- 2019 – 2022 RECIPEs (“Reconciling Science, Innovation and Precaution through Engagement with Stakeholders”), EU project, coordinated by Maastricht University; team member of the Bergen consortium. (<https://recipes-project.eu/partners>).
- 2020 – 2024 Managing Ethical Norwegian Seascapes (MENSA), coordinated by Mimi E.Lam, UiB, funded by Norwegian Research Council; member of network collaborators. (<https://prosjektbanken.forskningsradet.no/#/project/NFR/303663/Sprak=en>).

- **Ten-year track record:**

Kaiser’s areas of expertise are in the fields of philosophy of science, ethics of science, food ethics, and technology assessment. His areas of competence include social studies of science and technology, history of science, ethics, logic, and history of philosophy. Thematically, his current work has a focus on the following topics: **Philosophy of science** (uncertainty, risk, models, indicators, post-normal science), **Ethics of science** (integrity of research, research ethics, Responsible Research and Innovation), **Values and identities** (fundamentals of a theory of value, value-landscapes, empirical studies of values and identities), **Food ethics** (editing a journal, seafood ethics, governance of food systems), **Societal engagement** (transdisciplinarity, methods of participation, future workshops, surveys, technology assessment), and **Science-Policy Interface** (Science advice, evidence based support, submarine U864, values for policy). Kaiser research activities take place in a multi- and inter-disciplinary environment. He was among the founding members of the European Network for Research Integrity Offices (ENRIO) and was actively involved in the first two World Conferences on Scientific Integrity. Through detailed case studies, he has furthermore considerable insights in diverse fields of science, such as the history of plate tectonics, aquaculture, and biotechnology. Another topic of detailed study is the Precautionary Principle. In all of these cases Kaiser has developed a unique focus on ethical issues, which now makes him one of the leading scholars within **food ethics / seafood ethics**. His leading role in the conduct of **three Norwegian consensus conferences**, has led to a special interest in participatory methods, among others publishing on the use of the ethical matrix. He has (co-)published **4 books, co-edited 2 further books, published more than 180 scientific articles**, written several committee studies (including ethical guidelines) and project reports, and edited three thematic issues of scientific journals.

- **High-Level Invited Contributions to International Events:**

- Opening keynote at 3rd International Congress on Agricultural and Food Ethics, Turkey, November 2021.
- Invited expert to INGSA (International network for governmental science advice) meetings in Tokyo and Dublin, 2018-2019.
- Invited expert to the international consultations on Codes of Conduct for Scientists of UNESCOs COMEST in Geneva, Bangkok, and Belo Horizonte.
- Personally invited expert on ethics of science to help build up activities of national research ethics committee (CECTE) in Argentina; invited by the Minister of Science and Technology in Argentina. - Norwegian Member of the Co-ordinating Committee for Facilitating International Research Misconduct Investigations; Global Science Forum of the OECD.
- Invited expert by Portuguese ex-President Mario Soares to assist the World Commission on the Oceans.
- Invited expert by Portuguese President Jorge Sampaio to assist introduction of the Aarhus Convention in Portuguese law.

Google Scholar lists him with 2022 citations to date, and 941 since 2016 (accessed 09.11.2021), which gives a mean of roughly 188 citations per year recently. He is **Editor-in-chief** of a scientific journal with Springer Publishers: *Food Ethics – The Journal of the Societies for Agricultural and Food Ethics*, launched by him in 2016. Most of his publications are in English or in Norwegian, some in German, French or Spanish, and some have been translated into Russian, Chinese, and Serbo-Croatian. Kaiser has an extensive international network of academic contacts both from within his own field of training, and from many others:

Sir Peter Gluckman (ISC, INGSA & Auckland), George Gaskell (LSE), Thomas Potthast (Tübingen), Nancy Cartwright (Durham & San Diego), Jerry Ravetz (London), Mario Guiampetro (Barcelona), Philip Kitcher (Columbia NY), Mimi E. Lam & Tony Pitcher (both UBC, Vancouver), Dave Little (Stirling), Selina Stead (Newcastle), Kate Millar (Nottingham), Stellan Welin (Linköping), Peter Sandøe (Copenhagen), Maria Eduarda Goncalves (Lisbon), Angela Pereira (JRC, Ispra), Magda Giordano (UNAM Mexico), etc.) He is actively engaged in the European Society for Agricultural and Food Ethics (EurSafe), and has initiated the founding of the Asian-Pacific Society for Agricultural and Food Ethics. International Council for Science (formerly ICSU, Now: International Science Council, ISC, Paris) and UNESCO: During 1996 – 2002 he was Chair of ICSU’s Standing Committee on Responsibility and Ethics in Science (SCRES). He has lectured in many universities and institutes around Europe and other countries (e.g. USA,

Canada, Mexico, Argentina, Brazil, Australia, Taiwan, China, Thailand, Vietnam, Russia, Turkey, Israel, India, Bangladesh, New Zealand). He is often consulted for expert meetings or review of projects by the Nordic Council of Ministers, the EU, the Council of Europe, The European Science Foundation, and the National Science Foundation (US).
