

LIST OF PUBLICATIONS

ERLING NORRBY, Professor of Virology

Center for History of Science, The Royal Swedish Academy of Sciences

P.O. Box 50005, SE-104 05 Stockholm, Sweden

Tel: +46 (0)8 673 97 14, Fax: +46 (0)8 673 95 98, E-mail: erling@kva.se

2000

1. **Norrby E.** (2000). A marvelous journey through the archipelago of virology. *Kungl. Vetenskapsakademien*, 1-19.
This is a review of all scientific activities until 1997.

1960

2. **Norrby E and Albertsson P-Å.** (1960). Concentration of poliovirus by an aqueous polymer two-phase system. *Nature* **188**, 1047-1048.

1962

3. **Norrby E.** (1962). Hemagglutination by measles virus I. The production of hemagglutinin in tissue culture and the influence of different conditions on the hemagglutinating system. *Arch ges Virusforsch* **12**, 153-163.
4. **Norrby E.** (1962). Hemagglutination by measles virus II. Properties of the hemagglutinin and of the receptors on the erythrocytes. *Arch ges Virusforsch* **12**, 164-172.
5. **Norrby E.** (1962). Hemagglutination by measles virus 4. A simple procedure for production of high potency antigen for hemagglutination-inhibition (HI) tests. *Proc Soc Exp Biol Med* **111**, 814-818.

1963

6. **Norrby E.** (1963). Hemagglutination by measles virus. III. Identification of two different hemagglutinins. *Virology* **10**, 147-157.
7. **Norrby E, Friding B, Rockborn G and Gard S.** (1963). The ultrastructure of canine distemper virus. *Arch ges Virusforsch* **13**, 335-344.
8. **Norrby E, Magnusson P, Friding B and Gard S.** (1963). A note on the morphology of rubella virus. *Arch ges Virusforsch* **13**, 421-424.
9. **Norrby E, Lagercrantz R, Gard S and Carlström G.** (1963) Measles vaccination I. Serologic responses to an inactivated vaccine. *Arch ges Virusforsch* **13**, 548-558.
10. **Bloth B, Espmark Å, Norrby E and Gard S.** (1963). The ultrastructure of respiratory syncytial (RS) virus. *Arch ges Virusforsch* **13**, 582-586.

1964

11. **Norrby E.** (1964). Separation of measles virus components by equilibrium centrifugation in CsCl gradients. I. Crude and tween and ether treated concentrated tissue culture material. *Arch ges Virusforsch*, **14**, 306-318.
12. **Norrby E, Magnusson P, Falksveden L-G and Grönberg M.** (1964). Separation of measles virus components by equilibrium centrifugation in CsCl gradients. II. Studies on the large and the small hemagglutinin. *Arch ges Virusforsch* **14**, 462-473.
13. **Norrby E and Falksveden L-G.** (1964). Some general properties of the measles virus hemolysin. *Arch ges Virusforsch* **14**, 474-486.
14. **Norrby E, Carlström G, Lagercrantz R and Gard S.** (1964). Measles vaccination. II. Antibody titers 8 to 9 months after vaccination with an inactivated vaccine. *Acta Ped* **53**, 533-540.
15. **Norrby E.** (1964). Studies on measles virus. Dissertation.
16. **Norrby E, Grönberg M and Magnusson P.** (1964). Virusspecific products appearing during the multiplication of adenovirus type 3. *Unio Nordica contra Cancrum. Symposium on Virus and Cancer, Saltsjöbaden, Sweden, pp 118-124.*
17. **Norrby E.** (1964). A sensitive measles HI test. Proceedings of the International Symposium on Measles Vaccine Standardisation. Measles and rubella serology. Lyon, France, pp 186-191.
18. **Nichols WW, Levan A, Aula P and Norrby E.** (1964). Extreme chromosome breakage induced by measles virus in different *in vitro* systems. Preliminary communication. *Hereditas* **51**, 380-382
19. **Rockborn G, Norrby E and Lannek N.** (1964). En jämförelse mellan två valpsjukevaccinernas immuniseringsförmåga (in Swedish). *Svensk Veterinärtidning* **19**, 1-4.

1965

20. **Gard S, Carlström G, Lagercrantz R, and Norrby E.** (1965). Immunization with inactivated measles virus vaccine. *Arch ges Virusforsch* **16**, 315-323.
21. **Bloth B and Norrby E.** (1965). Morphology of subunits of respiratory syncytial (RS) virus. *Arch ges Virusforsch* **15**, 249-252.
22. **Rockborn G, Norrby E and Lannek N.** (1965). Comparison between the immunizing effect in dogs and ferrets of living distemper vaccines, attenuated in dog tissue cultures and embryonated eggs. *Res Vet Sci* **6**, 423-427.
23. **Neurath AR, and Norrby E.** (1965). Enhanced haemolytic activity of Sendai virus after treatment with preparations of lysosomal enzymes. *Arch ges Virusforsch* **15**, 598-599.

