act 2011 requires us to report to you if, in our opinion:
* the information given in the Trustees' Annual Report is inconsistent in any material respect with the financial statements; or
* the charitable company has not kept proper and adequate accounting records; or
* the financial statements are not in agreement with the accounting records and returns; or
* we have not received all the information and explanations we require for our audit.

Signed on 14 June 2018
Jerzy Borucki
Senior Statutory Auditor
For and on behalf of Keith Vaudrey & Co Chartered Accountants
15 Young Street
London W8 5EH

Keith, Vaudrey & Co is eligible to act as auditor in terms of Section 1212 of the Companies Act 2006.

1 Accounting policies

Basis of preparation and assessment of going concern
The accounts have been prepared under the historical cost convention with items recognised at cost or transaction value unless otherwise stated in the relevant note(s) to these accounts. The financial statements have been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 and the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and the Charities Act 2011.

The incorporated charity constitutes a public benefit entity as defined by FRS 102.

The directors also called trustees consider that there are no material uncertainties about the company’s ability to continue as a going concern.

Income
With the exception of members contributions and donations all income is credited to the statement of financial activities on an accruals basis.

Members contributions and donations are credited to the statement of financial activities in the year in which they are received.

Income received from lifetime membership are credited to the Statement of Financial Activities over ten years.

Cost allocation

Direct charitable expenditure includes all expenditure incurred on activities conducted in pursuance of Academia Europaea's objectives. Staff costs, premises overheads and other costs are apportioned on the basis of percentage time spent on charitable activities, fundraising and publicity, and management and administration. Irrecoverable VAT is included in the items of expenditure to which it relates.

Operating leases
Rentals and service charges paid under operating leases for office premises and equipment charged to Resources Expended in the Statement of Financial Activities as incurred.

Contributions from third parties
Several of Academia Europaea's activities are supported or partially supported by contributions from third parties paid directly to local organisers. These funds were previously included in the accounts. The hubs' funds that have not passed through the Academia's books were excluded in the accounts. Per The Academia Europaea's new policy, the hubs' financial records were not to be included in the Statement of Financial Activities.

Fixed assets and depreciation
Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost, less estimated residual value, of each asset over its expected useful life, as follows:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Depreciation Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Office furniture and equipment</td>
<td>10% per annum using the Straight line method</td>
</tr>
<tr>
<td>Computer equipment</td>
<td>25% per annum using reducing balance method</td>
</tr>
</tbody>
</table>

London Secretariat charges
Much of the London Secretariat’s time is spent organising and assisting plenary meetings, projects and study groups. It is the policy of Academia Europaea that, where possible, these administration costs be recovered from these activities.

Foreign currency transactions
Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Assets and liabilities in foreign currency are translated into sterling at the rate of exchange ruling on the balance sheet date.

Taxation
The Academia Europaea is a registered charity and therefore is not liable for income tax or corporation tax on income derived from its charitable activities, as it falls within the various exemptions available to registered charities.

Funds
Restricted funds are set up from grants and contributions given to Academia Europaea, the use of which is restricted as to the purpose and conditions imposed by the donors. None of these funds has any permanent endowed capital.

Unrestricted funds represent accumulated surpluses and deficits in the statement of financial activities which are available for use at the discretion of Academia Europaea's operations and activities. The Board may set aside amounts to be designated for specific uses or purposes.

The unrestricted funds comprise the general fund.