24. **Neurath AR, and Norrby E.** (1965). Further elucidation of the nature of the measles virus hemolysis based on inactivation studies. *Arch ges Virusforsch* **15**, 651-658.
 25. **Norrby E, Lagercrantz R, Gard S and Carlström G.** (1965). Measles vaccination. III. Serologic responses to immunization with purified hemagglutinin. *Acta ped Scand* **54**, 581-586.
 26. **Norrby E, Lagercrantz R and Gard S.** (1965). Measles vaccination IV. Responses to two different types of preparations given as a fourth dose of vaccine. *Brit Med J* **1**, 813-817.
 27. **Nichols WW, Levan A, Aula P and Norrby E.** (1965). Chromosome damage associated with the measles virus *in vitro*. *Hereditas* **54**, 101-118.
 28. **Norrby E and Magnusson P.** (1965). Some morphological characteristics of the internal component of measles virus. *Arch ges Virusforsch* **17**, 444-447.
 29. **Norrby E.** (1965). Characteristics of the progeny derived from multiplication of Sendai virus in a measles virus carrier cell line. *Arch ges Virusforsch* **17**, 436-442.
 30. **Norrby E, Levan A and Nichols WW.** (1965). The correlation between the chromosome pulverization effect and other biological activities of measles virus preparations. *Exp Cell Res* **41**, 483-491.
- 1966
-
31. **Norrby E.** (1966). Effect of sodium deoxycholate on biological activities of measles virus. *Proc Soc Exp Biol Med* **121**, 948-954.
 32. **Norrby E.** (1966). Measles. *In: Recent Advances in Medical Microbiology. J & Churchill Ltd, London, pp 1-53.*
 33. **Norrby E.** (1966). The effect of phlorizin on the multiplication of measles virus. *Arch ges Virusforsch* **18**, 333-343.
 34. **Norrby E, Lagercrantz R and Gard S.** (1966). Measles vaccination. V. The booster effect of purified hemagglutinin in children previously immunized with this product or formalin-killed vaccine. *Act Ped Scand* **55**, 73-78.
 35. **Norrby E, Lagercrantz R and Gard S.** (1966). Measles vaccination. VI. Serological and clinical follow-up analysis 18 months after a booster injection. *Act Ped Scand* **55**, 457-462.
 36. **Bloth B and Norrby E.** (1966). Fractionation of respiratory syncytial (RS) virus components by centrifugation techniques. *Arch ges Virusforsch* **19**, 385-392.
 37. **Norrby E.** (1966). The relationship between the soluble antigens and the virion of adenovirus type 3. I. Morphological characteristics. *Virology* **28**, 236-248.

38. **Norrby E.** (1966). Virus taxonomi och systematik (In Swedish). Spektrum international (Pfizer) **1**, 7-15.
39. **Norrby E.** (1966). Virussjukdomar hos barn (VI). Aktuellt och prospektivt om vaccinprofylax (in Swedish). Läkartidningen **63**, 2156-2161.
40. **Norrby E.** (1966). The relationship between the soluble antigens and the virion of adenovirus type 3. II. Identification and characterization of an incomplete hemagglutinin. Virology **30**, 608-617.
41. **Norrby E.** (1966). Röda hund. (In Swedish). Läkartidningen **63**, 4492-4498.

1967

42. **Norrby E.** (1967). Some aspects on the use of viral antigens in hemagglutination-inhibition (HI) tests. Symp Series immunobiol. Standard **4**, 231-238.
43. **Norrby E.** (1967). A carrier cell line of measles virus in Lu 106 cells. Arch ges Virusforsch **20**, 215-224.
44. **Heenen WK, Nichols WW, Levan A and Norrby E.** (1967). Studies on syncytia formation in a cell line (Lu 106) of human origin after treatment with measles virus. Hereditas **57**, 369-372.
45. **Nichols WW, Aula P, Levan A, Heenen W, and Norrby E.** (1967). Radioautography with tritiated thymidine in measles and Sendai virus-induced chromosome pulverization. J Cell Biol **35**, 257-262.
46. **Norrby E.** (1967). Present status of killed measles vaccine. Proceedings of the First International Conference on Vaccines against Viral and Rickettsial Disease of Man. PAHO, Sci Publ 147, pp 301-311.
47. **Bloth B and Norrby E.** (1967). Electron microscopic analysis of the internal component of respiratory syncytial (RS) virus. Arch ges Virusforsch **21**, 71-77.
48. **Norrby E and Wadell G.** (1967). Soluble components of adenovirus typ 4. Virology **31**, 592-600.
49. **Norrby E and Skaaret P.** (1967). The relationship between the soluble antigens and the virion of adenovirus type 3. III. Immunological identification of fiber antigen and isolated vertex capsomer antigen. Virology **32**, 489-502.
50. **Wadell G, Norrby E and Schönning U.** (1967). Ultrastructure of soluble antigens and the virion of adenovirus type 4. Arch ges Virusforsch **21**, 234-242.
51. **Norrby E, Nyberg B, Skaaret P and Lengyel A.** (1967). Separation and characterization of soluble adenovirus type 9 components. J Virol **1**, 1101-1108.
52. **Norrby E.** (1967). Rinovirus (in Swedish). Läkartidningen **64**, 3038-3046.

1968

-
53. **Norrby E and Skaaret P.** (1968). Comparison between soluble components of adenovirus types 3 and 16 and of the intermediate strain 3-16 (the San Carlos agent). *Virology* **36**, 201-211.
54. **Norrby E.** (1968). Comparative studies on the soluble components of adenovirus types 9 and 15 and the intermediate strain 9-15. *J Virol* **2**, 1200-1210.
55. **Norrby E.** (1968). Identification of soluble components of adenovirus type 11. *J Gen Virol* **2**, 123-133.
56. **Norrby E.** (1968). Comparison of soluble components of adenovirus types 3 and 11. *J Gen Virol* **2**, 135-142
57. **Norrby E.** (1968). Biological significance of structural adenovirus components. *In: Current Topics in Microbiology and Immunology, vol 43, pp 1-43. Springer Verlag*
58. **Norrby E.** (1968). Interferon - ett naturligt försvar mot infektioner (in Swedish). *Läkartidningen* **65**, 4039-4047.

1969

-
59. **Norrby E, Lagercrantz R and Gard S.** (1969). Measles vaccination. VII. Follow-up studies in children immunized with four doses of inactivated vaccine. *Acta Pæd Scand* **58**, 261-267.
60. **Wadell G, Norrby E and Skaaret P.** (1969). The soluble hemagglutinins of adenoviruses belonging to Rosen's subgroup III. I. The rapidly sedimenting hemagglutinin. *Arch ges Virusforsch* **26**, 33-52
61. **Wadell G and Norrby E.** (1969). The soluble hemagglutinins of adenoviruses belonging to Rosen's subgroup III. II. The slowly sedimenting hemagglutinin. *Arch ges Virusforsch* **26**, 53-62
62. **Norrby E.** (1969). The relationship between the soluble antigens and the virion of adenovirus type 3. IV. Immunological complexity of soluble components. *Virology* **37**, 565-576.
63. **Norrby E, Marusyk H and Hammarskjöld M-L.** (1969). The relationship between the soluble antigens and the virion of adenovirus type 3. V. Identification of antigen specificities available at the surface of virions. *Virology* **38**, 477-482.
64. **Norrby E, Wadell G and Marusyk H.** (1969). Fiber-associated incomplete and complete hemagglutinins of adenovirus type 6. *Arch ges Virusforsch* **28**, 239-244.
65. **Norrby E and Albert J.** (1969). Biological characterization of structural components of adenovirus type 12. *J Gen Virol* **5**, 183-194.
66. **Norrby E.** (1969). The structural and functional diversity of adenovirus capsid components. *J Gen Virol* **5**, 221-236.

67. **Norrby E and Wadell G.** (1969). Immunological relationships between hexons of certain human adenoviruses. *J Virol* **4**, 663-670.
68. **Wadell G and Norrby E.** (1969). Immunological and other biological characteristics of pentons of human adenoviruses, *J Virol* **4**, 671-680.
69. **Svartz-Malmberg G and Norrby E.** (1969). Brief report. Atypical adenovirus type 1 strains isolated from patients with laryngitis. *Acta Path Microbiol Scand* **76**, 648-650.
70. **Norrby E.** (1969). Capsid mosaics of intermediate strains of human adenoviruses. *J Virol* **4**, 657-662
71. **Norrby E.** (1969). Rubella virus. *In: Monographs in Virology* **7**, pp 115-174. (Eds Hallauer et al). Springer Verlag, Wien.
72. **Norrby E.** (1969). Some aspects on the preparation of vaccines containing purified antigens. *Progr immunobiol Standard* **3**, 159-164 (Karger, Basel/New York).
73. **Norrby E.** (1969). 1969 års nobelpris i medicin (in Swedish). *Cancer* **2**, 8-13.

1970

74. **Chiarini A and Norrby E.** (1970). Separation and characterization of products of two measles virus variants. *Arch ges Virusforsch* **29**, 205-214.
75. **Norrby E, Chiarini A and Marusyk H.** (1970). Measles virus variants; intracellular appearance and biological characteristics of virus products. *In: The biology of large RNA viruses* (Eds Barry RD and Mahy BWJ) Academic Press Inc, New York, pp 141-152.
76. **Heneen WK, Nichols WW, Levan A and Norrby E.** (1970). Polykaryocytosis and mitosis in a human cell line after treatment with measles virus. *Hereditas* **64**, 53-84
77. **Norrby E, Marusyk H and Örvell C.** (1970). Morphogenesis of respiratory syncytial virus in a green monkey kidney cell line (vero). *J Virol* **6**, 237-242.
78. **Marusyk RG, Norrby E and Lundqvist U.** (1970). Biophysical comparison of two canine adenovirus. *J Virol* **5**, 507-512.
79. **Norrby E, van der Veen and Espmark Å.** (1970). A new serological technique for identification of adenovirus infections. *Proc Soc Exp Biol Med* **134**, 889-895.
